The Illusion of Inclusion Rodolfo Rosales, 2010-07-05 To many observers the 1981 election of Henry Cisneros as mayor of San Antonio Texas represented the culminating victory in the Chicano community's decades long struggle for inclusion in the city's political life Yet nearly twenty years later inclusion is still largely an illusion for many working class and poor Chicanas and Chicanos since business interests continue to set the city's political and economic priorities In this book Rodolfo Rosales offers the first in depth history of the Chicano community's struggle for inclusion in the political life of San Antonio during the years 1951 to 1991 drawn from interviews with key participants as well as archival research He focuses on the political and organizational activities of the Chicano middle class in the context of post World War II municipal reform and how it led ultimately to independent political representation for the Chicano community Of special interest is his extended discussion of the role of Chicana middle class women as they gained greater political visibility in the 1980s

Racial Politics And

Urban Planning Robert A. Catlin, 2014-10-17 When Richard G Hatcher became the first black mayor of Gary Indiana in 1967 the response of Gary's white businessmen was to move the entire downtown to the suburbs thereby weakening the city core. Meanwhile white business and institutional leaders in Atlanta Detroit and Newark worked with black mayors heading those majority black cities to rebuild their downtowns and neighborhoods. Why not Gary? Robert A Catlin who served as Mayor Hatcher's planning advisor from 1982 to 1987 here analyzes the racial conflicts that tore Gary apart. He asserts that two types of majority black cities exist. Type I including Atlanta Baltimore Detroit and Newark have Fortune 500 corporate headquarters major universities and large medical centers institutions that are placebound and their leaders must work with black mayors. Type II cities like Gary lack these resources thus their white leaders feel less compelled to cooperate with black mayors. Unfortunately in Gary's case black politicians and white executives fell victim to pettiness and mistrust and as a result Gary and the entire northwest Indiana region suffered. Racial Politics and Urban Planning is required reading for citizens interested in urban affairs. Leaders in cities such as Albany and Macon Georgia Monroe Louisiana Mount Vernon New York and Pine Bluff Arkansas should also take note. Those cities have just become majority black and are in the Type II category. Will they learn from Gary or are they doomed to repeat its mistakes?

Contours of African American Politics Georgia Persons, 2017-07-05 Contours of African American Politics chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry. African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment. Hence the study of African American politics has sought to track codify and analyze the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society. This two volume set presents a selection of scholarship on African American politics as it appeared in The National Political Science Review from its initial launch in 1989 to the spring of 2009. Represented are contributions from some of the leading scholars of African American politics who have helped to establish and sustain the field. The volumes are organized around themes that derive from the unfolding real life drama of African American politics and its subsequent scholarly treatment. The result is a window into the political efforts that meld the historically disparate strands of black political expressions into a reconstructed and strategically nimble electoral based mass mobilization necessary for optimizing the impact of the African American vote. Sections in the volumes also chronicle the evolution of the National Conference of Black Political Scientists as a professional organization. The two volumes illuminate a pivotal epoch in black political empowerment and provide a context for the future of black politics.

Problems and Methods in the Study of Politics Ian Shapiro, Rogers M. Smith, Tarek E. Masoud, 2004-09-09 The study of politics seems endlessly beset by debates about method. At the core of these debates is a single unifying concern: should political scientists view themselves primarily as scientists developing ever more sophisticated tools and studying only those phenomena to which such tools may fruitfully be applied? Or should they instead try to illuminate the large complicated untidy problems

thrown up in the world even if the chance to offer definitive explanations is low Is there necessarily a tension between these two endeavours Are some domains of political inquiry more amenable to the building up of reliable scientific knowledge than others and if so how should we deploy our efforts In this book some of the world s most prominent students of politics offer original discussions of these pressing questions eschewing narrow methodological diatribes to explore what political science is and how political scientists should aspire to do their work
