first to combine the two crucial aspects of the study socialist political theory and social and cultural environments An essential student read     Routledge Library Editions: Racism and Fascism Various,2021-06-23 This set gathers together a collection of out of print titles all classics in their field Reissued for the first time in some years they offer an insightful reference resource to a variety of topics From Professor Colin Holmes s groundbreaking studies of racism in British society to Professor Kitchen s analysis of the rise of fascism in pre war Austria these books shed much light on society s recent dark past     *Rebuilding Babel* Mark Crinson,2017-06-30 Much of modernist architecture was inspired by the emergence of internationalism the ethics and politics of world peace justice and unity through global collaboration Mark Crinson here shows how the ideals represented by the Tower of Babel built so the story goes by people united by one language were effectively adapted by internationalist architecture its styles and practices in the modern period Focusing particularly on the points of convergence between modernist and internationalist trends in the 1920s and again in the immediate post war years he underlines how such architecture utilised the themes of a cooperative community of builders and a common language of forms The International Style was one manifestation of this new way of thinking but Crinson shows how the aims of modernist architecture frequently engaged with the substance of an internationalist mindset in addition to sharing surface similarities Bringing together the visionaries of internationalist projects including Le Corbusier Bruno Taut Berthold Lubetkin Walter Gropius and Mies van der Rohe Crinson interweaves ideas of evolution ecology utopia regionalism socialism free trade and anti colonialism to reveal the possibilities heralded by modernist architecture Furthermore he re connects pivotal figures in architecture with a cast of polymath internationalists such as Patrick Geddes Lewis Mumford Julian Huxley Rabindranath Tagore and H G Wells to provide a richly detailed socio cultural framework This is a book crafted for students and scholars of architecture and art theory as well as for those interested in the history of twentieth century optimism about the world and its architecture     *Realizing Capital* Anna Kornbluh,2014-01-20 During a tumultuous period when financial speculation began rapidly to outpace industrial production and consumption Victorian financial journalists commonly explained the instability of finance by criticizing its inherent artifice drawing persistent attention to what they called fictitious capital In a shift that naturalized this artifice this critique of fictitious capital virtually disappeared by the 1860s replaced by notions of fickle investor psychology and mental equilibrium encapsulated in the fascinating metaphor of psychic economy In close rhetorical readings of financial journalism political economy and the works of Dickens Eliot and Trollope Kornbluh examines the psychological framing of economics one of the nineteenth century s most enduring legacies reminding us that the current dominant paradigm for understanding financial crisis has a history of its own She shows how novels illuminate this displacement and ironize ideological metaphors linking psychology and economics thus demonstrating literature s unique facility for evaluating ideas in process Inheritors of this novelistic project Marx and Freud each advance a critique of psychic economy that refuses to naturalize capitalism     **Second Chance** Werner Eugen Mosse,Julius

Carlebach,1991     Marx. Der Unvollendete Jürgen Neffe,2017-09-11 Die aktuelle Biografie über Leben und Werk des Philosophen und Gesellschaftskritikers Karl Marx der revolutionäre Querkopf und Vordenker des 19. Jahrhunderts ist wieder da. Seit der Kommunismus in seinem Namen aber nicht in seinem Sinne Geschichte ist, feiert er ein bemerkenswertes Comeback. Anlässlich seines 200. Geburtstags erkundet Jürgen Neffe dessen Ursachen in Marx' Schriften wie in seiner Biografie. Er schildert das Leben eines Flüchtlings und geduldeten Staatenlosen der für seine Überzeugungen keine Opfer scheut. Weder Krankheit, Armut, Ehekrisen noch Familientragdienen halten ihn davon ab, beharrlich an seinem Werk zu arbeiten. Mit seiner Analyse des Kapitalismus als entfesselter System sagt er die globalisierte Welt unserer Tage bis hin zur Finanzkrise voraus. Neffe zeichnet die Entwicklung der Marx'schen Gedankenwelt von Entfremdung und Ausbeutung in den Frühschriften bis zur ausgereiften Krisentheorie im Kapital nicht nur nach. Als erfahrener Popularisierer der Wissenschaft erklärt er die Theorien in verständlicher Form und konfrontiert sie mit der Realität des 21. Jahrhunderts     **The Listener**,1982-07     **Outsiders & Outcasts** Geoffrey Alderman,Colin Holmes,1993     **Soho Past** Richard Tames,1994     **The Vampire in Contemporary Popular Literature** Lorna Piatti-Farnell,2013-11-07 Prominent examples from contemporary vampire literature expose a desire to re-evaluate and re-work the long-standing folkloristic interpretation of the vampire as the immortal undead. This book explores the new vampire as a literary trope offering a comprehensive critical analysis of vampires in contemporary popular literature and demonstrating how they engage with essential cultural preoccupations, anxieties and desires. Drawing from cultural materialism, anthropology, psychoanalysis, literary criticism, gender studies and postmodern thought, Piatti-Farnell re-frames the concept of the vampire in relation to a distinctly twenty-first-century brand of Gothic imagination, highlighting important aesthetic, conceptual and cultural changes that have affected the literary genre in the post-2000 era. She places the contemporary literary vampire within the wider popular culture scope, also building critical connections with issues of fandom and readership. In reworking the formulaic elements of the vampiric tradition and experimenting with genre-bending techniques, this book shows how authors such as J.R. Ward, Stephanie Meyers, Charlaine Harris and Anne Rice have allowed vampires to be moulded into enigmatic figures who sustain a vivid conceptual debt to contemporary consumer and popular culture. This book highlights the changes, conceptual, political and aesthetic that vampires have undergone in the past decade, simultaneously addressing how these changes in vampire identity impact on the definition of the Gothic as a whole     **Karl Marx** Andrew Rowcroft,2021-04-29 Karl Marx is the most important modern philosopher. **German Immigrants in Britain During the 19th Century, 1815-1914** Panikos Panayi, 1995-06-05 For most of the nineteenth century Germans represented the largest continental immigrant population in Britain yet to date no study has concentrated on them They entered the country for a combination of religious political and economic reasons and established themselves in thriving immigrant communities Hostility towards them spread throughout the 1800s and escalated with the growth of Anglo German hostility in the period leading up to the outbreak of World War I This thoroughly researched study fills a gap in the modern history of Britain and the history of German immigrant communities It will be of interest to anyone wishing to learn more about Anglo German relations migration and ethnicity

**Spectacular Realities** Vanessa R. Schwartz, 1998-01-25 During the second half of the nineteenth century Paris emerged as the entertainment capital of the world The sparkling redesigned city fostered a culture of energetic crowd pleasing and multi sensory amusements that would apprehend and represent real life as spectacle Vanessa R Schwartz examines the explosive popularity of such phenomena as the boulevards the mass press public displays of corpses at the morgue wax museums panoramas and early film Drawing on a wide range of written and visual materials including private and business archives and working at the intersections of art history literature and cinema studies Schwartz argues that spectacular realities are part of the foundation of modern mass society She refutes the notion that modern life produced an unending parade of distractions leading to alienation and instead suggests that crowds gathered not as dislocated spectators but as members of a new kind of crowd one united in pleasure rather than protest
