phenomenon including students academics and business practitioners **Constitutional Culture, Independence, and Rights** Javier Garcia Oliva,Helen Hall,2023-05-26 In Constitutional Culture Independence and Rights Javier Garc a Oliva and Helen Hall coin the term constitutional culture to encapsulate the collective rules and expectations that govern the collective life within a jurisdiction Significantly these shared norms have both legal and social elements including matters as diverse as standards of parenting the modus operandi of police officers and taboos around sexuality Using Quebec Scotland and Catalonia as case studies the book delves into what these constitutional battles mean for the rights identity and needs of everyday people and it powerfully demonstrates why the hypothetical future independence of these regions would have far

reaching practical consequences beyond the realm of political structures and academic theory The book does not present a magic bullet to resolve debates around independence this is not its purpose and the text in fact demonstrates why there is no objectively optimal approach in any or all contexts Instead it seeks to shed light on aspects of these situations often overlooked in discussions around the fate of nations and it addresses what the consequences of constitutional paradigm shifts might be for individuals Constitutional culture is a complex web of interconnected understandings and behaviours and the vibrations from shaking or cutting a fundamental strand will be felt throughout the structure *Community Owned Businesses* Norman Walzer, 2021-07-19 This book analyses community owned businesses in countries around the world to show successful approaches and important strategies to improve access to essential services in vastly different economic contexts Through eleven chapters authors from various countries use case studies and analyse findings in ways which can be applied to new development initiatives including rural grocery store retention in Kansas socially responsible community cooperatives in Italy preserving pubs and shops in England and Wales serving residents with special needs in Canada and financing basic goods and services for aging populations in Taiwan plus other examples The chapters explore practices and approaches used in various locations to address concerns about loss of access to essential services making clear that this approach to financing is useful in different scenarios The chapters provide key insights suggesting that these approaches will be even more prevalent in the future and will be of interest to students scholars and community development practitioners around the world
