**Attack of the New B Movies** Justin Wigard,Mitch Ploskonka,2023-04-14 Since its inception in 1992 the Sci Fi Channel later rebranded as SYFY has aired more than 500 network produced or commissioned films Campy and prolific the network churned out one low budget film after another finally finding its zenith in the 2013 release of Sharknado With unpretentious charm and a hearty helping of commodified nostalgia the Sharknado franchise briefly ruled the cultural consciousness and

temporarily transformed SYFY's original films from cult fringe to appointment television. Naturally the network followed up with a steady stream of sequels and spin offs including *Lavalantula* and its sequel *2 Lava 2 Lantula*. This collection of essays is the first to devote critical attention to SYFY's original film canon both pre and post *Sharknado*. In addition to unpacking the cultural, historical and critical underpinnings of the monsters at the heart of SYFY's classic creature features, the contributors offer a variety of approaches to understanding and interrogating these films within the broader contexts of ecocriticism, monster theory, post 9/11 criticism and neocolonialism. Providing a further entry point for future scholarship, an appendix details a thorough filmography of SYFY's original films from 1992 to 2022.
