On Language Change The Invisible Hand In Language:

On Language Change Rudi Keller, 1994 In On Language Change Rudi Keller reassesses language change and places it firmly back on the linguistics agenda Based on the ideas of eighteenth and nineteenth century thinkers such as Mandeville Smith and Menger he demonstrates that language change can indeed be explained through the workings of an invisible hand

On Language Change Rudi Keller, 1994-11-24 In the twentieth century paradigms of linguistics have largely left language change to one side Rudi Keller's book is an exciting contribution to linguistic philosophy because it puts language change back on the linguistics agenda and demonstrates that far from being a remote mystery it can and should be explained On

Language Change Rudi Keller, 2005-06-29 Language change is back on the agenda in Rudi Keller's exciting book He demonstrates that far from being a remote mystery it can and should be explained **The Evolution of Language** Andrew

D. M. Smith, Kenny Smith, Ramon Ferrer i Cancho, 2008 This proceedings volume contains the latest results from the field of particle physics The contributions cover the current status of all the Large Hadron Collider LHC experiments the implications of the LHC for cosmology and the search for dark matter and nuclear astrophysics It also includes work on the current status of the future International Linear Collider ILC *Competing Models of Linguistic Change* Ole Nedergaard

Thomsen, 2006-10-25 The articles of this volume are centered around two competing views on language change originally presented at the 2003 International Conference on Historical Linguistics in the two important plenary papers by Henning Andersen and William Croft The latter proposes an evolutionary model of language change within a domain neutral model of a generalized analysis of selection whereas Henning Andersen takes it that cultural phenomena could not possibly be handled i.e. observed described understood in the same way as natural phenomena These papers are models of succinct presentation of important theoretical framework The other papers present and discuss additional models of change e.g. invisible hand processes system internal models functional and cognitive models Most papers do not subscribe to the evolutionary model instead they focus on functional factors in the selection and propagation of variants as opposed to factors of code efficiency or on cognitive and pragmatic perspectives Several papers are inspired by the late Eugenio Coseriu and by Henning Andersen's theories on language change In particular the volume contains articles proposing interesting grammaticalization studies and extended models of grammaticalization The clear presentation of important and competing approaches to fundamental questions concerning language change will be of high interest for scholars and students working in the field of diachrony and typology The languages referred to in the papers include Cantonese the Chukotko Kamchatkan languages Danish English Eskimo languages German Norwegian Russian Spanish and Swedish *Language Change* Leiv E. Breivik, Ernst H. Jahr, 2011-06-01 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and

cognitive science TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing

Formulaic Language and Linguistic Change Andreas Buerki, 2020-04-16 A substantial proportion of our everyday language is formulaic that is it consists of oft repeated chunks From pause fillers such as you know to phrases such as Many thanks Is this seat taken or strong tea they form a phenomenon central in language This important new book investigates formulaic language from the point of view of language change Employing a novel quantitative and data led approach it traces and analyses change in phraseology across 20th Century German as used in Switzerland Drawing on nearly 20 million words of textual evidence it shows that social and cultural change in the speech community is the predominant motivator of change though other factors are also at play The book demonstrates a close link between language change and the culture of the speech community arguing that this has repercussions for the study of language in general as well as the study of society and history

Lexikon Der Sprachwissenschaft Hadumod Bussmann, 1996 In over 2 500 entries this Dictionary provides an exhaustive survey of the key terminology and languages of more than thirty sub disciplines of linguistics

Language and History Nigel Love, 2006-04-18 In recent years integrationist theory has mounted a radical challenge to the traditional notion of languages as possible objects of inquiry This volume develops the integrationist critique of orthodox linguistics

Koine Formation and Society Randi Neteland, 2019-10-11 Massive in migration to a new town leads to socio cultural and linguistic contact and inevitably change Which linguistic features are preferred in the new dialect Why do these features prevail And how does language use in the wider society influence the local process Randi Neteland explores local and national conditions of koine formation in *Koine Formation and Society* using three Norwegian industrial town dialects as main examples The koine formation is characterized by a complex interplay between social and linguistic factors such as in migration rate migrants social characteristics housing conditions social class distinctions in migrants dialect background and linguistic distinctions among the varieties in contact However Neteland contextualizes the industrial towns within the larger society from which the in migrants originate and these case studies reveal to what extent the language use and norms for language use operating in the wider speech community can also influence the outcome of the koine formation In *Koine Formation and Society* Neteland explores how the social and linguistic factors work together and discusses determining factors and constraints on the local and national level

The ^AOxford Handbook of Language Contact Anthony P. Grant, 2020-01-10 The Oxford Handbook of Language Contact examines the ways in which speakers of one language can exert influence on another language and the ways in which we can assess this influence It draws on data from dozens of languages from across the globe and examines the contact histories of twenty such situations including American Sign Language in detail It is the most up to date book on this topic in the science of language

Body, Language, and Mind Tom Ziemke, Jordan Zlatev, Roslyn M. Frank, 2007 Includes papers which introduce and elaborate upon the concept of sociocultural situatedness understood as the way in which minds and cognitive processes are shaped both individually and collectively and by their interaction with culturally contextualized structures and practices

Changes Between the Lines Doris Stolberg, 2015-08-17 The book investigates the diachronic dimension of contact induced language change based on empirical data from Pennsylvania German PG a variety of German in long term contact with English Written data published in local print media from Pennsylvania USA between 1868 and 1992 are analyzed with respect to semantic changes in the argument structure of verbs the use of impersonal constructions word order changes in subordinate clauses and in prepositional phrase constructions The research objective is to trace language change based on diachronic empirical data and to assess whether existing models of language contact make provisions to cover the long term developments found in PG The focus of the study is thus twofold first it provides a detailed analysis of selected semantic and syntactic changes in

Pennsylvania German and second it links the empirical findings to theoretical approaches to language contact Previous investigations of PG have drawn a more or less static rather than dynamic picture of this contact variety The present study explores how the dynamics of language contact can bring about language mixing borrowing and eventually language change taking into account psycholinguistic processes in the head of the bilingual speaker *The Origins of Grammar* James R. Hurford, 2012 The second in James Hurford's acclaimed two volume exploration of the biological evolution of language explores the evolutionary and cultural preconditions and consequences of humanity's great leap into language **History of the Language Sciences / Geschichte der Sprachwissenschaften / Histoire des sciences du langage. 3. Constructionalization and Constructional Changes Elizabeth Closs Traugott, Graeme Trousdale, 2013-11 This book develops an approach to language change based on construction grammar in order to reconceptualize grammaticalization and lexicalization The authors show that language change proceeds by micro steps involving every aspect of grammar including pragmatics and discourse functions A new and productive approach to historical linguistics **Standardization, Ideology and Linguistics** N. Armstrong, I. Mackenzie, 2012-12-14 The authors explore some of the ways in which standardization ideology and linguistics are interrelated Through a number of case studies they show how concepts such as grammaticality and structural change covertly rely on a false conceptualization of language one that derives ultimately from standardization **Historical Linguistics 2017** Bridget Drinka, 2020-07-15 The collected articles in this volume address an array of cutting edge issues in the field of historical linguistics including new theoretical approaches and innovative methodologies for studying language through a diachronic lens The articles focus on the following themes I Case Argument Structure II Alignment Diathesis III Patterns Paradigms Restructuring IV Grammaticalization Construction Grammar V Corpus Linguistics Morphosyntax VI Languages in Contact Papers reflect a wide range of perspectives and focus on issues and data from an array of languages and language families from new analyses of case and argument structure in Ancient Greek to phonological evidence for language contact in Vietnamese from patterns of convergence in Neo Aramaic to the development of the ergative in Basque The volume contributes substantially to the debate surrounding core issues of language change the role of the individual speaker the nature of paths of grammaticalization the role of contact the interface of diachrony and synchrony and many other issues It should be useful to any reader hoping to gain insight into the nature of language change
