

QUEEN OF THE SEAS

By The Right

THE building of the *Queen Mary* represents the decision of Great Britain to regain the Blue Ribbon of the Atlantic passenger service. This decision has been long delayed and many circumstances most vexatious to British minds have obstructed it.

After the war, too many weapons of power, Germany was disarmed, Atlantic liners in replacement of a volume of tonnage sunk by the shelling, covered the two power's Imperial and German.

the last wartime magnificence, luxury and modernity, and which eclipsed all rivals by three or four knots speed. Germany thus re-oriented upon the transatlantic passenger trade in the most favourable circumstances, competing with her own old ships, now in British hands, with brand-new vessels built on money borrowed from the Allies: Great Britain, weighed down with debt, unable by the economic blitzard, and disappointed in German repayment, found herself unable to put contemporary vessels in the water to meet this new challenge.

Nearly a quarter of a century has therefore passed without any opportunity being given to our designers to construct the mammoth vessels, in the light of the knowledge of new tones and requirements the travelling public, which have developed since then. The glory of the *Aspinwall*

and Manovatsia is that they have, for all this period, been able to make head against the tremendous state-aided competition of ships very much younger than themselves. It is from this fact that we may draw great hopes for the future.

In all questions of re-equipment on a large scale, wherever one is faced with the task has the opportunity of going from the bottom to the top of the class. Such was the position when Great Britain began to recover from the world slump of eggs and eggs. The ordered and orthodox system of our business enabled both public and private enterprise to look forward to a new and successful effort to re-establish our industrial and maritime supremacy. The decision to build the Queen Mary, which must of course carry with it the building of a sister ship, was the result of this revival. Her launch by Her Majesty Queen Mary in 1934 was an occasion of national rejoicing. Her entry into the transatlantic passenger service this month will signify and symbolize the revival of British industry and the British nation to assert their long undiminished

Talbot Mundy, Philosopher of Adventure Brian Taves, 2005-11-09 This critical biography chronicles both

the actual travels and the philosophical meanderings of Talbot Mundy one of the pioneers of the fantasy and adventure genre Less celebrated than his contemporaries Rudyard Kipling and Joseph Conrad Mundy was no less gifted when it came to the literary portrayal of faraway lands He was one of the first Western writers to show an appreciation of Eastern culture and his writing became an outlet for his radical ideas on religion and philosophy At the age of sixteen Mundy left his native England to begin his life of adventure a journey that took him from India to the Middle East to Tibet and finally to America which became his adopted home The American spirit of adventure matched Mundy s own and it was here that he found a true audience for his work This book explores Mundy s oeuvre much of it set in exotic locales through which he himself had traveled and considers both his novels and his lesser known writing as well as his film and radio work Books such as Rung Ho King of the Khyber Rifles Caves of Terror Purple Pirate and Tros of Samothrace are discussed and placed within the framework of Mundy s life and philosophy The final chapter evaluates the enduring value of his writings Appendices include a comprehensive list of Mundy s works and a chronological listing by their original publication dates
