Einstein Questions, Buddha Answers Supphawan Green, 2012 *Questions and Buddha's Answers* Egerton C. Baptist, 1983 **Difficult Questions Have Easy Answers** Atina Hseham, 2023-12-06 An inquiry made to obtain any information is known as an interrogation While asking the person tries to get an answer that allows him to satisfy his doubts The interviewers often ask simple questions in a very twisted fashion to confuse the candidates Difficult questions answers reflect the knowledge of the giver as well as his overall personality For example Which is heavier a kilogram of feathers or 1000 grams of lead Solution Both the weights are equal And What happened in Kolkata yesterday from 8 to 9 o'clock Solution An hour had passed These questions have a trick because they are framed in such a way that the answers seem simple but in reality they are not It can be said that the questioners confuse the candidates as they hide their answers using rhetorical resources and various devices In some cases the answer is found in the question itself but in secret Tricky questions are also used for fun or as a mental activity of logical practice Like a truck driver passing down a street in the wrong direction some policemen saw him but they didn't say anything to him why Solution Because the truck driver was on foot He shaves all day but still has a beard who is he Solution Barber Some months have thirty days and others thirty one but how many months have twenty eight Solution Every month has at least twenty eight days Which object becomes wet When it dries Solution

Towel How do you draw a square with three lines Solution draw the square first and then draw three lines inside the square Thus an answer to a tricky question can lead to confusion due to the confusion generated question These types of questions are very specific to the areas in which people s knowledge or behavior is evaluated Generally such difficult questions can be perceived as misleading or incorrect because something is being implied that is not in reality However they can also be seen as methods whose precise purpose is to test the candidate and determine whether he or she is fully capable of answering the question that he or she is saying I know In this way about five thousand questions and answers have been given in the present book which is equally useful for all competitive examinations

Students and seekers alike will find this systematic presentation indispensable **BOOK JACKET** **Buddhism and Postmodernity** Jin Y. Park, 2010-10-28 Buddhism and Postmodernity is a response to some of the questions that have emerged in the process of Buddhism s encounters with modernity and the West Jin Y Park broadly outlines these questions as follows first why are the interpretations and evaluations of Buddhism so different in Europe in the nineteenth century in the United States in the twentieth century and in traditional Asia second why does Zen Buddhism which offers a radically egalitarian vision maintain a strongly authoritarian leadership and third what ethical paradigm can be drawn from the Buddhist postmodern form of philosophy Park argues that as unrelated as these questions may seem the issues that have generated them are related to perennial philosophical themes of identity institutional power and ethics respectively Each of these themes constitutes one section of Buddhism and Postmodernity Park discusses the three issues in the book through the exploration of the Buddhist concepts of self and others language and thinking and universality and particularities Most of this discussion is drawn from the East Asian Buddhist traditions of Zen and Huayan Buddhism in connection with the Continental philosophies of postmodernism hermeneutics and deconstruction Self critical from both the Buddhist and Western philosophical perspectives Buddhism and Postmodernity points the reader toward a new understanding of Buddhist philosophy and offers a Buddhist postmodern ethical paradigm that challenges normative ethics of metaphysical traditions

Concordance to the Complete Works Sangharakshita, 2024-11-26 With elements of index dictionary encyclopaedia concordance and collection of quotations this volume has been designed to act as a comprehensive and accessible guide to the whole of Sangharakshita s Complete Works For the solution of the 'Caste' question Buddha is not enough Ambedkar is not enough either Marx is a Must Ranganayakamma, For the solution of the Caste question Buddha is not enough Ambedkar is not enough either Marx is a Must This is neither Buddha s biography nor Ambedkar s Further it is not Marx s biography either This is a discussion concerning the Dalit question based exclusively on Ambedkar s writings However I have confined myself only to those writings that deal with the Dalit question and Caste system Ambedkar had also discussed other issues like Division of labour Division of Labourers poverty unemployment and economic exploitation These issues are connected with the Dalit question and the Caste system Hence all these issues find place in this book Ambedkar had also written on other themes like the Problem of the Rupee and Large Scale Industry But I have not included those issues which are not directly connected with the Dalit question Even regarding Gandhi I have not considered issues other than those Ambedkar cited in connection with the Dalit question For the purpose of this essay I wanted to rely only on Ambedkar s

writings But in couple of contexts where I could not find relevant information in Ambedkar s works I had to turn to a few references from his biographies I have given these details in the respective contexts The world needs the theory that is powerful enough to illuminate the path It is irrelevant whether that theoretician is Buddha Marx Ambedkar or someone else That which remedies the disease alone is a medicine That which emancipates from sufferings alone is the higher path If it is Buddhism we are obliged to follow it to revere it The question however is to ascertain which is the higher path This is the thing which we must ascertain We are obliged to follow the thing which we ascertain to be the higher path We need to read Ambedkar s writings in order to arrive at a correct understanding of many issues which he discussed the caste system untouchability poverty Buddhism Marxism etc We have to read them carefully and seriously Whatever we read we have to take everything that is useful We have to follow it We have to correct whatever needs correction We have to abandon whatever is not useful To do all this however we must first understand Ambedkar s ideas correctly Problems like castes and untouchability are not things that have arisen so to speak yesterday or today They have been entrenched for thousands of years But we don t have any written literature other than religious texts and some inscription that tells about them The available sources may not be useful in many contexts Yet they may be useful to some extent in some contexts When we don t find clear cut bases for the problems however there is no way out except attempting to understand them by means of our own logic
