which two sixteenth century English scribes went about making a book of magic this volume provides insight into the wider intellectual culture surrounding the practice of magic in the early modern period

essential to the smooth functioning of English society This illuminating book tells their stories through the legal texts in which they are named and the magic books that record their practices In legal terms their magic fell into the category of sin or petty crime the sort that appeared in the lower courts and most often in church courts Despite their relatively lowly status scripts for the sorts of magic they practiced were recorded in contemporary manuscripts Juxtaposing and contextualizing the legal and magic manuscript records creates an unusually rich field to explore the social aspects of magic practice Expertly constructed for both classroom use and independent study this book presents in modern English the legal documents and magic texts relevant to ordinary forms of magic practiced in Tudor England These are accompanied by scholarly introductions with original perspectives on the subjects Topics covered include the London cunning man Robert Allen magic to identify thieves love magic magic for hunting fishing and gambling and magic for healing and protection Advanced Witchcraft Edain McCoy, 2025-08-05 In the beginning everything is fresh and new Learning how to cast a circle work magick compile a Book of Shadows and honor the God and Goddess on esbats and sabbats can be exhilarating But once you've mastered the basics of Witchcraft comes the real challenge of living your faith every moment of every day Living as a Witch is knowing that you are the magick Advanced Witchcraft doesn't contain any Wicca 101 information it assumes that you're already familiar with the nuts and bolts of the Craft Instead this book challenges you to think critically about your beliefs and practices what they mean to you how they've changed and where you're going Along the way you'll also learn many techniques for intermediate and advanced Witches including Meeting your shadow Advanced warding and psychic self defense Power animals familiars and shapeshifters Working the labyrinth and the maze Advanced tree spirituality Advanced augury and divination Magick and ritual using the fine arts of storytelling dance music art and drama The art of Wishcraft Spirits and lost souls Banishing and closing portals The healing arts **Theatre, Magic and Philosophy** Gabriela Dragnea Horvath, 2017-07-06 Analyzing Shakespeare's views on theatre and magic and John Dee's concerns with philosophy and magic in the light of the Italian version of philosophia perennis mainly Marsilio Ficino Pico della Mirandola and Giordano Bruno this book offers a new perspective on the Italian English cultural dialogue at the Renaissance and its contribution to intellectual history In an interdisciplinary and intercultural approach it investigates the structural commonalities of theatre and magic as contiguous to the foundational concepts of perennial philosophy and explores the idea that the Italian thinkers informed not only natural philosophy and experimentation in England but also Shakespeare's theatre The first full length project to consider Shakespeare and John Dee in juxtaposition this study brings textual and contextual evidence that Gonzalo an honest old Counsellor in *The Tempest* is a plausible theatrical representation of John Dee At the same time it places John Dee in the tradition of the philosophia perennis accounting for what appears to the modern scholar the conflicting nature of his faith and his scientific mind his powerful fantasy and his need for order and rigor and clarifies Edward Kelly's role and creative participation in the scrying sessions regarding him as co author of the dramatic episodes reported in Dee's spiritual

diaries Finally it connects the Enochian Angelic language to the myth of the Adamic language at the core of Italian philosophy and brings evidence that the Enochian is an artificial language originated by applying creatively the analytical instruments of text hermeneutics used in the Cabala
