Writers 2008 Europa Publications, 2007-08-23 An invaluable source of information on the personalities and organizations of the literary world **"Wilderness Into Civilized Shapes"** Laura Wright, 2010 This study examines how postcolonial landscapes and environmental issues are represented in fiction Wright creates a provocative discourse in which the fields of postcolonial theory and ecocriticism are brought together Laura Wright explores the changes brought by colonialism and

globalization as depicted in an array of international works of fiction in four thematically arranged chapters She looks first at two traditional oral histories retold in modern novels Zakes Mda's *The Heart of Redness* South Africa and Ngugi wa Thiong'o's *Petals of Blood* Kenya that deal with the potentially devastating effects of development particularly through deforestation and the replacement of native flora with European varieties Wright then uses J M Coetzee's *Disgrace* South Africa Yann Martel's *Life of Pi* India and Canada and Joy Williams's *The Quick and the Dead* United States to explore the use of animals as metaphors for subjugated groups of individuals The third chapter deals with India's water crisis via Arundhati Roy's activism and her novel *The God of Small Things* Finally Wright looks at three novels Flora Nwapa's *Efuru* Nigeria Keri Hulme's *The Bone People* New Zealand and Sindiwe Magona's *Mother to Mother* South Africa that depict women's relationships to the land from which they have been dispossessed Throughout *Wilderness into Civilized Shapes* Wright rearticulates questions about the role of the writer of fiction as environmental activist and spokesperson the connections between animal ethics and environmental responsibility and the potential perpetuation of a neocolonial framework founded on western commodification and resource based imperialism

Beyond Alterity: Contemporary Indian Fiction and the Neoliberal Script Shakti Jaising, 2023-09-15 *Beyond Alterity* contests a core tendency in postcolonial studies as well as emerging critiques of neoliberalism to assume that nations of the Global South are categorically distinct from their counterparts in the North and

that they provide an alternative or even an antidote to the competitive and individualistic cultures of the advanced capitalist world Through a textured analysis of cultural production from contemporary India Shakti Jaising argues that neoliberal capitalism has produced significant continuities in class dynamics and subjective experience across the North South divide continuities that are at least as worthy of our consideration as differences arising from colonialism and its aftereffects The book engages an array of political economic and cultural narratives while focusing in particular on widely circulating Indian English language novels and their audio visual adaptations that demonstrate the growing currency of a neoliberal script extolling values like privatization and deregulation as conduits to both individual growth and national development as well as freedom from poverty With their potent enactments of personal and national maturation contemporary Indian novels and films offer striking illustrations of the imaginative means by which the neoliberal script proliferates even as economic precarity and inequality worsen in India much like elsewhere in the world Whereas literary scholars tend to approach the Indian English novel as an exemplar of resistance from the formerly colonized world Beyond Alterity contends that far from inevitably modelling resistance this genre s contemporary examples instead encapsulate the challenges of disentangling literature from the all pervasive logics and narratives of neoliberal capitalism Thomas Keneally's Career and the Literary Machine Paul Sharrad,2019-08-30 Booker Prize winner and Living National Treasure Thomas Keneally still divides critical opinion he is both a morally challenging stylist and a commercial hack a wise commentator on society and a garrulous leprechaun Such judgements are located in the cultural politics of Australia but also linked to ideas about what a literary career should look like Thomas Keneally s Career and the Literary Machine charts Keneally s production and reception across his three major markets noting clashes between national interests and international reach continuity of themes and variety of topics settings and genres the writer s interests and the publishers push to create a brand celebrity fame and literary reputation and the tussle around fiction history allegory and the middlebrow Keneally is seen as playing a long game across several events rather than honing one specialist skill a strategy that has sustained for more than 50 years his ambition to earn a living from writing **Shorties** Engelbert Thaler,2016-08-15 Short narrative texts are good for the language classroom because they are short and narrative Therefore this volume treats the teaching potential of Shorties on a theoretical level part A a methodological level part B and a practical level part C Part A highlights the topic from the perspectives of different academic disciplines in this case from a TEFL as well as from a linguistic and literary viewpoint In part B methodological contributions on selected texts media and procedures are assembled Part C is a collection of concrete sample lessons for teaching English at various levels These lesson plans have been designed at university carried out and evaluated by 11 experienced teachers and finally revised by the editor *International Who's Who in Poetry 2004* Europa Publications,2003 Provides up to date profiles on the careers of leading and emerging poets 2007 Comic Book Checklist and Price Guide Maggie Thompson,Brent Frankenhoff,Peter Bickford,John Jackson,2006-11-07 More than 2000 photos and

individual listings for 125 000 comics Sword & Salve Peter J. Hoffman, Thomas G. Weiss, 2006-03-03 Arguing forcefully that changing times are a clarion call for new thinking this book convincingly shows that if humanitarian organizations continue to operate as they have in the past they will fail to help the very victims whom they try to save Focusing especially on the emergence of new wars Hoffman and Weiss insist that humanitarian organizations must recognize that they live in a political world and that their actions and goals are invariably affected by military action The brand of warfare that erupted in the 1990s marked by civil or transnational armed conflicts featuring potent non state actors altered political economies a high proportion of civilian casualties and a globalized media produced horrors that shocked consciences and led humanitarian agencies to question their unyielding stance of neutrality and impartiality Indeed in a departure from earlier norms and practices some have reinvented their policies and tools and created new humanitarianisms This authoritative book traces the evolution of the international humanitarian system from its inception in the 1860s parses the dynamics of war and emergency response from the 1980s through the current disasters in Afghanistan and Iraq and provides a strategic roadmap for practitioners By bringing historical perspective to bear this volume provides an invaluable analytical framework for grasping the nature of humanitarian crises and how agencies can respond strategically rather than reactively to change Students will find its blend of clearly presented theory and case studies a powerful tool for understanding the roles of state and non state actors in international relations By charting the tides of continuity and change this book will prepare agencies to dodge both figurative and actual bullets that threaten humanitarian action at the outset of the millennium Defending Frequently Challenged Young Adult Books Pat R.
