volume The original chapters offer an important dialogue between existing theory and new conceptualisations of gentrification for new times and new places in many cases offering novel empirical evidence *Francophone Literature as World Literature* Christian Moraru, Nicole Simek, Bertrand Westphal, 2020-06-25 *Francophone Literature as World Literature* examines French language works from a range of global traditions and shows how these literary practices draw individuals communities and their cultures and idioms into a planetary web of tension and cross fertilization The Francophone corpus under scrutiny here comes about in the evolving markedly relational context provided by these processes and their developments during and after the French empire The 15 chapters of this collection delve into key aspects moments and sites of the literature flourishing throughout the francosphere after World War II and especially since the 1980s from the French Hexagon to the Caribbean and India and from Qu bec to the Maghreb and Romania Understood and practiced as World Literature Francophone literature claims with particular force in the wake of the litt rature monde debate its place in a more democratic world republic of letters where writers critics publishers and audiences are no longer beholden to traditional centers of cultural authority *Kinship Across the Black Atlantic* Gigi Adair, 2019 This book combines insights from postcolonial queer and diaspora studies to consider the meanings of kinship in contemporary black Atlantic fiction Diasporic displacement generates new understandings and new narratives of kinship An analysis of kinship is thus essential to understanding diasporic modernity at the turn of the twenty first century **Legally Straight** Joe Rollins, 2018 Argues that cultural conceptions of children and childhood played a key role in legalizing gay marriage Legally Straight offers a critical reading of the legal debates over lesbian and gay marriage in the United States The book draws on key judicial opinions to trace how our understanding of heterosexuality and marriage has changed Upon closer inspection it seemed that the cultural value of marriage was becoming tarnished and the trouble appeared to center on one very specific issue reproduction As opponents of lesbian and gay marriage emphasized the link between marriage and accidental pregnancy the evidence mounted the arguments proliferated and resistance began to turn against itself Heterosexuality it seemed for a moment was little more than a set of palliative prescriptions for the worst of human behavior and children became the victims It thus became the province of the courts to reinforce the cultural value of marriage by resisting what came to be known as the procreation argument the assertion that marriage exists primarily to regulate the unruly aspects of heterosexual reproduction Cultural conceptions of children and childhood were being put at risk as gays and lesbians were denied marriage so that writing lesbian and gay families into the marriage law became the better option **The Cambridge Companion to American Gay and Lesbian Literature** Scott Herring, 2015-05-19 This Companion examines the connections between LGBTQ populations and American literature from the late eighteenth to twenty first centuries It surveys primary and secondary writings under the evolving category of gay and lesbian authorship and incorporates current thinking in US based LGBTQ studies as well as critical practices within the field of American literary studies This Companion also

addresses the ways in which queerness pervades persons texts bodies and reading while paying attention to the transnational component of such literatures In so doing it details the chief genres conventional historical backgrounds and influential interpretive practices that support the analysis of LGBTQ literatures in the United States
