Office, 1952 **The Mosby Myth** Paul Ashdown, Edward Caudill, 2002 Confederate Colonel John Singleton Mosby 1833-1916 was only one of a number of heroes to emerge during the Civil War yet he holds a singular place in the American imagination. He is the irrepressible rebel with a cause, the horseman who emerges from the forest to protect the embattled farmer and his household and bring retribution to the invader. Mosby was the fabled Gray Ghost of the Confederacy, a mythic cavalry officer who operated with virtual impunity behind Union lines near Washington, D.C. *The Mosby Myth* is the first book devoted to explaining Mosby's place in American culture, myth, and legend. The book provides not just a biography of John Mosby's life but a study of his legacy. Well written and informative, this book is sure to provoke new thought about the effect of the memory of Mosby and the memory of the Civil War on American society and culture. **PRODUCT DESCRIPTION** **Timeline**

Of The Planet Of The Apes Rich Handley, 2008-11 The definitive unauthorized chronology. Cover *Spirit of Place* Susan Owens, 2020-09-15 Lyrical and compelling. *Spirit of Place* examines the British landscape as it's portrayed in literature and art. English landscape painting is often said to be an eighteenth-century invention, yet when we look for representations of the countryside in British art and literature, we find a story that begins with Old English poetry and winds its way through history all the way up to the present day. In *Spirit of Place*, Susan Owens illuminates how the British landscape has been framed, reimagined, and reshaped by generations of creative thinkers. To offer a panoramic view of the countryside throughout history, Owens dives into the work of writers and artists from Bede and the Gawain Poet to Thomas Gainsborough, Jane Austen, J.M.W. Turner, and John Constable, and from Paul Nash and Barbara Hepworth to Robert Macfarlane. Richly illustrated, including manuscript pages, early maps, paintings, film stills, and photographs, *Spirit of Place* is a compelling narrative of how we have been shown the British landscape. **The Majestic Nature of the North** Steven A. Walton, Michael J. Armstrong, 2019-02-14 Thomas Kelah Wharton's travel diaries provide an intimate glimpse into the society of early nineteenth-century America. As a young immigrant from England, the eldest son of a wealthy merchant who fell on hard times, Wharton (1814-1862) navigated the complex world of New York and the Hudson River Valley in the early 1830s, and his diaries reveal a vibrant cultural and social scene. Wharton's details of encounters with the Hudson River School painter Thomas Cole, the author Washington Irving, Sylvanus Thayer, superintendent of the US Military Academy at West Point, the Greek Revival architect Martin E. Thompson, and many others enliven his story. Skipping two decades to 1853, Wharton, now an established professional living in New Orleans, brought his young family from New Orleans to Boston. The trip to and from Boston illuminates the joys and hazards of traveling aboard steamboats and trains and touches on the tensions growing between North and South. The diary entries show an inquisitive, observant mind at work. A gifted pen and ink artist, the inclusion of Wharton's faithful drawings provides rare and wonderful views of an America from a very unique and personal perspective.
