peace is a crucial topic in our times Comparative religious studies helps to facilitate the peace building process This book looks at a few comparative themes in some of the Karmic and Abrahamic faiths Karmic religions include Hinduism Buddhism Jainism and Sikhism that have one central connecting theme the concept of karma Similarly Judaism Christianity and Islam are connected through the story of Abraham So they are called Abrahamic religions Sociological Theory in the Contemporary Era Scott Appelrouth, Laura Desfor Edles, 2010-11-29 Uses a proven text reader hybrid format to introduce contemporary theorists their original works and a theoretical framework for understanding them Praise for Sociological Theory in the Contemporary Era Current users of most other theory texts should take notice of Sociological Theory in the Contemporary Era as it rivals existing volumes with its accessibility and its selections Dustin Kidd Temple University TEACHING SOCIOLOGY Vol 36 2008 April 161 184 Sociological Theory in the Contemporary Era Second Edition combines well edited important original writings from sociology s core contemporary theorists with introductory text that provides a historical and theoretical framework for understanding them Authors Scott Appelrouth and Laura Desfor Edles use this unique text reader approach to introduce students to contemporary sociological theory in a lively and engaging fashion The text reader provides not only a biographical and theoretical summary of each theorist s works but also an overarching scaffolding that students can use to examine compare and contrast each theorist's major themes and concepts The book also offers discussions of past social and intellectual milieus to provide a holistic picture of the development of the theories discussed Contributor to the SAGE Teaching Innovations and Professional Development Award Partnership in the Gospel Robert Allan Hill, 2024-03-29 Many of our current lasting controversies in American Christianity are due in part to the willingness of liberals to champion reason and experience while leaving Scripture and tradition to conservatives and vice versa The liberal biblical theological voice once quite strong has fallen silent Grounded in a solid knowledge of biblical study Partnership in the Gospel presents a series of exercises or angles of perspective intended to support the rigorous consideration of biblical theological perspective that preachers teachers and lay leaders need This work draws from a range of scholarly theological and everyday voices and with kindred works of poetry art music and literature to explore the Bible s unifying themes through partnerships of perspective Each chapter offers an exercise that integrates Scripture experience tradition and reason the four sides of John Wesley's Quadrilateral as the means by which to engage with the gospel and appreciate a liberal biblical theology Fight the Tower Kieu Linh Caroline Valverde, Wei Ming Dariotis, 2019-10-11 Asian American women scholars experience shockingly low rates of tenure and promotion because of the particular ways they are marginalized by the intersectionalities of race and gender in academia Although Asian American studies critics have long since debunked the model minority myth that constructs Asian Americans as the ideal academic subject university administrators still treat Asian American women in academia as though they will simply show up and shut up Consequently because silent complicity is expected power holders will punish and oppress Asian American women severely when they

question or critique the system However change is in the air Fight the Tower is a continuation of the Fight the Tower movement which supports women standing up for their rights to claim their earned place in academia and to work for positive change for all within academic institutions. The essays provide powerful portraits reflections and analyses of a population often rendered invisible by the lies that sustain intersectional injustices in order to operate an oppressive system

Cooper, Cindy K. Epperson, 2008 An approachable introductory text to the issue of evil s expansive theology and how it interfaces with one s faith conscience psychology and zeitgeist An approachable introductory text to the issue of evil and how it interfaces with one s faith conscience psychology and zeitgeist Hide synopsis Adventures of an Accidental Sociologist Peter L. Berger, 2011-06-07 Peter L Berger is arguably the best known American sociologist living today Since the 1960s he has been publishing books on many facets of the American social scene and several are now considered classics So it may be hard to believe Professor Berger's description of himself as an accidental sociologist But that in fact accurately describes how he stumbled into sociology In this witty intellectually stimulating memoir Berger explains not only how he became a social scientist but the many adventures that this calling has led to Rather than writing an autobiography he focuses on the main intellectual issues that motivated his work and the various people and situations he encountered in the course of his career Full of memorable vignettes and colorful characters depicted in a lively narrative often laced with humor

Berger's memoir conveys the excitement that a study of social life can bring The first part of the book describes Berger's initiation into sociology through the New School for Social Research a European enclave in the midst of Greenwich Village bohemia Berger was first a student at the New School and later a young professor amidst a clique of like minded individuals There he published The Social Construction of Reality with colleague Thomas Luckmann one of his most successful books followed by The Sacred Canopy on the sociology of religion also still widely cited The book covers Berger's experience as a globe trekking sociologist including trips to Mexico where he studied approaches to Third World poverty to East Asia where he discovered the potential of capitalism to improve social conditions and to South Africa where he chaired an international study group on the future of post Apartheid society Berger then tells about his role as the director of a research center at Boston University For over two decades he and his colleagues have been tackling such important issues as globalization the secularization of Europe and the ongoing dialectic between relativism and fundamentalism in contemporary culture What comes across throughout is Berger's boundless curiosity with the many ways in which people interact in society This book offers longtime Berger readers as well as newcomers to sociology proof that the sociologist s attempt to explain the world is Transformation by Integration Perry Schmidt-Leukel, 2009 A number of people experience their own anything but boring spiritual lives as being inspired by more than one religious tradition This title looks at a number of issues involved what it means theologically to move beyond tolerance towards a genuine appreciation of other religions and how multi religious On the Scope and Truth of Theology Robert Cummings Neville, 2006-06-05 This is identity can be assessed theologically the first volume of Robert Cumming Neville's magnum opus Theology as Symbolic Engagement Neville is the premier American systematic theologian of our time His work is profoundly influenced by Paul Tillich Friedrich Schleiermacher and the American pragmatists John Dewey and Charles Sanders Pierce From Tillich he takes the notion of religion art and morality as symbol and the notion that religion is the substance of culture and culture the form of religion Thus theology is symbolic engagement with cultural forms and Neville explores the ways that such engagement occurs among various religious traditions One of the most important tasks in theology is to devise ways of testing correcting or affirming claims that we had been unable to question before This book will argue that system in theology is not merely correlating assertions but rather building perspectives from which we can render the various parts of theology vulnerable for assessment In fact one of the unique features of this book is its engagement with other religions Such dialogue has been a feature of Neville s work from the beginning Theology as Symbolic Engagement breaks the boundaries of systematic theology and moves away from the static character that characterizes such enterprises from Barth onward Instead Neville's book showcases the dynamic character of all theology The hallmark of this entire project is its effort to show theology to be hypothetical and to make it vulnerable to correction The Anthem Companion to Peter Berger Jonathan B. Imber, 2023-01-10 Peter L Berger 1929 2017 was among the most prominent sociologists of the past half century He co authored with Thomas

Luckmann The Social Construction of Reality considered to be a modern classic of social science His work on social theory the sociology of religion third world development and the role of capitalism in modern life define his enduring importance as a leading figure in social science Berger established an international reputation for his various studies of economic development in different parts of the world including Central America and South Africa Visions for the Church Paul M. Zulehner, 2018-04-01 Scepticism disappointment renunciation the situation of the church seems more volatile than ever Paul M Zulehner however is convinced that it is not the church that is in crisis but the changing times demand a reshaping In a run through the history of the Christian Church and Culture he shows that Christianity has often come to crossroads at which renewal and departure were necessary The key to rebirth he sees in powerful visions In the gospel and in art in poetry and myth he finds stimuli which encourage finding new pathways With this book Zulehner gives Christians incentives for a church committed to the future Meditating true to life and practical his vision calls for a resurrection of the church Live Today perhaps we have so much discontent in some parts of the worldwide church because we lack motivating visions Structures are indispensable for the incarnation of a vision in history But they are not a substitute for visions The present church reorganisation concerns more structures than visions We speak more about money than God Of course Churches have to make structural adjustments And only if these are done the Churches start thinking about visions As Saarinen teaches we should look at things the other way round Sociology Anthony Giddens, Philip W.
