Based on his personal papers and correspondence as well as extensive interviews with friends, family, and colleagues, the authors focus on three key aspects of Serkin's work, particularly as it unfolded in America: his art and career as a pianist, his activities as a pedagogue including his long association with the Curtis Institute in Philadelphia, and his key role in institutionalizing a redefinition of musical values in America through his work as artistic director of the Marlboro Music School and Festival in Vermont. A candid and colorful blend of narrative and interviews, it offers a probing look into the life and character of this very private man and powerful musical personality.

Psychology for Musicians Robert H. Woody, 2022 In recent years, a psychological perspective has gained increasing acceptance in the education provided to musicians, teachers, performers, and creatives alike. Research in music psychology has revealed how musicians acquire the ability to convey emotional intentions as sounded music, how listeners perceive it as feelings and moods, and how this powerful process relates to social and cultural dynamics. Of course, people who identify as musicians have special interest in these matters. A well-cited volume ever since its initial publication in 2007, *Psychology for Musicians* is now brought up to date in a second edition, particularly in expanding outside the exclusive context of Western formal academic settings. This new edition draws on insights from recent research in music psychology, combining academic rigor with accessibility to offer readers research-supported ideas that they can readily apply in their musical activities.

Take Five Minutes: Fascinating Facts and Stories for Reading and Critical Thinking Ruth Foster, 2001-06 Features reproducible intellectually stimulating activities that promote learning, reinforce what has been covered, spark students' interest, and takes only a few minutes to use. **Yo-Yo Ma** Myra Weatherly, 2007 This book recounts the life of Yo-Yo Ma, musician who at age fifteen began a career as a solo cellist with the world's major orchestras and became a musical educator and ambassador. Along the way, they let you know what questions to ask and why. This is the place to find practical, friendly, and knowledgeable advice about marching band, orchestra, and recitals, even the possibility of a musical career. With a thorough list of resources and a glossary, this guide will help you encourage your child to channel that joyful ruckus into beautiful music.
