Lq Lovers Quotient:

Conjugal Spirituality Mary Anne McPherson Oliver, 1994 Mary Anne Oliver develops an alternate to celibate religious practices drawing from the experience of couples and diverse sources in the Christian tradition This work explores the dynamics of conjugal love **Love to Learn** Isabelle C. Hau, 2025-02-11 The most important aspect of early childhood in general and education in particular is the quality and care of the relationships a child forms Love to Learn shows how to build and develop these relationships and unlock every child's true potential Early relationships are the key to healthy brain development resilience and lifelong flourishing Children need to be loved to be valued to interact and to be listened to When children have the space and time to play and explore through nurturing positive relationships then children learn But loving relationships are precisely what so many children are missing and modern factors are making it more difficult for children to build these necessary bonds Kids are growing up in smaller families with fewer siblings and in more single parent households They have fewer adult family friends and mentors They have less contact with grand parents and grand adults They spend 60% less time with friends than children did a decade ago They play outside less half the time spent by their parent's generation They find themselves increasingly immersed in solitary realms of screens a modern sanctuary where parents seek refuge as well Many kids are so overscheduled they have less time to build friendships Love to Learn offers a vision for a future where learning is relational and love is a literacy It is a provocative paradigm shift from child centered education to relationship centered learning It weaves in stories of perseverance empathy creativity and showcases innovations anchored in the latest neuroscience and technology advance all driven by the desire to unlock the inherent human potential in any child This hope filled book seeks to change how we raise our children how we run early learning environments and how we construct care full communities It aims to inspire and engage readers catalyze new solutions and in doing so change our understanding of childhood itself **Love, Marriage & Sex**, 1985 *Sweethearts for a Lifetime* Wayne A. Mack, Carol Mack, 2006 A biblical practical look at how couples can restore warmth and vitality to their marriages Written both for newlyweds and those who have been married for years *The Art of Compassionate Business* Bruno R. Cignacco, 2023-12-01 There are several well ingrained assumptions regarding the dynamics of work and business activities which can be refuted Some examples of these widespread assumptions in business and work environments are employees being viewed as commodities competitors perceived as threats companies resources seen as limited and customers perceived as scarce and difficult All this leads to the question Is there a way to perform business activities more humanely The second edition of this book challenges the reader to change the way they perform in business situations and become more focused on the human aspects of business activities The users of this knowledge and those affected by them will undergo a profound transformation in the way they perform business activities They will benefit from gradually testing and implementing the guidelines conveyed in this book both in the business environment and in the workplace When readers put these principles into practice

positive ripple effects are bound to affect other stakeholders of the organisation they work for or own The author has refreshed all the concepts and examples introduced in the first edition which include aspects related to mission and vision passion business mindset organisational learning improvement of business conversations use of constructive criticism and betterment of relationships with the most relevant stakeholders customers suppliers intermediaries community employees etc The author also includes a discussion of creativity and the innovation process as well as other relevant aspects related to a healthy business environment and provides various real life examples of companies which have adopted a loving attitude towards their stakeholders which has become so important in the current business environment
