without much ado With her biological clock ticking at a pace faster than daily inflation she decided to take charge and embrace the world of fertility treatments with the confidence that in no time she would be flaunting her baby bump But soon she realized that the world of fertility treatments was not just overwhelming but also complex demanding and expensive From a wide range of blood tests to ovulation trackers hormonal medicines transvaginal scans painful injections and seeking divine intervention she endured it all and yet did not give up hope She has come a long way from where she started considering her dwindling bank balance has been through a roller coaster of emotions blame the hormonal injections and learned a few valuable lessons about herself she still sucks at accepting failures in this incredible but daunting mission of conceiving a baby Will she succeed in this arduous mission
