People And Politics The Years 1960 1975

William I. Hitchcock

People And Politics The Years 1960 1975:

People and Politics Vasilii Brandt, Willy Brandt, 1976 *The West German Social Democrats, 1969-1982* Gerard Braunthal, 2019-06-26 The fall of the West German government in 1982 ended the 13 year rule of the Social Democratic Party SPD as the senior coalition partner under Chancellors Willy Brandt and Helmut Schmidt In perpetual opposition from 1949 to 1966 the Social Democrats finally entered the government as the junior coalition party in 1966 three years later they assumed primary responsibility for guiding the nation The central theme of this detailed examination of the SPD during its years of governance is that social and economic forces in the nation had a major effect often unsettling on the party at a time when it had achieved the pinnacle of political power Significant changes in the party s organization membership leadership factionalism ideology and voter support limited its role within the political system in the executive and legislative branches and its influence on domestic and foreign policies Yet its ability to remain in power for a comparatively long period attests to its strength and respectability among the voting public Dr Gerard Braunthal draws on a wealth of documentation some unpublished located primarily in German archives and libraries In addition he interviewed more than 120 persons ranging from the top SPD leaders to staff officials members and other specialists to gain a greater understanding of a party that is one of the most powerful in Western Europe and in the social democratic world and whose organization has been a model of the twentieth century mass party

China-GDR Relations from 1949 to 1989 Axel Berkofsky, 2021-12-14 This book provides an in depth analysis of the relations between China and the German Democratic Republic GDR from 1949 to 1989 These relations were characterized by some ups but many more downs e g when in the early 1960s the Soviet Union ordered its vassal state in East Berlin to begin treating its former socialist comrade and brother in arms as an adversary and indeed enemy Drawing on a wealth of archival material especially from the archive of the GDR s ruling party this book examines selected issues and elements of East German and Chinese domestic and foreign policy In order to better grasp the nature and the historical context of the bilateral relationship it offers detailed insights into the following aspects 1 the bilateral honeymoon period from 1949 to the late 1950s which was accompanied by the two parties supporting and applauding each other s oppressive domestic and ill fated economic policies including Mao s Great Leap Forward and the Cultural Revolution 2 relations during the 1960s when the Sino Soviet Split defined the quality and level of bilateral animosities 3 the 1970s when Beijing replaced socialist comradeship with East Berlin with trade and aid from the US and West Germany and 4 the resumption of Sino East German relations in the 1980s and the subsequent period up to the Tiananmen Square protests and the collapse of the GDR in 1989 The book will appeal to historians political scientists and scholars of international relations as well as policymakers diplomats and others with an interest in this previously under researched area

The Federal Republic of Germany since 1949 Klaus Larres, Panikos Panayi, 2014-08-27 Today the problems of reunification seem to feature more often in the international spotlight than the benefits This timely volume offers a reassessment of Germany s postwar

development from its inception through to reunification including a thorough examination of the implications for economic political and social policies The impressive team of contributors include leading names in the history of modern Germany together with some of the ablest younger scholars in the field They are Hartmut Berghoff David Childs Immanuel Geiss Graham Hallett Klaus Larres Terry McNeill Torsten Opelland Richard Overly Stephen Padgett Panikos Panayi and Mathias Siekmeier

The Nobel Peace Prize and the Laureates Irwin Abrams, 2001 Presents brief biographical portraits of the 106 recipients of the Nobel Peace Prize during its 100 year history

Authority, Power and Policy in the USSR T. H. Rigby, 1983-06-18

France and the Construction of Europe, 1944-2007 Michael Sutton, 2011-03 This comprehensive history shows how France coupled the pursuit of power and the furtherance of European integration over a 60 year period from the close of the Second World War to the hesitation caused by the French electorate's referendum rejection of the European Union's constitutional treaty in 2005

Transatlantic Politics and the Transformation of the International Monetary System Michelle Frasher, 2013-09-05 With original archival documents and interviews from the US and Europe Michelle Frasher brings the reader into the negotiating room with American German and French officials as they confronted the collapse of the Bretton Woods monetary system and made decisions that affected the course of European integration and the contemporary neoliberal order She identifies crisis as the catalyst for change in international monetary policies but argues that the causes of crisis originated from a multitude of factors such as market speculation American hegemony institutional flaws and ideational conflicts among the leaders themselves Far from a planned and consensual process this book shows that the transformation to neoliberalism was riddled with discord and fret with trial and error She argues that the resulting currency regime allowed governments to entrench themselves in national interests and facilitated the marketization of the state where states have become both clients and participants in the financialized global economy to the detriment of international stability Frasher's is the first work to connect the 1960s and 1970s to the difficulties of inter state and inter market cooperation that have plagued the system in the last decades and it puts the 2008 debacle into historical perspective

New Perspectives on the Holocaust Rochelle L. Millen, 1996-09 Authors involved in teaching about the Holocaust offer guidance and confront issues related to teaching about the Holocaust

The Final Act Michael Cotey Morgan, 2020-08-11 The definitive account of the historic diplomatic agreement that provided a blueprint for ending the Cold War The Helsinki Final Act was a watershed of the Cold War Signed by thirty five European and North American leaders at a summit in Finland in the summer of 1975 the document presented a vision for peace based on common principles and cooperation across the Iron Curtain The Final Act is the first in depth history of the diplomatic saga that produced this important agreement This gripping book explains the Final Act's emergence from the parallel crises of the Soviet bloc and the West during the 1960s and the conflicting strategies that animated the negotiations Drawing on research in eight countries and multiple languages The Final Act shows how Helsinki provided a blueprint for ending the Cold War and

building a new international order From Embargo to Ostpolitik Angela E. Stent, 2003-10-30 Examines the development of Soviet West German relations from both the Russian and German sides The World Is Our Stage Allison M.

Prasch, 2023-02-08 A fresh account of the US presidential rhetoric embodied in Cold War international travel Crowds swarm when US presidents travel abroad though many never hear their voices The presidential body moving from one secured location to another communicates as much or more to these audiences than the texts of their speeches In *The World is Our Stage* Allison M Prasch considers how presidential appearances overseas broadcast American superiority during the Cold War Drawing on extensive archival research Prasch examines five foundational moments in the development of what she calls the global rhetorical presidency Truman at Potsdam Eisenhower's Goodwill Tours Kennedy in West Berlin Nixon in the People's Republic of China and Reagan in Normandy In each case Prasch reveals how the president's physical presence defined the boundaries of the Free World and elevated the United States as the central actor in Cold War geopolitics

General de Gaulle's Cold War Garret Joseph Martin, 2013-09-01 The greatest threat to the Western alliance in the 1960s did not come from an enemy but from an ally France led by its mercurial leader General Charles de Gaulle launched a global and comprehensive challenge to the United States leadership of the Free World tackling not only the political but also the military economic and monetary spheres Successive American administrations fretted about de Gaulle whom they viewed as an irresponsible nationalist at best and a threat to their presence in Europe at worst Based on extensive international research this book is an original analysis of France's ambitious grand strategy during the 1960s and why it eventually failed De Gaulle's failed attempt to overcome the Cold War order reveals important insights about why the bipolar international system was able to survive for so long and why the General's legacy remains significant to current French foreign policy

The Cold War: National security policy planning from Truman to Reagan and from Stalin to Gorbachev Lori Lyn Bogle, 2001 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality

Europe's Troubled Peace Tom Buchanan, 2012-01-30 This revised second edition now extends to the end of the first decade of the twenty first century covering the financial crisis and the related crisis in European integration the impact of the War on Terror on Europe and the redefinition of Europe following EU enlargement Thoroughly revised and expanded this integrated history of Europe now covers the end of the Second World War up to the end of the first decade of the twenty first century Includes new sections on immigration and ethnicity in Europe after the Cold War and the role of historical memory in contemporary Europe A final new chapter assesses the role of Europe within the wider world of the twenty first century the financial crisis and the related crisis in European integration the impact of the War on Terror on Europe and the redefinition

of Europe following EU enlargement Covers the history of central and eastern Europe in depth as well as that of Western Europe Discusses in detail the impact of the Cold War across the continent **The Struggle for Europe** William I.

Hitchcock,2004-02-03 From the ashes of World War II to the conflict over Iraq William Hitchcock examines the miraculous transformation of Europe from a deeply fractured land to a continent striving for stability tolerance democracy and prosperity Exploring the role of Cold War politics in Europe s peace settlement and the half century that followed Hitchcock reveals how leaders such as Charles de Gaulle Willy Brandt and Margaret Thatcher balanced their nations interests against the demands of the reigning superpowers leading to great strides in economic and political unity He re creates Europeans struggles with their troubling legacy of racial ethnic and national antagonism and shows that while divisions persist Europe stands on the threshold of changes that may profoundly shape the future of world affairs *The Presidency of John F.*

Kennedy James N. Giglio,2006 The presidency of John F Kennedy continues to fascinate even as it also continues to inspire heated debates between admirers and detractors of Camelot s fallen king Now readers can gain a new appreciation of JFK in this thoroughly revised and updated edition of James Giglio s bestselling study widely acclaimed as the best and most balanced book on JFK s White House years Giglio incorporates the voluminous archival materials made available in the last fifteen years including the declassified documents on crucial foreign policy affairs and White House medical records that contradict the image of Kennedy s youth and vigor He stresses the extent to which domestic and foreign policies were interconnected at a time when the Cold War dominated national life and reveals his new appreciation for JFK s prudence in his handling of such enormous challenges as the Cuban missile crisis and the emerging war in Vietnam Giglio shows Kennedy to be the most medicated one of the most courageous and perhaps the most self absorbed of our presidents He reviews the physical ailments and heavy prescriptions that were kept out of the public eye and catalogs sexual indiscretions ranging from Marilyn Monroe and socialite Florence Pritchett to low level White House employees and even virtual strangers Surveying this field of conquest Giglio suggests that JFK s sexual obsession could easily have affected his presidency even more during a second term His work also amplifies coverage of key issues like civil rights the Cuban missile crisis and Vietnam and reevaluates many of the questions surrounding the assassination maintaining that even with the existence of a conspiracy still doubtful the case is far from closed Like the first edition this new edition provides a sharp and thoughtful analysis of both domestic and foreign affairs and underscores that despite his undeniably brief tenure in office the state of the nation actually did improve on Kennedy s watch Featuring an expanded bibliographical essay and twenty two photos from the JFK library *The Presidency of John F Kennedy* remains the definitive appraisal of Camelot s kingdom Homelands Nadav G. Shelef,2020-07-15 Why are some territorial partitions accepted as the appropriate borders of a nation s homeland whereas in other places conflict continues despite or even because of division of territory In *Homelands* Nadav G Shelef develops a theory of what homelands are that acknowledges both their importance in domestic and international politics and their

change over time These changes he argues driven by domestic political competition and help explain the variation in whether partitions resolve conflict Homelands also provides systematic comparable data about the homeland status of lost territory over time that allow it to bridge the persistent gap between constructivist theories of nationalism and positivist empirical analyses of international relations

The Emergence of Détente in Europe Arne Hofmann, 2007-06-11 This book examines the key relationship between Willy Brandt the former Mayor of West Berlin and future West German Chancellor and the administration of President John F Kennedy Arne Hofmann focuses on the administration's influence on the development of Brandt's policy of small steps and the formation of his later Ostpolitik the centrepiece of European détente Brandt's interaction with the Kennedy administration is traced through the Berlin Wall crisis of 1961 together with Kennedy's search for a modus vivendi based on the status quo the 1962 crisis in German American relations Brandt's disillusionment campaign the development of his programmatic statements Brandt's three meetings with the President including Kennedy's famous visit to Berlin the limited nuclear test ban treaty and Brandt's Berlin pass agreement of Christmas 1963 While the narrative focuses on the gradual change in Brandt's position systematic parts concentrate on Brandt's and Kennedy's détente concepts the triangular relationship between West Berlin Washington and Bonn with its implication for domestic politics and the role of images campaigning and public opinion The Emergence of Détente in Europe will appeal to students of Cold War history foreign policy international relations and international history in general *American Politics* Samuel P.

Huntington, 2004-02-04 This stunningly persuasive book examines the persistent radical gap between the promise of American ideals and the performance of American politics Samuel P Huntington shows how Americans throughout their history as a nation have been united by the democratic creed of liberty equality and hostility to authority At the same time he reveals how inevitably these ideals have been perennially frustrated through the institutions and hierarchies required to carry on the essential functions of governing a democratic society From this antagonism between the ideals of democracy and the realities of power have risen four great political upheavals in American history Every third generation Huntington argues Americans have tried to reconstruct their institutions to make them more truly reflect deeply rooted national ideals Moving from the clenched fists and mass demonstrations of the 1960s to the moral outrage of the Progressive and Jacksonian Eras back to the creative ideological fervor of the American Revolution he incisively analyzes the dissenters' objectives All he pungently writes sought to remove the fundamental disharmony between the reality of government in America and the ideals on which the American nation was founded Huntington predicts that the tension between ideals and institutions is likely to increase in this country in the future And he reminds us that the fate of liberty and democracy abroad is intrinsically linked to the strength of our power in world affairs This brilliant and controversial analysis deserves to rank alongside the works of Tocqueville Bryce and Hofstadter and will become a classic commentary on the meaning of America

Whispering the Secrets of Language: An Psychological Journey through **People And Politics The Years 1960 1975**

In a digitally-driven earth where screens reign great and instant conversation drowns out the subtleties of language, the profound strategies and psychological nuances concealed within phrases frequently go unheard.
