A Concise History of the Catholic Church (Revised Edition) Thomas Bokenkotter, 2007-12-18 Expanded and updated for the new millennium Covering the life of Christ the election of Pope Benedict XVI and everything in between A Concise History of the Catholic Church has been one of the bestselling religious histories of the past two decades and a mainstay for scholars students and others looking for a definitive accessible history of Catholicism With a clarity that will appeal to any reader Thomas Bokenkotter divides his study into five parts that correspond to the major historical and epochal developments in Catholicism His authoritative thorough approach takes readers from the Church's triumph over paganism through the sound and fury of renewal to a new section devoted to such topics as dissent and current developments in the ecumenical movement Informative illustrations throughout the book new to this edition enrich the reader's experience and the addition of a wide ranging bibliography increases its value as a sourcebook

Nesselrode and the Russian Rapprochement with Britain, 1836-1844 Harold N. Ingle, 1976 Count Karl Nesselrode Russian foreign minister 1816 1856 was a controversial figure in the government of Nicholas I The rapprochement with Britain perhaps his finest achievement was opposed at every step by Russians who regarded Britain as a rival It was later condemned by tsarist historians as an example of the cosmopolitan diplomacy that weakened their country in competition with the Western powers Soviet historians have followed their lead asserting that it was against national interests But Nesselrode did avoid war in a series of dangerous confrontations in Asia and the Near East outmaneuvering opponents who wanted to meet Britain head on and he managed to extricate Russia from diplomatic isolation at the same time Finally he advanced bipartisanship in an agreement on the Eastern Question that led to the renewal of the European concert He was working to extend the areas of cooperation particularly by promoting freer trade and commerce when his opponents more effectively countered his influence in the mid 1840s Jacket flap

The Clash of Ideas in World Politics John M. Owen IV, 2010-07-19 Some blame the violence and unrest in the Muslim world on Islam itself arguing that the religion and its history is inherently bloody Others blame the United States arguing that American attempts to spread democracy by force have destabilized the region and that these efforts are somehow radical or unique Challenging these views The Clash of Ideas in World Politics reveals how the Muslim world is in the throes of an ideological struggle that extends far beyond the Middle East and how

struggles like it have been a recurring feature of international relations since the dawn of the modern European state John Owen examines more than two hundred cases of forcible regime promotion over the past five centuries offering the first systematic study of this common state practice He looks at conflicts between Catholicism and Protestantism between 1520 and the 1680s republicanism and monarchy between 1770 and 1850 and communism fascism and liberal democracy from 1917 until the late 1980s He shows how regime promotion can follow regime unrest in the eventual target state or a war involving a great power and how this can provoke elites across states to polarize according to ideology Owen traces how conflicts arise and ultimately fade as one ideology wins favor with more elites in more countries and he demonstrates how the struggle between secularism and Islamism in Muslim countries today reflects broader transnational trends in world history

Scientific Materialism in Nineteenth Century Germany F. Gregory, 2012-12-06 A comprehensive study of German materialism in the second half of the nineteenth century is long overdue Among contemporary historians the mere passing references to Karl Vogt Jacob Moleschott and Ludwig Buchner as materialists and popularizers of science are hardly sufficient for few individuals influenced public opinion in nineteenth century Germany more than these men Buchner for example revealed his awareness of the historical significance of his *Kraft und Stoff* in comments made in 1872 just seventeen years after its original appearance A philosophical book which has undergone twelve big German editions in the short span of seventeen years which further has been issued in non German countries and languages about fifteen to sixteen times in the same period and whose appearance although its author was entirely unknown up to then has called forth an almost unprecedented storm in the press such a book can be nothing ordinary the world calling it enjoys at present must be justified through its wholly special characteristics or by the merits of its form and content Vogt Moleschott and Buchner explicitly held that their materialism was founded on natural science But other materialists of the nineteenth century also laid claim to the scientific character of their own thought It is likely that Marx and Engels would have permitted their brand of materialism to have been called scientific provided of course that scientific was understood in their dialectical meaning of the term Socialism Engels maintained had become a science with Marx

Marx's Fate Jerrold Seigel, 1993-05 Marx's Fate is an intellectual biography of Marx that combines historical textual and psychological analyses to provide major new insights into the philosopher's writings and development

A Concise History of the Catholic Church Thomas S. Bokenkotter, 1979 This critically acclaimed history covers the events and doctrines that have shaped Catholic thought and action over the past two millennia A singularly useful reference book updated and expanded for the student of the 1990's

Collective Violence, Contentious Politics, and Social Change Ernesto Castañeda, Cathy Schneider, 2017-05-08 Charles Tilly is among the most influential American sociologists of the last century For the first time his pathbreaking work on a wide array of topics is available in one comprehensive reader This manageable

and readable volume brings together many highlights of Tilly's large and important oeuvre covering his contribution to the following areas: revolutions and social change, war, state making and organized crime, democratization, durable inequality, political violence, migration, race and ethnicity, narratives and explanations. The book connects Tilly's work on large scale social processes such as nation building and war to his work on micro processes such as racial and gender discrimination. It includes selections from some of Tilly's earliest influential and out of print writings including *The Vendée*, *Coercion Capital* and *European States*, the classic *War Making and State Making as Organized Crime* and his more recent and lesser known work including that on durable inequality, democracy, poverty, economic development and migration. Together the collection reveals Tilly's complex, compelling and distinctive vision and helps place the contentious politics approach Tilly pioneered with Sidney Tarrow and Doug McAdam into broader context. The editors abridge key texts and in their introductory essay situate them within Tilly's larger opus and contemporary intellectual debates. The chapters serve as guideposts for those who wish to study his work in greater depth or use his methodology to examine the pressing issues of our time. Read together they provide a road map of Tilly's work and his contribution to the fields of sociology, political science, history and international studies. This book belongs in the classroom and in the library of social scientists, political analysts, cultural critics and activists.

The Revolutions of 1848-49 Frank Eyck, 1972 *Structures and Transformations in Modern British History* David Feldman, Jon Lawrence, 2011-01-20 This major collection of essays challenges many of our preconceptions about British political and social history from the late eighteenth century to the present. Inspired by the work of Gareth Stedman Jones, twelve leading scholars explore both the long term structures, social, political and intellectual of modern British history and the forces that have transformed those structures at key moments. The result is a series of insightful original essays presenting new research within a broad historical context. Subjects covered include the consequences of rapid demographic change in the eighteenth and nineteenth centuries, the forces shaping transnational networks, especially those between Britain and its empire, and the recurrent problem of how we connect cultural politics to social change. An introductory essay situates Stedman Jones's work within the broader historiographical trends of the past thirty years, drawing important conclusions about new directions for scholarship in the twenty first century. *Political and Social Upheaval, 1832-1852*

William Leonard Langer, 1969 **Sociology as Social Criticism (Routledge Revivals)** Tom B. Bottomore, 2012-09-10 First published in 1975, this collection of essays embodies a conception of sociological thought as a critical analysis of social theories and doctrines of social institutions and political regimes of recent social movements. They deal in particular with some conservative versions of sociology and with attempts to develop more radical theories; they extend the author's previous writings on classes, elites and politics and they analyse some of the problems of socialism in the late twentieth century. There is a close unity of theme throughout the book in its critical attempt to formulate new intellectual bases for future radical and egalitarian politics. It is written with that quiet wisdom and impressive command of sources which readers have come to

associate with Professor Bottomore's work *Social Change* Eva Etzioni-Halevy, 2024-10-31 First published in 1981 Social Change offers a critical review of the main classical and modern theories of social change and a study of the processes of change in western societies since modernization It focusses on the cardinal aspects of society and those that have figured most prominently in various theories the economy the class structure the political structure and the structure of education as they changed throughout the process of modernization and up to the 1980s The book is divided into three parts Part I presents a general discussion of classical and contemporary theories of the advent and maturation of modern society in Western capitalist and non Western countries Part II provides a more detailed discussion of modernization and subsequent changes in the Western capitalist societies Part III examines alternative social formations communes and co operatives This book will be a beneficial read for students and researchers of sociology *The Southwestern Historical Quarterly* ,1972

War and Social Change in Modern Europe Sandra Halperin, 2004 This book focuses on the interrelationship of social forces industrial expansion and conflict in Europe between 1789 and 1945 **The Publishers' Trade List Annual** ,1980
