Frederickson, Delores M. Walters, 2013-10-30 Inspired by the searing story of Margaret Garner the escaped slave who in 1856 slit her daughter s throat rather than have her forced back into slavery the essays in this collection focus on historical and contemporary examples of slavery and women s resistance to oppression from the nineteenth century to the twenty first Each chapter uses Garner s example the real life narrative behind Toni Morrison s *Beloved* and the opera *Margaret Garner* as a thematic foundation for an interdisciplinary conversation about gendered resistance in locations including Brazil Yemen India and the United States Contributors are Nailah Randall Bellinger Olivia Cousins Mary E Frederickson Cheryl Janifer LaRoche Carolyn Mazloomi Cathy McDaniels Wilson Catherine Roma Huda Seif S Pearl Sharp Raquel Luciana de Souza Jolene Smith Veta Tucker Delores M Walters Diana Williams and Kristine Yohe **The Language of Battered Women** Carol L. Winkelmann, 2012-02-01 Winner of the 2005 Outstanding Book Award presented by the Organization for the Study of

Communication Language and Gender OSCLG This study of battered women living in a shelter offers a rhetorical analysis of survivors personal theologies Author Carol L Winkelmann holds that while it is virtually ignored in the domestic violence literature the Christian heritage of many battered women plays a significant if complicated role in their language thoughts and lives The women s religious faith serves not only to sustain them through periods of profound suffering but also to develop solidarity with other culturally different women in the shelter Designed to assist women to greater independence the shelter actually functions as a culture of surveillance where women turn to one another and to their faith to cope with the trauma of violence To heal the women engage in dialogue that is dense in religious imagery talking about the relationship of God and the church to suffering and evil At the same time these women also acknowledge that organized religion is very much involved in the maintenance of patriarchal marriage and its attendant abuses in their own lives Together battered women are sometimes able to construct creative theological responses to the problem of suffering and evil A mix of religious and secular languages compels them to devise new ways of thinking about their role in family church and society

Real Knockouts Martha McCaughey,1997-07-01 An examination of women s self defense culture and its relationship to feminism I was once a frightened feminist So begins Martha McCaughey s odyssey into the dynamic world of women s self defense a culture which transforms women involved with it and which has equally profound implications for feminist theory and activism Unprecedented numbers of American women are learning how to knock out maim even kill men who assault them Sales of mace and pepper spray have skyrocketed Some 14 million women own handguns From behind the scenes at gun ranges martial arts dojos fitness centers offering Cardio Combat and in padded attacker courses like Model Mugging Real Knockouts demonstrates how self defense trains women out of the femininity that makes them easy targets for men s abuse And yet much feminist thought like the broader American culture seems deeply ambivalent about women s embrace of violence even in self defense Investigating the connection between feminist theory and women physically fighting back McCaughey found self defense culture to embody literally a new brand of feminism

Gendering Commitment Alex Standen,2015-10-05 Notions of engagement commitment and impegno continue to provoke debate amongst academics researching contemporary Italian culture and yet be it by accident or by more conscious selection critical work has tended to posit these concepts as a predominantly male and often heteronormative domain This collection of essays challenges this assumption and analyses more closely the fluid and fragmented nature of commitment and the work of Italian intellectuals and cultural practitioners associated with it The volume s contributors engage with those who have typically been excluded from such debates not only female writers and artists but also males whose work has been denied the designation of impegnato The chapters all focus on individuals who insist on the need to question interrogate and denounce social realities Employing a range of theoretical perspectives and bringing into dialogue individuals not typically associated with terms such as engagement and commitment this volume offers an original and distinctive contribution to a discussion that persists in

Italian studies Hope and Feminist Theory Rebecca Coleman, Debra Ferreday, 2013-12-16 Hope is central to marginal politics which speak of desires for equality or simply for a better life Feminism might be characterised as a politics of hope a movement underpinned by a utopian drive for equality This version of hope has been used for example in Barack Obama's phrase the audacity of hope a mobilisation of an affirmative politics which nevertheless implies that we are living in hopeless times Similarly in recent years feminism has seen the production of a prevailing mood of hopelessness around a generational model of progress which is widely imagined to have failed However as a number of feminist theorists have pointed out the temporality of feminism cannot be conceived as straightforwardly linear feminism can only be imagined as having failed if it is understood as a particular set of relations and things This collection grapples with the question of hope how it figures and structures feminist theory as both a movement towards certain goals and as inherently hopeful Questions addressed include Does hope necessarily imply a fantasy of perfectibility a progression to a utopian future Might it also be conceived in other ways as an attachment A lure Does life tend towards hope happiness optimism And if so what are the consequences when hope fails Who decides which hopes are false What is the cost of giving up hope This book was published as a special issue of the Journal for Cultural Research The High Strangeness of Dimensions, Densities, and the Process of Alien Abduction Laura Knight-Jadczyk, 2005 The central core of this book is the entirely new domain of the knowledge of nature that has been the concern of the Cassiopaeian Transmissions from the very beginning It is the nature of this domain that is the subject of their communications regarding aliens alien abductions hyperdimensional realities and related subject matter Page 34

Research Anthology on Child and Domestic Abuse and Its Prevention Management Association, Information Resources, 2022-03-11 Every day both adults and children are victimized in unhealthy relationships Domestic and child abuse have surged during the COVID 19 pandemic as potential escapes from abuse at home were stripped away Abuse is a raging global issue however with enough research policy and social activism society can aid in the prevention of child and domestic abuse The Research Anthology on Child and Domestic Abuse and Its Prevention discusses the prevalence of domestic abuse as well as the exploitation of children both at home and beyond It further presents emerging practices in technology social work and criminology to prevent the further exploitation and victimization of adults and children in abusive situations Covering topics such as foster children gender based violence and trauma analysis this major reference work is an indispensable resource for social workers lawmakers government organizations non profit organizations psychologists therapists sociologists libraries students and educators of higher education criminologists leaders in law enforcement researchers and academicians **The Lesbian Revolution** Sheila Jeffreys, 2018-09-03 The Lesbian Revolution argues that lesbian feminists were a vital force in the Women's Liberation Movement WLM They did not just play a fundamental role in the important changes wrought by second wave feminism but created a powerful revolution in lesbian theory culture and practice Yet this lesbian revolution is undocumented The book shows that lesbian feminists were founders of feminist

institutions such as resources for women survivors of men's violence including refuges and rape crisis centres and that they were central to campaigns against this violence. They created a feminist squatting movement, theatre groups, bands, art and poetry and conducted campaigns for lesbian rights. They also created a profound and challenging analysis of sexuality which has disappeared from the historical record. They analysed heterosexuality as a political institution, arguing that lesbianism was a political choice for feminists and indeed a form of resistance in itself. Using interviews with prominent lesbian feminists from the time of the WLM and informed by the author's personal experience, this book aims to challenge the way the work and ideas of lesbian feminists have been eclipsed and to document the lesbian revolution. The book will be of key interest to scholars and students of women's history, the history of feminism, the politics of sexuality, women's studies, gender studies, lesbian and gay studies, queer studies and cultural studies, as well as to the lay reader interested in the WLM and feminism more generally.
