**The Poetry of Place** Louisa MacKenzie, 2011-04-23 The sixteenth century in France was marked by religious warfare and shifting political and physical landscapes Between 1549 and 1584 however the Pléiade poets including Pierre de Ronsard Joachim Du Bellay Remy Belleau and Antoine de Baïf produced some of the most abiding and irenic depictions of rural French landscapes ever written In The Poetry of Place Louisa Mackenzie reveals and analyzes the cultural history of French paysage through her study of lyric poetry and its connections with landscape painting cartography and land use history In the face of destructive environmental change lyric poets in Renaissance France often wrote about idealized physical spaces reclaiming the altered landscape to counteract the violence and loss of the period and creating in the process what Mackenzie following David Harvey terms spaces of hope This unique alliance of French Renaissance studies with cultural geography and eco criticism demonstrates that sixteenth century poetry created a powerful sense of place which continues to inform national and regional sentiment today

*The Saint Bartholomew's Day massacre* Arlette Jouanna, 2016-05-16 On 18 August 1572 Paris hosted the lavish wedding of Marguerite de Valois and Henri de Navarre which was designed to seal the reconciliation of France's Catholics and Protestants Only six days later the execution of the Protestant leaders on the orders of the king's council unleashed a vast massacre by Catholics of thousands of Protestants in Paris and elsewhere Why was the celebration of concord followed so quickly by such unrestrained carnage Arlette Jouanna's new reading of the most notorious massacre in early modern European history rejects most of the established accounts especially those privileging conspiracy in favour of an explanation based on ideas of reason of state The Massacre stimulated reflection on royal power the limits of authority and obedience and the danger of religious division for France's political traditions Based on extensive research and a careful examination of existing interpretations this book is the most authoritative analysis of a shattering event

**Representing Avarice in Late Renaissance France** Jonathan Patterson, 2015 Why did people talk so much about avarice in late Renaissance France nearly a century before Moliere's famous comedy *L'Avare* As wars and economic crises ravaged France on the threshold of modernity avarice was said to be flourishing as never before Yet by the late sixteenth century a number of French writers would argue that in some contexts avaricious behaviour was not straightforwardly sinful or harmful Considerations of social rank gender object pursued time and circumstance led some to question age-old beliefs Traditionally reviled groups rapacious usurers greedy lawyers miserly fathers covetous women might still exhibit unmistakable signs of avarice but perhaps not invariably in an age of shifting social economic and intellectual values Across a large diverse corpus of French texts Jonathan Patterson shows how a range of flexible genres nourished by humanism tended to offset traditional condemnation of avarice and avares with innovative mitigating perspectives arising from subjective experience In such writings an avaricious disposition could be re-described as something less vicious excusable or even expedient In this word history of avarice close readings of well-known authors Marguerite de Navarre Ronsard Montaigne and of their lesser-known contemporaries are connected to broader socio-economic developments of the late French Renaissance c 1540-1615 The final chapter situates key themes in relation to Moliere's *L'Avare* As such *Representing Avarice in Late Renaissance France* newly illuminates debates about avarice within broader cultural preoccupations surrounding gender enrichment and status in early modern France
