Lower Manhattan A History Map:

Extracting Spatial Information from Historical Maps Benedikt Budig, 2018-11-23 Historical maps are fascinating documents and a valuable source of information for scientists of various disciplines Many of these maps are available as scanned bitmap images but in order to make them searchable in useful ways a structured representation of the contained information is desirable This book deals with the extraction of spatial information from historical maps This cannot be expected to be solved fully automatically since it involves difficult semantics but is also too tedious to be done manually at scale The methodology used in this book combines the strengths of both computers and humans it describes efficient algorithms to largely automate information extraction tasks and pairs these algorithms with smart user interactions to handle what is not understood by the algorithm The effectiveness of this approach is shown for various kinds of spatial documents from the 16th to the early 20th century

A History of America in 100 Maps Susan Schulten, 2018-09-21 Throughout its history America has been defined through maps Whether made for military strategy or urban reform to encourage settlement or to investigate disease maps invest information with meaning by translating it into visual form They capture what people knew what they thought they knew what they hoped for and what they feared As such they offer unrivaled windows onto the past In this book Susan Schulten uses maps to explore five centuries of American history from the voyages of European discovery to the digital age With stunning visual clarity *A History of America in 100 Maps* showcases the power of cartography to illuminate and complicate our understanding of the past Gathered primarily from the British Library's incomparable archives and compiled into nine chronological chapters these one hundred full color maps range from the iconic to the unfamiliar Each is discussed in terms of its specific features as well as its larger historical significance in a way that conveys a fresh perspective on the past Some of these maps were made by established cartographers while others were made by unknown individuals such as Cherokee tribal leaders soldiers on the front and the first generation of girls to be formally educated Some were tools of statecraft and diplomacy and others were instruments of social reform or even advertising and entertainment But when considered together they demonstrate the many ways that maps both reflect and influence historical change Audacious in scope and charming in execution this collection of one hundred full color maps offers an imaginative and visually engaging tour of American history that will show readers a new way of navigating their own worlds

Tales of Gotham, Historical Archaeology, Ethnohistory and Microhistory of New York City

Meta F. Janowitz,Diane Dallal,2013-02-03 Historical Archaeology of New York City is a collection of narratives about people who lived in New York City during the seventeenth eighteenth and nineteenth centuries people whose lives archaeologists have encountered during excavations at sites where these people lived or worked The stories are ethnohistorical or microhistorical studies created using archaeological and documentary data As microhistories they are concerned with particular people living at particular times in the past within the framework of world events The world events framework will be provided in short introductions to chapters grouped by time periods and themes The foreword by Mary Beaudry and the afterword by LuAnne DeCunzio bookend the individual case studies and add theoretical weight to the volume Historical Archaeology of New York City focuses on specific individual life stories or stories of groups of people as a way to present archaeological theory and research Archaeologists work with material culture artifacts to recreate daily lives and study how culture works this book is an example of how to do this in a way that can attract people interested in history as well as in anthropological theory

Art Maps and Cities Gloria Lanci,2022-11-25 This book presents an original study on how contemporary artists are exploring urban spaces through mapping Despite a long history of representations of cities in maps and the relationships that can be envisaged between art maps and cities in the contemporary world little research is dedicated to investigating how artists intervene in the realm of urban cartography The research examines a century old history of art maps and draws on academic debates challenging traditional notions of maps as scientific artefacts produced through accurate measurement and surveying The potential of art maps to construct personal narratives through contestation embodiment and play is analysed in the city context where spaces are shaped by urban planning and design political ideologies and socio economic forces Adopting an exploratory and interpretative research approach that investigates the confluence of theories originated in different domains this book conducts the reader to discover what artistic practices can bring into a more creative while inquisitive understanding of cities A series of semi structured interviews with visual artists enquiring how they apprehend process and re create urban spaces in artworks explores cartographic process and methods in visual art practices in the twenty first century which incorporates digital technologies and critical thinking

Preservation in Digital Cartography Markus Jobst,2010-09-17 This book Preservation in Digital Cartography Archiving Aspects should give an overview on how to preserve digital cartographic applications and geospatial data in a sustainable way The intention of this book is to shape the opinion of affected parties and to bring together various disciplines Therefore adjacent chapters will generally deal with information technologies Service Oriented Architectures cybercartography repro

tion and historic cartography which all together can be subsumed in perspective cartographic heritage The survival of this digital cartographic heritage will base on long term preservation strategies that make use of intensive dissemination on the one hand and sustainable digital archiving methods on the other This includes a massive development of paradigm that expands from store and save to keep it online The paradigm store and save is mainly used for analogue masters that consist of stage media like vellum and their visible content Avoiding the storage dia from degeneration in climate controlled areas will help to keep the content accessible In the digital domain the high interdependency of stage media format device and applications leads to the paradigm keep online which for example describes the migration to new storage devices In fact this expansion of paradigm means that the digital domain calls for ongoing actions in order to preserve cartography for a long term **A**
