Designing for Small Screens Studio 7.5, 2005-10 The design of interactive applications or presentations on small screens can be challenging for the designer Not all design concepts that are valid on larger screens can be implemented on the small screen A multitude of different devices with dissimilar technical specifications fall under the category of small screen interfaces Devices in this category differ in size and type of their display in the nature of their physical interaction and in their performance This book equips the student or practitioner with the appropriate tools with which to develop functional concepts and realise good designs for small screens In order to tackle and visualise complex design issues each of the ten chapters in this book is structured in three segments The first section is dedicated to theoretical reflection and an overview of the fundamental design options that relate to the specific issue in question The second section offers examples of good working practice and application of the theory described and the final section offers useful background information such as an explanation of the technical terms that will help you to make informed design decisions Selling points shows professional designers and students how to develop functional concepts and good design for the small screen and pertinent subject given advancing technology in mobile phones palm top computers and other small screen devices Readership both professional designers and students alike Authors Professor Carola Zwick studied at the University of Arts Berlin where she gained an MA in Industrial Design In 1993 she joined the teaching body at the University of Arts Berlin as an Assistant Professor and together with Burkhard Schmitz she initiated the media group ID 5 within the design course Carola Zwick has been teaching interface design at the University of Applied Sciences Magdeburg Stendal since 1998 Professor Burkhard Schmitz studied at the University of Arts in Berlin where he too gained an MA in Industrial Design In 1989 he became Professor for Media Design at the University of Applied Sciences Schwabisch Gmund In 1993 he returned once more to the University of Arts Berlin where he has taught Interactive Systems since Dipl Designer Kerstin Kuhl studied at the University of Applied Sciences Dessau where she gained a diploma in Graphic Design

The Philosophy of Computer Games John Richard Sageng, Hallvard J Fossheim, Tarjei Mandt Larsen, 2012-07-10 Computer games have become a major cultural and economic force and a subject of extensive academic interest Up until now however computer games have received relatively little attention from philosophy Seeking to remedy this the present collection of newly written papers by philosophers and media researchers addresses a range of philosophical questions related to three issues of crucial importance for understanding the phenomenon of computer games the nature of gameplay and player experience the moral evaluability of player and avatar actions and the reality status of the gaming environment By doing so the book aims to establish the philosophy of computer games as an

important strand of computer games research and as a separate field of philosophical inquiry The book is required reading for anyone with an academic or professional interest in computer games and will also be of value to readers curious about the philosophical issues raised by contemporary digital culture

Possible Worlds in Video Games: From Classic Narrative to Meaningful Actions Antonio José Planells de la Maza, 2017-11-21 In current digital games classic fictional worlds are transformed into ludofictional worlds spaces rich in characters and emotions that are especially affected by the intervention of a player In this

book we propose a model inspired by the Semantics of Fiction and Possible Worlds which is oriented to the analysis of video games as integrated systems **Interdisciplinarity in International Relations** Valerii Kopiika, Anton Filipenko, Oleksii Toporkov, 2025-01-10 This edited collection is a result of the multi year research work of Ukrainian scientists and researchers in the field of interdisciplinarity which provides a unique and in depth view of the problems of modern society ranging from political science and economics to culture and art This study is focused on interdisciplinarity as a global trend in research and education The book addresses specific problems using an interdisciplinary approach in the fields of international relations international economic relations international law international business and international communications providing a better understanding of the issues arising in the field and showcasing the potential of the interdisciplinary approach in international relations On-Demand Culture Chuck Tryon, 2013-07-18 The movie industry is changing rapidly due in part to the adoption of digital technologies Distributors now send films to theaters electronically Consumers can purchase or rent movies instantly online and then watch them on their high definition televisions their laptops or even their cell phones Meanwhile social media technologies allow independent filmmakers to raise money and sell their movies directly to the public All of these changes contribute to an on demand culture a shift that is radically altering film culture and contributing to a much more personalized viewing experience Chuck Tryon offers a compelling introduction to a world in which movies have become digital files He navigates the complexities of digital delivery to show how new modes of access online streaming services like YouTube or Netflix digital downloads at iTunes the popular Redbox DVD kiosks in grocery stores and movie theaters offering digital projection of such 3 D movies as Avatar are redefining how audiences obtain and consume motion picture entertainment Tryon also tracks the reinvention of independent movies and film festivals by enterprising artists who have built their own fundraising and distribution models online Unique in its focus on the effects of digital technologies on movie distribution On Demand Culture offers a corrective to address the rapid changes in the film industry now that movies are available at the click of a button **Scary Monsters** Mark Duffett, Jon Hackett, 2021-01-14 Popular music and masculinity have rarely been examined through the lens of research into monstrosity The discourses associated with rock and pop however actually include more monsters than might at first be imagined Attention to such individuals and cultures can say things about the operation of genre and gender myth and meaning Indeed monstrosity has recently become a growing focus of cultural theory This is in part because monsters raise shared concerns about transgression subjectivity agency and community Attention to monstrosity evokes both the spectre of projection which invokes familial trauma and psychoanalysis and shared anxieties that in turn reflect ideologies and beliefs By pursuing a series of insightful case studies Scary Monsters considers different aspects of the connection between music gender and monstrosity Its argument is that attention to monstrosity provides a unique perspective on the study of masculinity in popular music culture *Theatre World* John Willis, 2007-03 Scenes from the plays and portraits of leading actors accompany a

statistical record of the current season **Conflicting Masculinities** Katherine Byrne, Julie Anne Taddeo, James Leggott, 2018-06-14 Never before has period drama offered viewers such an assortment of complex male characters from transported felons and syphilitic detectives to shell shocked soldiers and gangland criminals Neo Victorian Gothic fictions like Penny Dreadful represent masculinity at its darkest Poldark and Outlander have refashioned the romantic hero and anti heritage series like Peaky Blinders portray masculinity in crisis at moments when the patriarchy was being bombarded by forces like World War I the rise of first wave feminism and the breakdown of Empire Scholars of film media literature and history explore the very different types of maleness offered by contemporary television and show how the intersection of class race history and masculinity in period dramas has come to hold such broad appeal to twenty first century audiences

3-D Revolution Ray Zone, 2012-07-06 Stereoscopic cinema began in the early 19th century and exploded in the 1950s in Hollywood Its status as an enduring genre was confirmed in 2009 by the success of 3 D movie Avatar **Image Warfare in the War on Terror** N. Roger, 2013-01-11 Roger examines how developments in new media technologies such as the internet blogs camera video phones have fundamentally altered the way in which governments militaries terrorists NGOs and citizens engage with images He argues that there has been a paradigm shift from techno war to image warfare which emerged on 9 11 **Mining and Engineering World** , 1911
