Solidarities Beyond Borders Pascale Dufour, Dominique Masson, Dominique Caouette, 2010-08-01 Scholars of social movements tend to overlook the achievements and political significance of women s movements Through theoretical discussions and empirical examples Solidarities Beyond Borders demonstrates the creativity and dynamism of transnational

women's movements around the world. These timely case studies from North America, Latin America and Southeast Asia introduce feminists, activists and scholars to the benefits and challenges of building relationships, dialogues and perspectives that extend beyond the boundaries of nation states and disciplines. The contributors open a dialogue between feminist theorists and scholars of social movements in other disciplines in order to foster mutual recognition of common interests and identities. Although feminists and women's groups face challenges as they build solidarities beyond borders, this book makes the case that these links can be extended to embrace other progressive movements and their goals. *Festivals as*

*Reparative Gender Politics* Zorica Siročić, 2023-08-18. What explains the popularity and widespread appeal of numerous post-Yugoslav feminist and LGBTQ festivals in the last decade? This book argues that the millennial generation expresses reparative politics as a distinct type of activism through festivals. Reparative political acting, as identified here, characteristically relies on playfulness and creativity, interpretative gender dissent, acceptance of organizational and programmatic messiness and hybridity, belonging and positive affect. The reparative politics is vital in a context that is marked by an individual and collective trauma of heteropatriarchy, violent breakdown of the common state and post-transitional economic precarity. The book uses excerpts from programs, interviews and observations collected through the multi-sited ethnographic research. Siročić's focus on contemporary activism in Southeastern Europe challenges the narrow geopolitical understanding of the recent feminist politics and refutes the common assumptions of a passive millennial generation. Yet the book's relevance surpasses its area of study as it argues against the popular deriding of activist expressions as the merely cultural or merely aesthetic engagement. In contrast, the book claims that such activities urge a redefined understanding of political agency. *Festivals as Reparative Politics* demonstrates that contemporary feminist festivals represent a distinct reformulation of contentious politics of gender whose constitutive principles can be exemplary for other types of political engagements. *Anarchy in Athens* Nicholas Apoifis, 2016-11-11. The battles between Athenian anarchists and the Greek state have received a high degree of media attention recently. But away from the intensity of street protests, militants implement anarchist practices whose outcomes are far less visible. They feed the hungry and poor, protect migrants from fascist beatings and try to carve out an autonomous political, social and cultural space. Activists within the movement share politics centred on hostility to the capitalist state and all forms of domination, hierarchy and discrimination. Based on extensive ethnographic fieldwork among Athenian anarchists and anti-authoritarians, *Anarchy in Athens* unravels the internal complexities within this milieu and provides a better understanding of the forces that give the space its shape.

Gramsci is Dead Richard J. F. Day, 2005-09-20. Inspired to contribute to the symbiotic relationship between the academic and activist worlds, Day has decided to pick up the pen instead of the Molotov cocktail. The result is this brilliant book. Ann Hansen: Ann was sentenced to life imprisonment for blowing up a cruise missile component factory and is the author of *Direct Action: The Memoirs of an Urban Guerilla*. If revolutionary politics are to be reconstituted for the twenty-first century, all

previously existing radical traditions must not only be remade but placed in new relationships with one another The anarchism of Richard Day s brilliant Gramsci is Dead is not only an explosive break out from the demoralizing horizons of contemporary social democracy but also an exuberant intellectual dance invitation extended to all mutant Marxists autonomists and species being activists eager to catch the strains of a new tune Red Emma would be proud Nick Dyer Witheford Associate Professor University of Western Ontario and author of Cyber Marx 1999 Gramsci and the concept of hegemony cast a long shadow over radical political theory Yet how far has this theory got us Is it still central to feminism anti capitalism anti racism anarchism and other radical social movements today Unlike previous revolutionary movements Day argues most contemporary radical social movements do not strive to take control of the state Instead they attempt to develop new forms of self organisation that can run in parallel with or as alternatives to existing forms of social political and economic organization This is to say that they follow a logic of affinity rather than one of hegemony This book draws together a variety of different strands in political theory to weave together an innovative new approach to politics today Rigorous and wide ranging Day introduces and interrogates key concepts From Hegel s concept of recognition through theories of hegemony and affinity to Hardt and Negri s reflections on Empire Day maps academia s theoretical and philosophical concerns onto today s politics of the street Ideal for all students of political theory Day s fresh approach combines Marxist Anarchist and Post structuralist theory to shed new light on the politics and practice of contemporary social movements

**Veganism, Archives, and Animals** Catherine Oliver, 2021-08-12 This book explores the growing significance of veganism It brings together important theoretical and empirical insights to offer a historical and contemporary analysis of veganism and our future co existence with other animals Bringing together key concepts from geography critical animal studies and feminist theory this book critically addresses veganism as both a subject of study and a spatial approach to the self society and everyday life The book draws upon empirical research through archival research interviews with vegans in Britain and a multispecies ethnography with chickens It argues that the field of beyond human geographies needs to more seriously take into account veganism as a rising socio political force and in academic theory This book provides a unique and timely contribution to debates within animal studies and more than human geographies providing novel insights into the complexities of caring beyond the human This book will appeal to students and scholars interested in geography sociology animal studies food studies and consumption and those researching veganism [Black flags and social movements](#) Dana M. Williams, 2017-11-17 Anarchism may be the most misunderstood political ideology of the modern era and one of the least studied social movements by English speaking scholars Black flags and social movements addresses this deficit with an in depth analysis of contemporary anarchist movements as interpreted by social movement theories and political sociology Using unique data gathered by anarchists themselves Williams presents longitudinal and international analyses that focus upon who anarchists are and where they may be found Social movement ideas including political opportunity new social

movements and social capital theory are relevant and adaptable to understanding anarchist movements. Due to their sometimes limited numbers and identities as radical anti-authoritarians, anarchists often find themselves collaborating with numerous other social movements, bringing along their values, ideas, and tactics.

**Resisting Racial Capitalism** Ida Danewid, 2023-11-30

What does freedom mean without and despite the state? Ida Danewid argues that state power is central to racial capitalism's violent regimes of extraction and accumulation. Tracing the global histories of four technologies of state violence—policing, bordering, wastelanding, and reproductive control—she excavates an antipolitical archive of anarchism that stretches from the favelas of Rio de Janeiro to the borderlands of Europe, the poisoned landscape of Ogoniland, and the queer lifeworlds of Delhi. Thinking with a rich set of scholars, organisers, and otherworldly dreamers, Danewid theorises these modes of refusal as a utopian worldmaking project which seeks not just better ways of being governed but an end to governance in its entirety. In a time where the state remains hegemonic across the Left-Right political spectrum, *Resisting Racial Capitalism* calls on us to dream bolder and better in order to un-build the world anew.
