You're a Robot Manuel Triguero,2020-06-22 Within us there is a world in continuous boiling made up of a whole network of circuits connections and structures that give rise to a permanent torrent of

thoughts and emotions which gradually circulate through our minds on many occasions without our causing them voluntarily. This happens daily throughout all hours of the day. It is a passionate space of images that arise in an accelerated way and repeat and fade as time goes by. It is like a chaotic disorganized universe on which it is necessary to establish an order, a classification of priorities, a logic and a new structure. It is our inner world. It is like another hidden life that we should take out to try to analyze it instead of continuing to remain in the daily film in which we are sometimes immersed and do not recognize ourselves so that we come to feel empty when we verify that on many occasions we are not ourselves. Our mind is an essential tool for our survival and development in the environment in which we live. Thanks to it we can develop our full potential, all those qualities that we possess and that on many occasions we are not aware of. It is the most precious asset that we have so our main concern should be to get to know its operation, to know the most important elements that make it up because depending on how we use it so will be our journey through life in all senses. Although it would not only be enough to know the main components that make it up, it is also necessary to achieve the right wisdom to know how to use it and get its full hidden potential. This requires a constant curiosity and search for information that can clarify the doubts and those gaps that we have in most cases about some aspects that are key and that govern mental life. For all these reasons it should be said in the first place that the mind is made up of an unconscious and a conscious part. The unconscious part comprises approximately 95% of the t

So Much Water, so Little Wood Daniel J. Theron M.A. TH Ph.D., 2014-01-17 To appreciate this book readers must grasp the symbolism of its title and the front page depicting the author's life story sometimes in rough seas. At three-four years old he was already strongly aware that he had been called into the Christian ministry, an inspiration for a long fruitful life. He grew up helping in their South African farm life. He commuted to grammar school on horseback, accumulating enough miles to ride three times from New York to California. It was a financial struggle to become ordained as a clergyman. His story is interestingly interspersed with several short unbelievable biographies of classmates and what life was like. Read the *The Sturdy Warrior* Chapter V and others like *Albert Schweitzer of the Bushveld* and *We Shall Triumph* in the book mentioned below. With several well-earned degrees he migrated to the USA to study at Princeton Theological Seminary where he became a professor. But then the delicate call that had driven him since childhood was smashed seemingly beyond repair. However for him those called into God's Kingdom can in its wideness find symbolic pulpits and lecterns in many places. Of all he found such in Wall Street and applied himself with the Latin sayings *strong command age quod agis* Do what you are doing. How is it continuing? Please find out in this book's sequel entitled *Faith Hope and Determination*
