Science Update 1986 A Modern Science Anthology For The Family:

Van Nostrand's Scientific Encyclopedia Douglas M. Considine, Glenn D. Considine, 2013-12-11 Advancements in science and engineering have occurred at a surprisingly rapid pace since the release of the seventh edition of this encyclopedia. Large portions of the reference have required comprehensive rewriting and new illustrations. Scores of new topics have been included to create this thoroughly updated eighth edition. The appearance of this new edition in 1994 marks the continuation of a tradition commenced well over a half century ago in 1938. Van Nostrand's Scientific Encyclopedia First Edition was published and welcomed by educators worldwide at a time when what we know today as modern science was just getting underway. The early encyclopedia was well received by students and educators alike during a critical time span when science became established as a major factor in shaping the progress and economy of individual nations and at the global level. A vital need existed for a permanent science reference that could be updated periodically and made conveniently available to audiences that numbered in the millions. The pioneering VNSE met these criteria and continues today as a reliable technical information source for making private and public decisions that present a backdrop of technical alternatives. **LC Science**

Tracer Bullet, 1972 **Science Annual**, 1987 **Secularization and China's Modernization** Zhongmin Wu, 2024-12-17 This open access book examines from the perspective of secularization. Since the publication of Max Weber's Protestant Ethics and the Spirit of Capitalism, how to realize modernization in developing countries has become an urgent problem to be demonstrated. Secularization has become an endogenous power for Chinese modernization procedure especially since 1978. However, to understand the foundation of secularization, it is inevitable to trace back to Chinese history. This approach contains critical analysis and profound insight to illuminate the essence of secularization in contemporary Chinese context. The author also applies the comparative approach by comparing with Protestant ethics in many Western European countries. The significance of secularization has been emphasized. The widespread and intense secularization boosts China into the trend of modernization that covers nearly all aspects of society. This book is in need for those who intended to discern the truth of Chinese modernization. It is also a key tool of reflecting modernization and development in a broader sense.

Science Annual, 1986, 1985 **Teaching Durkheim** Terry F. Godlove Jr., 2004-12-23 Emile Durkheim's work on religion occupies a central place in religious studies classrooms today. At the undergraduate level, Durkheim is widely taught in large Introduction to Religion courses and in upper division seminars in theory and method. His work is also taught in graduate Religious Studies departments of all stripes, from those grounded in the social sciences to those rooted in phenomenology and history of religions. This diverse classroom use within religious studies is reproduced in neighboring disciplines where Durkheim's work on religion is regularly introduced in courses in sociology, anthropology, history, and philosophy, as well as in such interdisciplinary programs as Jewish studies and women's studies. This volume is designed as a resource for teachers and students of Durkheim on religion, providing practical advice about productive ways to approach

central texts and difficult pedagogical issues It represents diverse points of views and a range of disciplines The essays in Part One address large issues arising from the whole of Durkheim s work on religion such as what material to assign in what sorts of courses and on how to present the material to students of varying background and motivation Part Two turns to context with essays assessing the available English translations of the Elementary Forms of Religious Life and exploring how to teach the historical critical and biographical framework of Durkheim s work on religion Part Three takes up questions of how to incorporate Durkheim s work in courses concerned with ethics gender studies and social theory

Infertility around the Globe Marcia Inhorn, Frank van Balen, 2002-05-30 This exceptional collection of essays breaks new ground by examining the global impact of infertility as a major reproductive health issue one that has profoundly affected the lives of countless women and men Based on original research by seventeen internationally acclaimed social scientists it is the first book to investigate the use of reproductive technologies in non Western countries Provocative and incisive it is the most substantial work to date on the subject of infertility With infertility as the lens through which a wide range of social issues is explored the contributors address a far reaching array of topics why infertility has been neglected in population studies how the deeply gendered nature of infertility sets the blame squarely on women s shoulders how infertility and its treatment transform family dynamics and relationships and the distribution of medical and marital power The chapters present informed and sophisticated investigations into cultural perceptions of infertility in numerous countries including China India the nations of sub Saharan Africa Vietnam Costa Rica Egypt Israel the United States and the nations of Europe Poised to become the quintessential reference on infertility from an international social science perspective Infertility around the Globe makes a powerful argument that involuntary childlessness is a complex phenomenon that has far reaching significance worldwide

Apocalyptic AI: Visions of Heaven in Robotics, Artificial Intelligence, and Virtual Reality Robert M. Geraci,2010-02-05 Apocalyptic AI the hope that we might one day upload our minds into machines or cyberspace and live forever is a surprisingly wide spread and influential idea affecting everything from the world view of online gamers to government research funding and philosophical thought In *Apocalyptic AI* Robert Geraci offers the first serious account of this cyber theology and the people who promote it Drawing on interviews with roboticists and AI researchers and with devotees of the online game *Second Life* among others Geraci illuminates the ideas of such advocates of Apocalyptic AI as Hans Moravec and Ray Kurzweil He reveals that the rhetoric of Apocalyptic AI is strikingly similar to that of the apocalyptic traditions of Judaism and Christianity In both systems the believer is trapped in a dualistic universe and expects a resolution in which he or she will be translated to a transcendent new world and live forever in a glorified new body Equally important Geraci shows how this worldview shapes our culture Apocalyptic AI has become a powerful force in modern culture In this

superb volume he shines a light on this belief system revealing what it is and how it is changing society

South Korean Social Movements Gi-Wook Shin, Paul Y Chang, 2011-06-01 This book explores the evolution of social movements in South Korea by focusing on how they have become institutionalized and diffused in the democratic period The contributors explore the transformation of Korean social movements from the democracy campaigns of the 1970s and 1980s to the rise of civil society struggles after 1987 South Korea was ruled by successive authoritarian regimes from 1948 to 1987 when the government decided to re establish direct presidential elections The book contends that the transition to a democratic government was motivated in part by the pressure from social movement groups that fought the state to bring about such democracy After the transition however the movement groups found themselves in a qualitatively different political context which in turn galvanized the evolution of the social movement sector Including an impressive array of case studies ranging from the women s movement to environmental NGOs and from cultural production to law the contributors to this book enrich our understanding of the democratization process in Korea and show that the social movement sector remains an important player in Korean politics today This book will appeal to students and scholars of Korean studies Asian politics political history and social movements

Cold War Books in the 'Other' Europe and What Came After Jiřina Šmejkalová, 2010-11-19 Drawing on analyses of the socio cultural context of East and Central Europe with a special focus on the Czech cultural dynamics of the Cold War and its aftermath this book offers a study of the making and breaking of the centrally controlled system of book production and reception It explores the social material and symbolic reproduction of the printed text in both official and alternative spheres and patterns of dissemination and reading Building on archival research statistical data media analyses and in depth interviews with the participants of the post 1989 de centralization and privatization of the book world it revisits the established notions of censorship and revolution in order to uncover people s performances that contributed to both the reproduction and erosion of the old regime

Mothers and Daughters in Arab Women's Literature Dalya Abudi, 2010-11-11 This study explores the mother daughter relationship as the most fundamental and most intimate female relationship and as the cornerstone of Arab family life Drawing on autobiographical and semifictional works by women writers from across the Arab world the study offers a first hand account of how Arab women view and experience this primary bond The author uses both early and contemporary writings of Arab women to illuminate the traditional and evolving nature of mother daughter relationships in Arab families and how these family dynamics reflect and influence modern Arab life The compelling narratives demystify the institutions of family and motherhood and show the potential of mothers and daughters to transform the patriarchal family and thus the fabric of Arab society A groundbreaking work that fills a void in cross cultural studies it is of interest to scholars and students of Middle Eastern studies women s studies and family studies

The Assisted Reproduction of Race Camisha A. Russell, 2018-12-06 A philosopher examines the social implications of assisted reproductive technologies at the intersection of race medicine and bioethics The use of assisted reproductive technologies

ART in vitro fertilization artificial insemination and gestational surrogacy challenges contemporary notions of what it means to be parents or families Camisha A Russell argues that these technologies also bring new insight to ideas and questions surrounding race She does this in part by reframing ART as medical technologies that also act as technologies of kinship Thinking about race in terms of technology brings together the common academic insight that race is a social construction with the equally important insight that race is a political tool used in different contexts for a variety of ends As Russell explores ideas about race through their role in ART she brings together social and political views to shift debates from what race is to what race does how it is used and what effects it has had in the world
