Police Selection and Training J.C. Yuille,2012-12-06 The New Police Officer During the past twenty years the tasks required of police officers have expanded and changed with dramatic rapidity The traditional roles of the police had been those of law enforcement and the maintenance of public order As a consequence police officers were typically large bodied males selected for their physical abilities and trained to accept orders and enforce the law Over the past two decades however the industrialized nations have placed a variety of new demands on police officers To traditional law enforcement and public order tasks have been added social work mental health duties and community relations work For example domestic disputes violence between husbands and wives lovers relatives etc have increased in frequency and severity or at least there has been a dramatic increase in reporting the occurrence of domestic violence Our societies have no formal system to deal with domestic disputes and the responsibility to do so in most countries has fallen to the police In fact in some areas as many as 607 of calls for service to the police are related to domestic disputes see the chapter in this text by Dutton As a result the police officer has had to become a skilled social worker able to intervene with sensitivity in domestic situations Alternatively in the case of West Germany the officer has had to learn to work cooperatively with social workers see the chapter by Steinhilper

The Affective Dimension in Second Language Acquisition Danuta Gabryś-Barker,Joanna Bielska,2013-05-03 Affectivity is at the core of everything we do in life Thus its development is also central to learning acquisition and is important for educational contexts The studies presented in this volume consider the different contexts of language learning and examine different types of participants in this process Most of them look at a formal instruction context while others look beyond the classroom and even report on the author's own affectivity and its involvement in learning experiences Affectivity is discussed here in relation to learners but also to teachers in their own professional contexts of teaching foreign languages In the majority of cases affectivity is explored in the case of bilinguals but there are also articles which focus on multilingual language users and their affectivity as an evolving factor

Advancing Your Career Beverly Rokes,2002 This book enhances the reader's opportunity for career success by targeting fundamental skills Advancing Your Career provides solid information for those looking to advance their careers and or contribute to the growth of their companies Covering topics such as managing conflict decision making and problem solving and networking and mentoring this is the perfect reference for those currently in the workforce as well as for those learning about and preparing to enter the workforce

Understanding Passion Hermundur Sigmundsson,Magdalena Elnes,2024-08-05 This book explores the concept of Passion as a strong motivational force that can increase well being and quality of life The authors

focus on the importance of having passion in various areas of life to increase well being life satisfaction and promote meaning in life They go on to present how we can find and increase passion supported by various psychological theories and research Finally the authors connect passion to expertise They argue that it is essential to maintain passion during the process that leads to expertise which is characterized as a long and demanding process that can be associated with negative consequences
