on *Haida Gwaii* Joseph Weiss, 2018-09-01 Colonialism in settler societies such as Canada depends on a certain understanding of the relationship between time and Indigenous peoples Too often these peoples have been portrayed as being without a future destined either to disappear or assimilate into settler society This book asserts quite the opposite Indigenous peoples are not in any sense out of time in our contemporary world Shaping the Future on Haida Gwaii shows how Indigenous peoples in Canada not only continue to have a future but are at work building many different futures for themselves and for their non Indigenous neighbours Through the experiences of the Haida First Nation this book explores these possible futures in detail demonstrating how Haida ways of thinking about time mobility and political leadership are at the heart of contemporary strategies for addressing the dilemmas that come with life under settler colonialism From the threat of ecological crisis to the assertion of sovereign rights and authority Weiss shows that the Haida people consistently turn towards their possible futures in order to work out how to live in and transform the present Kayak Routes of the Pacific Northwest Coast Peter McGee, 2004-04-01 A complete guide to kayaking one of the world's great paddling destinations Whether you are planning a day's paddle or a two week excursion Kayak Routes of the Pacific Northwest Coast has everything you need to know This newly updated and expanded book explores eighteen regions from Oregon to British Columbia Explore the glacier carved cliffs of the vast Lower Columbia River or travel through Puget Sound and the intricate islets and reefs of Washington State's San Juan Islands Discover the Lower Mainland's Gulf Islands National Park Reserve home to such diverse wildlife as orca whales seals and bald eagles or head to the haunting archipelagos of Queen Charlotte Islands Haida Gwaii and British Columbia's far northern coast New for this edition are sections on the historic Lower Columbia River and rugged Queen Charlotte Strait Not sure where to start Detailed overviews summarize the more than 30 kayak routes described in this book including suggestions on the required skill level the duration of the trip the foreseeable hazards and the charts and tide tables to buy features which make planning a cinch Easy to read maps let you see the trip at a glance and provide practical information about how to get to the launch spot **To the Charlottes** George Mercer Dawson, 1993 Details geologist Dawson's 1878 exploration of the Queen Charlotte Islands The editors have extracted comments from his journals on this area and have appended a separate report of Dawson's on the ethnology of the Native people living in the region Includes 25 photos by Dawson Annotation copyright by Book News Inc Portland OR *Vanishing British Columbia* Michael Kluckner, 2011-11-01 The old buildings and historic places of British Columbia form a kind of roadside memory a tangible link with stories of settlement change and abandonment that reflect the great themes of our history With small towns declining and old rural properties changing so little of the history of these places has been recorded in museums or archives and so much of it may disappear as families disperse and memories dim More than a decade ago Michael Kluckner began painting these dots on his personal map of the province in a watercolour sketchbook In 1999 after he put a few of the sketches on his website a network of correspondents emerged that eventually led him to the family letters

photo albums and memories all from a disappearing era of the province Vanishing British Columbia is a record of these places and the stories they tell It combines engaging and insightful historical commentary with over 160 of the author's original paintings It has an exceptional assortment of historic imagery including old postcards architectural plans and photographs The study of roadside memory demonstrates the visceral connection that people especially those who are part of the rural to urban diaspora of modern times have for the sites of their family memories On a grander scale this approach leads to a broader understanding of more abstract historical themes and of the province's history and culture It also presents a compelling argument for stewardship of regional history in the face of urbanization and globalization

The Queen Charlotte Islands Vol. 2 Kathleen E. Dalzell, 1989 V 1 Here is the exciting history of the little known Queen Charlotte Islands Since 1774 when Europeans first encountered the proud and mighty Haida adventurous men and women have been drawn to this farthest west region of Canada Some were lured by sea otter pelts others by whales gold fish forest and fertile land Many came to live among the Haida as traders missionaries teachers and as students of their remarkable culture and unique environment All came as we still do today with a spirit of high adventure

Converging Empires Andrea Geiger, 2022-03-15 Making a vital contribution to our understanding of North American borderlands history through its examination of the northernmost stretches of the U S Canada border Andrea Geiger highlights the role that the North Pacific borderlands played in the construction of race and citizenship on both sides of the international border from 1867 when the United States acquired Russia's interests in Alaska through the end of World War II Imperial national provincial territorial reserve and municipal borders worked together to create a dynamic legal landscape that both Indigenous and non Indigenous people negotiated in myriad ways as they traversed these borderlands Adventurers prospectors laborers and settlers from Europe Canada the United States Latin America and Asia made and remade themselves as they crossed from one jurisdiction to another Within this broader framework Geiger pays particular attention to the ways in which Japanese migrants and the Indigenous people who had made this borderlands region their home for millennia Tlingit Haida and Tsimshian among others negotiated the web of intersecting boundaries that emerged over time charting the ways in which they infused these reconfigured national provincial and territorial spaces with new meanings

The Last Logging Show

Aaron Williams, 2024-05-04 A third generation British Columbia logger returns to the forests of Haida Gwaii in the grip of change By the time Aaron Williams began learning how to fall a tree his family had been making clear cuts on BC hillsides for nearly a century During his father s generation the industry started to crumble and by the time Williams arrived he knew his future lay elsewhere But his father continued in the trade his work taking him into the forests of Haida Gwaii There Williams follows him into a season at Collison Point where the loggers are increasingly unwelcome visitors to the ancient forests The Last Logging Show captures the spectacular setting of Haida Gwaii and the people who call it home It unravels the lives and dreams of those who log the forests for a living who have coexisted with the Haida for generations but while one way of life is in the twilight of existence the other is being reborn Thoughtful and compelling this is a story of connection community and the force of fundamental change **Canadian Books in Print.
