Readings on the Sociology of the Family Bert N. Adams, Thomas Weirath, 1971 **Readings on the Sociology of the Family** Bert N. Adams, Thomas Weirath, 1971 **Books in Series**, 1985 Vols for 1980 issued in three parts Series Authors and Titles Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1973 The Family: Change or Continuity? Faith Robertson Elliot, 1986-10-27 Faith Elliot's book has a coherence unusual in a textbook As its title suggests it directs our attention to change and continuity in the family It reviews debates about the biological origins of the nuclear family and gender roles accounts of the development of the conjugal family as the dominant family form in modern Western societies and of change in the roles of men and women within and without the family the remodelling of the conjugal family consequent on the legitimization of divorce and the emergence of one parent families and remarriage families and the development of alternative lifestyles as exemplified in unmarried cohabitation same sex pairings and group living The book considers Marxist and feminist approaches alongside the functional approaches which have been more traditional in the sociological study of the family *Family and Economy in Modern Society* P. Close, R. Collins, 1985-03-25 **Culturally Competent Family Therapy** Shlomo Ariel, 1999-10-30 The problems of a family are often conditioned by the cultural issues its members face regardless of their socioeconomic background However most therapeutic models ignore this important factor Ariel's book offers a model for diagnosis and therapy that incorporates cultural issues It provides clinicians and trainees with readily applicable concepts methods and techniques for helping families and their members overcome difficulties related to intermarriage immigration acculturation socioeconomic inequality prejudice and ecological or demographic change This approach enables therapists to analyze and describe a family as a cultural system explain its culture related difficulties and design and carry out culturally sensitive strategies for solving these difficulties The model introduced in this book integrates theories in family therapy in general and culturally oriented family therapy in particular with ideas drawn from many other fields such as cross cultural psychology psychiatry anthropology and linguistics The form of therapy presented in this book is integrative drawing from traditional curing and healing techniques employed in folk psychotherapy and medicine in addition to more conventional therapeutic models Every technique is modified to be adapted to the cultural character of the family in question This book is designed to be a handbook for clinicians and a textbook for students trainees and researchers It can be used as a guide for a complete independent method of family therapy and also as a source of ideas and techniques that can be incorporated selectively into other forms of therapy **Chicano Bibliography**, 1973 **Exploring Signature Pedagogies** Regan A. R. Gurung, Nancy L. Chick, Aeron Haynie, 2023-07-03 From the Foreword These authors have clearly shown the value in looking for the signature pedagogies of their disciplines Nothing uncovers hidden assumptions about desired knowledge skills and dispositions better than a careful examination of our most cherished practices The authors inspire specialists in other disciplines to do the same Furthermore they invite other

colleagues to explore whether relatively new interdisciplinary fields such as Women's Studies and Global Studies have or should have a signature pedagogy consistent with their understanding of what it means to apprentice in these areas Anthony A. Ciccone Senior Scholar and Director Carnegie Academy for the Scholarship of Teaching and Learning How do individual disciplines foster deep learning and get students to think like disciplinary experts With contributions from the sciences humanities and the arts this book critically explores how to best foster student learning within and across the disciplines This book represents a major advance in the Scholarship of Teaching and Learning SoTL by moving beyond individual case studies best practices and the work of individual scholars to focus on the unique content and characteristic pedagogies of major disciplines Each chapter begins by summarizing the SoTL literature on the pedagogies of a specific discipline and by examining and analyzing its traditional practices paying particular attention to how faculty evaluate success Each concludes by articulating for its discipline the elements of a signature pedagogy that will improve teaching and learning and by offering an agenda for future research Each chapter explores what the pedagogical literature of the discipline suggests are the optimal ways to teach material in that field and to verify the resulting learning Each author is concerned about how to engage students in the ways of knowing the habits of mind and the values used by experts in his or her field Readers will not only benefit from the chapters most relevant to their disciplines As faculty members consider how their courses fit into the broader curriculum and relate to the other disciplines and design learning activities and goals not only within the discipline but also within the broader objectives of liberal education they will appreciate the cross disciplinary understandings this book affords

Representing the Family Deborah Chambers, 2001-06-26 Looking at how the family is represented by the media and by scrutinizing the manner in which it is regulated this book uncovers the ways in which academic research and welfare policy have colluded with political rhetoric and the popular media to reinvent a mythical ideal family Representing the Family combines perspectives from a range of theories including media and cultural studies sociology and social history to show how certain types of family life are pathologised highlights the discrepancies between contemporary representations of the ideal family and lived experience compares the British experience with that of the United States and Australia Representing the Family provides a rich and an engaging illustration of the ways in which the media produce meaning It also demonstrates the ways in which critical social issues are played out across a range of discursive sites academia politics and public policy

Cheal,1991-01-01 Family studies play an increasingly important role in contemporary sociology David Cheal provides an up to date and comprehensive survey of modern sociological theories about family life While recognizing that these theories are both diverse and fragmented he argues that such divisions are a positive and integral aspect of studying contemporary family theory Cheal takes a broad comparative approach to the theories analysed using empirical examples from North America Europe and Australia and examining how old and new approaches interact with one another He argues that it is possible to make sense of a contemporary family theory by analysing its divisions as the result of different experiences of modernity These experiences lie along three axes first the opposition between social modernism and its anti modernist critics second the ideological effects of contradictions within modernity itself and third the emerging difference between modernist idealism and post modernist scepticism Another major theme of the book is the profound impact of feminism on contemporary family studies and how this has been the catalyst for so much rethinking of the subject in recent years By comparing a wide range of theories in this way and providing a conceptual framework to explain and encourage theoretical pluralism David Cheal has produced a major new work for students and researchers of family sociology and social theory worldwide **The Publishers Weekly** ,1972-04
