Quebec in a Global Light Robert Calderisi,2019-07-15 To the outside world Quebec is Canada's most distinctive province To many Canadians it has sometimes seemed the most troublesome But over the last quarter century quietly but steadily it has wrestled successfully with two of the West's most daunting challenges

protecting national values in the face of mass immigration and striking a proper balance between economic efficiency and a sound social safety net Quebec has also taken a lead in fighting climate change Yet many people including many Quebecers are unaware of this progress and much remains to be done These achievements and the tenacity that made them possible are rooted in centuries of adversity and struggle In this masterful survey of the major social and economic issues facing Quebec Robert Calderisi offers an intimate look into the sensitivities and strengths of a society that has grown accustomed to being misunderstood In doing so he argues that the values uniting Quebecers their common sense courtesy concern for the downtrodden aversion to conflict and mild form of nationalism linked to a firm refusal to be homogenized by globalization make them the most Canadian of all Canadians
