Privat Deschanel,1872 El alma sabe Dra. Viviana Zenteno, Las respuestas a los conflictos e inquietudes que vivimos como seres humanos están en el alma porque nadie sabe más de nosotros mismos Si el alma puede todo esto si es tanto lo que sabe por qué su sabiduría no suele estar a nuestra disposición Simplemente porque hemos olvidado su cuidado porque hemos dado la prioridad a la experiencia material relegando nuestra esencia al último lugar La doctora Viviana Zenteno ha dedicado su especialidad médica a profundizar en las etapas que el ser humano pudo haber vivido antes de nacer Mediante regresiones contacta con las vidas pasadas que cada persona lleva consigo como una mochila de virtudes y defectos que le condicionan su psique y emocionalidad Este libro constituye un manual para el

La búsqueda de sentido* Vicente Lozano Díaz,2022-08-05 Para el individuo que hace filosofía conocer un hecho es comprenderlo Se trate de una roca de un rayo de la vida de una persona o de un fenómeno social pregunta qué es y por qué Y al hacer estas preguntas no se enfrenta al hecho de un modo meramente intelectual como si fuese un problema externo que no le afecta y al que tiene que hallarle una explicación o una solución sino que lo integra en su propia vivencia de sujeto e intenta comprenderlo como parte de esa totalidad de la que también forma parte y en la que transcurre su propia vida Realidad ante la cual solo puede buscar algunas respuestas alguna manera de orientarse y de tranquilizar su propia inquietud Intentos de comprensión de la realidad que a su vez han contribuido a los intentos de comprensión posteriores incluyendo a los que se producen en nuestro presente de la misma manera que nuestros intentos de comprensión contribuyen a todos lo que se realicen en el futuro Es por este motivo por el que no puede sorprendernos el hecho de que las discusiones que se produjeron en la Grecia clásica entre los sofistas y los naturalistas como Sócrates o Platón se parezcan tanto a las discusiones actuales entre los que afirman la inevitable relatividad de todo lo que se produce o sucede y los partidarios de la

posibilidad de encontrar un sentido ltimo o fundamental a la realidad en la que nos encontramos y a nuestra existencia
