V King John Macbeth and Coriolanus From dust jacket The Guild and Guild Buildings of Shakespeare's Stratford J.R. Mulryne, 2016-03-09 The guild buildings of Shakespeare's Stratford represent a rare instance of a largely unchanged set of buildings which draw together the threads of the town's civic life With its multi disciplinary perspectives on this remarkable group of buildings this volume provides a comprehensive account of the religious educational legal social and theatrical history of Stratford focusing on the sixteenth century and Tudor Reformation The essays interweave with one another to provide a map of the complex relationships between the buildings and their history Opening with an investigation of the Guildhall which served as the headquarters of the Guild of the Holy Cross until the Tudor Reformation the book explores the building's function as a centre of local government and community law and as a place of entertainment and education It is beyond serious doubt that Shakespeare was a school boy here and the many visits to the Guildhall by professional touring players during the latter half of the sixteenth century may have prompted his acting and playwriting career The Guildhall continues to this day to house a school for the education of secondary level boys The book considers educational provision during the mid sixteenth century as well as examining the interaction between touring players and the everyday politics and social life of Stratford At the heart of the volume is archaeological and documentary research which uses up to date analysis and new dendrochronological investigations to interpret the buildings and their medieval wall paintings as well as proposing a possible location of the school before it transferred to the Guildhall Together with extensive archival research into the town's Court of Record which throws light on the commercial and social activities of the period this rich body of research brings us closer to life as it was lived in Shakespeare's Stratford The Oxford Handbook of Shakespeare Arthur F. Kinney, 2012 Contains forty original essays **Shakespeare's books** Henry R. D. Anders, 2017-03-20 No detailed description available for Shakespeare's books **Shakespeare Survey With Index 1-10: Volume 11, The Last Plays** Allardyce Nicoll, 1958-01-02 The first fifty volumes of this yearbook of Shakespeare studies are being reissued in paperback The Westminster Review, 1870 **Monograph Series** Modern Language Association of America, 1927 **The Young Woman's Journal**, 1929 *Staging Spectatorship in the Plays of Philip Massinger* Professor Joanne Rochester, 2013-04-28 The playwrights composing for the London stage between 1580 and 1642 repeatedly staged plays within and other metatheatrical inserts Such works present fictionalized spectators as well as performers providing images of the audience stage interaction within the theatre They are as much enactments of the interpretive work of a spectator as of acting and as such they are a potential source of information about early modern conceptions of audiences spectatorship and perception This study examines on stage spectatorship in three plays by Philip Massinger head playwright for the King's Men from 1625 to 1640 Each play presents a different form of metatheatrical inset from the plays within of *The Roman Actor* 1626 to the masques within of *The City Madam* 1632 to the titular miniature portrait of *The Picture* 1629 moving thematically from spectator interpretations of dramatic performance the visual spectacle of the masque to staged readings of static visual art

All three forms present a dramatization of the process of examination and allow an analysis of Massinger's assumptions about interpretation perception and spectator response

Elisabeth Meier Tetlow, 2005-06-24 The ancient period of Greek history to which this volume is devoted began in late Bronze Age in the second millennium and lasted almost to the end of the first century BCE when the last remnant of the Hellenistic empire created by Alexander the Great was conquered by the Romans Extant texts of law of actual laws are few and often found embedded in other sources such as the works of orators and historians Greek literature from the epics of Homer to the classical dramas provides a valuable source of information However since literary sources are fictional portrayals and often reflect the times and biases of the authors other more concrete evidence from archaeology has been used throughout the volume to confirm and contextualize the literary evidence about women crime and punishment in ancient Greece The volume is divided into three parts I Mykenean and Archaic Greece II Classical Greece and III the Hellenistic Period The book includes illustrations maps lists of Hellenistic dynasties and Indices of Persons Place and Subjects Crime and punishment criminal law and its administration are areas of ancient history that have been explored less than many other aspects of ancient civilizations Throughout history women have been affected by crime both as victims and as offenders In the ancient world customary laws were created by men formal laws were written by men and both were interpreted and enforced by men This two volume work explores the role of gender in the formation and administration of ancient law and examines the many gender categories and relationships established in ancient law including legal personhood access to courts citizenship political office religious office professions marriage inheritance and property ownership Thus it focuses on women and crime within the context of women in the society
