Questions And Answers In The Practice Of Family Therapy Vol :

Questions & Answers in the Practice of Family Therapy Alan S. Gurman, 1981 *The Family Life of Psychotherapists* Florence Whiteman Kaslow, 1987 If mental health professionals will want to read this exciting book to better understand the reciprocal impact of their professional and family lives Psychotherapists who frequently work with family clients may find difficulty in making the transition from work to their own family life and back again Contributors examine the transpositions of personal family life and objective task oriented work life that occur with suggestions of how to recognize and cope with the changes Experts also explore the extraordinary challenges psychotherapists face when treating fellow therapists with family related problems or when they themselves need those services Children in Family Therapy Joan J Zilbach, 2020-09-23 Here is one of the few books that focuses explicitly on including children in family therapy sessions The contributors to this enlightening volume are seasoned family therapists of various theoretical perspectives who work in a variety of settings and include children of all ages in their therapy practices Recognizing that many practicing therapists are not comfortable including children they address the treatment and training issues and provide extensive case studies and fascinating background material on their own early involvement in the practice Children in Family Therapy will be extremely valuable to family therapists of all levels of experience For the veterans the cases that are different in approach from their own will be particularly informative Less experienced therapists will find here a basic introduction and a clear description of the range of clinical practice in family therapy *Handbook of Behavioural Family Therapy* Ian Falloon, 2015-07-30 First published in 1988 behavioural family therapists worked in an area that had greatly changed since its inception over 20 years before Growing out of the pioneering work of Gerald Patterson Robert Paul Liberman and Richard Stuart whose backgrounds vary from psychology to psychiatry to social work behavioural family therapy BFT had evolved to encompass systems theory considerations of the therapeutic alliance as well as approaches to accounting for and restructuring family members subjective experiences through cognitive strategies As BFT had not been the brain child of any one charismatic innovator but rather of a wide array of clinicians and researchers developing and rigorously testing hypotheses it is fitting that this much needed summation of the field was a collaborative product of an array of well established practitioners of the time They discuss in Part 1 of the book the theoretical parameters of BFT focusing on modular behavioural strategies the indications for therapy assessment of family problems pertinent issues arising in clinical practice and approaches to the problem of resistance to change Contributors to Part 2 then apply theory to such clinical situations as parent training and helping families cope with patients suffering from developmental disabilities alcoholism schizophrenia senile dementia as well as anxiety obsessive compulsive and depressive disorders Specific attention is also given to acute inpatient and primary health care settings While BFT had already proved quite effective in treating a great number of family problems it was only in its infancy at the time of writing As Falloon says in his overview all exponents of the method are constantly involved with the

process of refinement each clinician is a researcher each family member is a research subject and each researcher is contributing to clinical advancement This openness in combination with a willingness to modify sacred tenets of behaviourism while adapting proven techniques from other family therapies made this title a landmark in its field As such it was not only of interest to all clinicians and researchers with a behavioural slant but also to all family therapists who wished to challenge themselves to develop an integrative approach

Family Therapy Janice M. Rasheed, Mikal N. Rasheed, James A. Marley, 2010-07-29 This text offers a straightforward comprehensive overview of both traditional and evolving theoretical models of family therapy and intervention techniques as well as a discussion of clinical issues unique to family therapy practice Aiming to prepare students to develop beginning proficiency in family therapy the authors outline major family therapy models in detail including a step by step description of concepts theories skills and techniques as well as a history of each model and its conceptual and theoretical underpinnings The text also provides extensive case illustrations of family interviews that identify the specific stages clinical issues concepts theories and techniques associated with each model This core text is designed for graduate level courses such as Family Therapy Marriage and Family Therapy Marriage and Family Counseling Family Systems Theory and Family Counseling in departments of social work psychology nursing education or human services

Handbook of Family Therapy Training and Supervision Howard A. Liddle, Douglas C. Breunlin, Richard C. Schwartz, 1988-06-17 Over the last three decades family therapy has revolutionized the mental health field changing the way human problems are conceived and therapy is conducted In concert with the dynamic growth of family therapy the field of family therapy training and supervision has also expanded enormously yielding many new ideas and skills Yet until now few books have been devoted to it and no single volume has attempted to relate the full breadth of this growing field in terms of its conceptual and theoretical expansion as well as its practical application HANDBOOK OF FAMILY THERAPY TRAINING AND SUPERVISION fills this need by presenting a truly comprehensive view of this dynamic area To accomplish this broad yet in depth scope editors Liddle Breunlin and Schwartz have assembled 30 highly acclaimed authorities to author chapters in their respective areas of expertise For further clarification the editors have included segues that introduce and analyze each of the book's four major sections providing the reader with an overview of the section highlights of themes that run through it and discussion of the issues raised in a way that ties the chapters together The book opens with a presentation of the unique and innovative approaches to training and supervision that have evolved in each separate school of family therapy Offering a panoramic view of the entire field of family therapy these seven chapters allow for fascinating comparisons among the different schools regarding the process by which ideas about therapy evolve into training techniques and philosophies Section II follows with an explication of the pragmatics of family therapy supervision Helping family therapy trainers avoid and anticipate the common mistakes involved with supervision the skills described in this section create an atmosphere conducive to learning and maintaining a working trainer trainee relationship and finally for

training of supervisors Practical guidelines for using live and video supervision are included Section III features family therapy trainers in such diverse fields as psychiatry psychology family medicine social work nursing free standing and academic family therapy programs who describe the problems and advantages they encounter teaching these new ideas within their idiosyncratic contexts The book closes with a section that includes reflections on the field by such innovative and respected leaders as Cloe Madanes and Jay Haley Among topics covered are perspectives and recommendations for researchers evaluating family therapy practical advice for incorporating a cultural perspective into training programs feedback on the experience of live supervision from trainees perspectives An appendix follows that provides over 400 references organized by subject for easy reference Given the level and scope of this extraordinary text **FAMILY THERAPY TRAINING AND SUPERVISION** is an invaluable resource for anyone interested in teaching learning or simply appreciating family therapy

Therapists Use of Self in Family Therapy Daniel Bochner, 2000-06-01 To find out more about Rowman Littlefield titles please visit us at www.rowmanlittlefield.com

Stigma and Mental Illness Paul Jay Fink, 1992 This book is a collection of writings on how society has stigmatized mentally ill persons their families and their caregivers First hand accounts poignantly portray what it is like to be the victim of stigma and mental illness *Stigma and Mental Illness* also presents historical societal and institutional viewpoints that underscore the devastating effects of stigma

Lesbians and Gay Men as Foster Parents Wendell Ricketts, 1991

Negotiating Parent-Adolescent Conflict Arthur L. Robin, Sharon L. Foster, 2002-12-18 Parent adolescent discord is often handled from a unitary perspective whether the focus is on enhancing parenting skills resolving conflicts in family relationships or working to improve the behavior of the individual child This important work shows the clinician how to incorporate all of these crucial elements into a single research based treatment program Presented is the authors influential integration of cognitive behavioral constructs and family systems theory grounded in consideration of adolescent developmental concerns The book describes effective ways to conceptualize and assess the problems of embattled parents and teens use assessment data in treatment planning overcome resistance and other therapeutic hurdles and implement carefully sequenced skills training cognitive restructuring and functional structural interventions The theoretical and empirical bases of the treatment approach are also discussed in depth

Family Dynamics for Physicians Russell J. Sawa, 1985 This study offers an analysis of the way that the social dynamics of the family affects the health and or illness of its members It deals with several specific parameters and provides a diagnostic instrument for use by physicians and other members of the healing professions

Social Work Treatment 4th Edition Francis J. Turner, 1996-09-01

The Psychosocial Interior of the Family Gerald Handel, Gail G. Whitchurch, 1994 This long awaited fourth edition has the same goal as the preceding editions to understand families in terms of the kinds of interaction through which family life is constructed The changes in the family as an institution have influenced these processes just as they have influenced the ways we understand and write about them But even in these postmodern

circumstances an underlying premise of the volume is that two partners establish a family because they have selected each other as distinctively meaningful to one another. They will affirm, modify, elaborate or retreat from various aspects of the relationship through interaction over time and in changing circumstances. This volume contains the best available interdisciplinary work on the social psychology of the family. More than half of the selections are new to this edition which incorporates a variety of theoretical and research perspectives that provide the reader with a range of authoritative and up to date sources on the family and interpersonal relations. The newer forms of family organization that have emerged in the more recent literature specifically single parent families, stepfamilies and families of gay and lesbian domestic partners are included. Authors have been drawn from a variety of disciplines including sociology, communication, family studies, human development, psychology, anthropology and social work.

Common Dilemmas in Couple Therapy Judith P. Leavitt, 2010

Common Dilemmas in Couple Therapy addresses four common problems that couples therapists face everyday in their offices: problems that leave therapists exhausted, drained, challenged, alive, racing and on edge. These dilemmas encompass not only the difficult challenges therapists face everyday but also the passions and profound disappointments of human intimate partnerships. The purpose of this book is not only to explore and give case illustrations of these dilemmas but also to give therapists strategies to use and help them understand and handle their own profound experiences while doing this work.

Global Perspectives in Family Therapy Kit S. Ng, 2004-11-23

Global Perspectives in Family Therapy: Development, Practice Trends provides an overview of the development of the family and the issues and concerns they are faced with in different cultural contexts. Contributions from experts in the field expand on the different aspects on the historical beginnings, current developments, training issues, theoretical variations, future trends and research potential in family therapy throughout 14 countries. It explores the diverse cultural approach to family therapy and suggests various clinical interventions that are helpful to clinicians dealing with families from different countries including case studies, vignettes and research outcomes of family therapy overseas.

Fathers and Families Henry B. Biller, 1993-01-21

Biller, well known for his extensive research into the impacts of involved fathering or the absence thereof, provides a comprehensive, straightforward analysis of just how important paternal involvement really is. He describes the great advantages accruing to a child when the father, as well as the mother, actively participates in the parenting process. Fathers who sustain high interest and a true presence in a child's nurturing significantly influence body image, self-esteem, moral standards, intellectual achievement and social competency. The benefits Biller shows extend beyond the father-child relationship and include heightened spousal satisfaction and a sense of overall family well-being. The reciprocal influences of father, mother and child development are considered within a lifespan, biopsychosocial perspective. This is an important and compelling treatment of a topic of immense concern not only to individual families but to society as a whole. Biller, by relating specific issues to fathers' roles and influences, offers the first integrated analysis of just how important a father's caring presence and active involvement is to his child's and spouse's

psychosocial well being This balanced study of paternal factors addresses not only such issues as nurturance discipline and the cultivation of self esteem intelligence and creativity but also family problems so evident in current society There is a thorough analysis concerning complex connections among gender roles parenting and personality development The work is highly substantive realistic and encouraging in its potential for guidance and offers insightful useful conclusions on paternal behavior and influences

Poppa Psychology Vicky Phares,1999-02-28 Many people seem to be searching for answers to help explain their past understand their current way of being and create a happier more satisfying future It is the current trend to blame mothers for such emotional problems Poppa Psychology calls into question this habit of blaming mothers and focuses instead on the father child relationship Regardless of whether the father is present or absent his actions will have a direct influence on the child s development Fathers have received a great deal of media attention lately but the main focus has been on their absence Poppa Psychology deals with the psychological ramifications of the father child relationship regardless of whether the fathers are present or absent Specifically it highlights factors that are related to maladjustment in children and provides suggestions for raising psychologically healthy children

Handbook Of Family Therapy Alan S. Gurman,David P. Kniskern,2014-01-21 This volume reflects the achievements in developing new concepts and models of family therapy and new approaches to special clinical issues and problems during the 1980s Chapters by experts such as Boszormenyi Nagy Everett Guttman Lankton Liddle McGoldrick Madanes and Walsh offer insight into a variety of areas including systems theory cybernetics and epistemology contextual therapy Ericksonian therapy strategic family therapy treating divorce in family therapy practice ethnicity and family therapy and training and supervision in family therapy

Dictionary of Psychotherapy Sue Walrond-Skinner,2014-02-25 An invaluable reference tool which provides a comprehensive coverage of the various psychotherapeutic concepts and the techniques relevant to them

Comprehensive Textbook of Suicidology Alan Lee Berman,Morton M. Silverman,Bruce Michael Bongar,2000-08-10 Multidisciplinary and comprehensive in scope this volume serves as an authoritative overview of scientific knowledge about suicide and its prevention providing a foundation in theory research and clinical applications Issues relevant to clinical case management are highlighted and various treatment modalities are discussed in light of the latest research findings
