Quest For Truth Followed By Time Space And Man:

A Quest for Truth and Wisdom Robert Wilson, 2015-01-09 Truth to some may be what is seen in the natural universe Truth to some may be what is expressed by some individual who seems to be successful or charismatic Truth to some may be what the Bible says Truth to some may span a complex variety of issues and to others to be quite simple Websters Dictionary says to attain wisdom a person must have good sense good judgment insight and knowledge Does that limit the number of persons who can have wisdom This search for truth and wisdom comes from the perspectives of Western culture scientific approach logic reason and monotheistic philosophies Monotheism encompasses Christianity Islam Judaism and some other lesser known belief systems This subject might be treated differently from the perspectives of Eastern cultures emotion mysticism or more spiritual concepts and polytheistic religious philosophies The latter perspectives are not discussed here This work addresses some aspects of the concepts of truth Questions are asked and answers are suggested Original Greek scripture is referenced rather than any translation or interpretation that could have been influenced by a particular theological philosophy organized church church tradition or seminary I propose a third concept to add to Evolution and Creation or Intelligent design the Eternal or Forever concept everything has simply always been and always will be No beginning and no end I discuss aspects of the nature of man I discuss intelligence intellectualism and education I discuss global intelligence and terrorism in the world of today I discuss dualisms in American culture I discuss science and our limited view in space and time I discuss difficult or significant passages in the Bible with emphasis on the original Greek

Gadflies in the Public Space Ramin Jahanbegloo, 2016-12-13 The concept of disobedient consciousness and the rebellious Socratic mind that grows out of this book is above all a product of Ramin Jahanbegloo's life meetings with the two

apparently contradictory worlds of philosophy and politics More precisely it is the result of approaching the public realm in terms of a philosophical quest for truth and justice This restless quest for truth and justice has a history that continues to bear upon us however much we choose to ignore it We can think about the current situation of philosophy by exploring that history The image of Socrates represents a mid point between politics and philosophy the Socratic mind exemplified by the presence of the public gadfly in history finds itself at the beginning of a new struggle for truth The journey to this struggle started with the trial of Socrates followed by the experiences of Henry David Thoreau Mahatma Gandhi Martin Luther King Jr and Albert Camus But the forging of the rebellious mind and the sustaining of the civic task of philosophy are goals which impose themselves to each of us whenever we are reminded by the urgency of critical thinking in our own dark times The future of humankind necessarily requires convictions and commitments but it also requires Socratic rebels of the mind and of action who have the courage to swim against the tide Examining dissent in the history of philosophy this book will appeal to scholars of political theory and political philosophy and to scholars and students of political and intellectual history
