Black Christology and the Quest for Authenticity John H. McClendon III, 2019-05-03 *Black Christology and the Quest for Authenticity* A Philosophical Appraisal constitutes a philosophical inquiry on Black Theology and its attendant Black Christology Explicitly the philosophical examination of Black Theology conceptually maps its quest for establishing Black Christology as an authentic form within Christian theology This text critically expounds on the methodologies and arguments which guide how Black Theology specifically affirms Black Christology as the definitive paradigm for authentic Christianity Significantly the racialized character of Black Theology immediately sets this discourse within the context of philosophy of race Clearly the philosophy of race in terms of its substance and scope is continually expanding Notably the philosophy of religion in its conceptual association with the African American experience considerably enriches the content of the

philosophy of race Therefore Black Christology and the Quest for Authenticity A Philosophical Appraisal stands as a unique contribution to philosophy of race Summarily while this book tackles the formidable problem of Christian theological subject matter nonetheless the reader must be aware that this is not a work executed methodologically in any theological manner inclusive of Christian theology Subsequently while the object of our investigation substantively remains theological in character the method of investigation is guided by philosophical inquiry which is based on secular principles Furthermore although most mainstream works in philosophy of religion along with theology neglect to exam African American theologians and philosophers the subject matter of Black Christology substantially facilitates in filling this intellectual void *African American Theology* Frederick L. Ware,2016-03-01 This book presents a substantial introduction to the major methodologies figures and themes within African American theology Frederick L Ware explores African American theology from its inception and places it within dual contexts first the African American struggle for dignity and full humanity and second the broader scope of Christian belief Readers will appreciate Ware s demonstration of how black theology is expressed in a wide range of sources that includes not only scholarly publications but also African American sermons music news and editorials biography literature popular periodicals folklore and philosophy Each chapter concludes with questions for discussion and suggested resources for further study Ware provides a seasoned perspective on where African American theology has been and where it is going and he demonstrates its creativity within the chorus of Christian theology Methodologies of Black Theology Frederick L. Ware,2008-02-01 Frederick L Ware provides a classification and criticism of methodological perspectives in the academic study interpretation and construction of black theology in the U S from 1969 to the present and establishes and recognizes three different schools of academic black theology The Black Hermeneutical School The Black Philosophical School The Human Sciences School Similarities and differences are delineated in the identification of each school s representative thinkers and their views on the tasks content sources norm method and goals of black theology

The Divided Mind of the Black Church Raphael G Warnock, 2013-12-06 An altar call to action from the U S senator and senior pastor at Atlanta s Ebenezer Baptist Church Publishers Weekly What is the true nature and mission of the church Is its proper Christian purpose to save souls or to transform the social order This question is especially fraught when the church is one built by an enslaved people and formed from its beginning at the center of an oppressed community s fight for personhood and freedom Such is the central tension in the identity and mission of the Black church in the United States For decades the Black church and Black theology have held each other at arm s length Black theology has emphasized the role of Christian faith in addressing racism and other forms of oppression arguing that Jesus urged his disciples to seek the freedom of all peoples Meanwhile the Black church even when focused on social concerns has often emphasized personal piety rather than social protest With the rising influence of white evangelicalism biblical fundamentalism and the prosperity gospel the divide has become even more pronounced This book traces the historical significance of the rise and development of Black theology as an important conversation partner for the Black church Calling for honest dialogue between Black and womanist theologians and Black pastors this fresh theological treatment demands a new look at the church s essential mission An informative work for historians theologians and humanities scholars interested in debating what the Black Church needs to be doing in the 21st

century Journal of African American History As a person who is not Black reading this book provided a learning experience for me I could also see this book serving as a way to spark discussion involving all ethnic groups as to how we can all as fellow Christians blend the goals of saving lost people and moving the culture toward equality for everyone Ministry Well written and meticulously researched The Christian Century *Black Theology USA and South Africa* Dwight N. Hopkins, 2005-12-01 Black theology continually poses a challenge to Christian witness and faith Through a critical analysis of leading religious thinkers Dwight N Hopkins explores the fundamental differences and similarities between black theology in the United States and black theology in South Africa and asks What is the common denominator between the two Part I examines the historical political cultural and theological background of contemporary black theology in both countries Hopkins delves into the distinctive situation of each country focusing on civil rights black power and related political cultural and theological themes in the United States and on civil disobedience black consciousness the unity of politics and culture and political cultural theological themes in South Africa Through interviews with leading black religious scholars Part II explores these theologies in depth Contrasting the cultural theological trend with the political theological trend in the USA Hopkins explores the ideas of theologians Albert B Cleage James H Cone J Deotis Roberts William R Jones Gayraud S Wilmore Charles H Long Cecil W Cone and Vincent Harding In Part III Hopkins examines the same two trends cultural theological and political theological in South Africa Here the focus is on the impact of black consciousness and Soweto and the works of Manas Buthelezi Allan Boesak Simon S Maimela Frank Chikane Bonganjalo C Goba Itumeleng J Mosala Takatso A Mofokeng and Desmond M Tutu Part IV brings black theology USA and black theology South Africa into dialogue Hopkins locates the common denominator between the two theologies that they both claim the Christian gospel as the gospel of liberation for black people struggling against racism and for a holistic humanity physically and spiritually politically and culturally He concludes by looking toward future areas of development and collaboration arguing that an effective black theology of liberation must integrate politics and culture insuring that the two are equal and complementary two tributaries within the same current **Crisis of the Negro Intellectual Reconsidered** Jerry G. Watts, 2004-08-26 Thirty five years after its initial publication Harold Cruse's *The Crisis of the Negro Intellectual* remains a foundational work in Afro American Studies and American Cultural Studies Published during a highly contentious moment in Afro American political life *The Crisis of the Negro Intellectual* was one of the very few texts that treated Afro American intellectuals as intellectually significant The essays contained in Harold Cruse's *The Crisis of the Negro Intellectual Reconsidered* are collectively a testimony to the continuing significance of this polemical call to arms for black intellectuals Each scholar featured in this book has chosen to discuss specific arguments made by Cruse While some have utilized Cruse's arguments to launch broader discussions of various issues pertaining to Afro American intellectuals and others have contributed discussions on intellectual issues completely ignored by Cruse all hope to pay homage to a thinker worthy of continual reconsideration Baptist
