College or the latest preacher at Paul's Cross. Immigrants posed problems for Londoners who though proud of England's religious tolerance were concerned about the damage these skilled migrants might do to their own livelihoods despite the dominance of livery companies and their apprentice system. Henry VIII's destruction of the monasteries had caused a crisis in poverty management that was still acute resulting in begging with begging licenses and a parochial poor rate paid by the better off. Liza Picard's wonderfully vivid prose enables us to share the satisfaction and delights as well as the vexations and horrors of the everyday lives of the denizens of sixteenth century London.

**Disability and the Tudors** Phillipa Vincent Connolly, 2021-11-10 Throughout history how society treated its disabled and infirm can tell us a great deal about the period. Challenged with any impairment, disease or frailty was often a matter of life and death before the advent of modern medicine so how did a society support the disabled amongst them? For centuries disabled people and their history have been overlooked, hidden in plain sight. Very little on the infirm and mentally ill was written down during the renaissance period. The Tudor period is no exception and presents a complex unparalleled story. The sixteenth century was far from exemplary in the treatment of its infirm but a multifaceted and ambiguous story emerges where society's natural fools were elevated as much as they were belittled. Meet characters like William Somer, Henry VIII's fool at court whom the king depended upon and learn of how the dissolution of the monasteries contributed to forming an army of sturdy beggars who roamed Tudor England without charitable support. From the nobility to the lowest of society, Phillipa Vincent Connolly casts a light on the lives of disabled people in Tudor England and guides us through the social, religious, cultural and ruling classes' response to disability as it was then perceived.

Early Modern Court Culture Erin Griffey, 2021-11-29 Through a thematic overview of court culture that connects the cultural with the political, confessional, spatial, material and performative, this volume introduces the dynamics of power and culture in the early modern European court. Exploring the period from 1500 to 1750, Early Modern Court Culture is cross cultural and interdisciplinary providing insights into aspects of both community and continuity at courts as well as individual identity change and difference. Culture is presented as not merely a vehicle for court propaganda in promoting the monarch and the dynasty but as a site for a complex range of meanings that conferred status and virtue on the patron, maker, court and the wider community of elites. The essays show that the court provided an arena for virtue and virtuosity, intellectual and social play, demonstration of moral authority and performance of social, gendered, confessional and dynastic identity. Early Modern Court Culture moves from political structures and political players to architectural forms and spatial geographies, ceremonial and ritual observances, visual and material culture, entertainment and knowledge. With 35 contributions on subjects including gardens, dress, scent, dance and tapestries, this volume is a necessary resource for all students and scholars interested in the court in early modern Europe.
