Quislingkyrkan Nasjonal Samlings Kyrkopolitik 1940-1945:

Welfare and Religion in 21st Century Europe Anders Bäckström, Grace Davie, Ninna Edgardh, Per Pettersson, 2023-04-21

Historically European churches have played a large part in the provision of welfare. Responsibility however has gradually shifted to the state, a shift that forms an integral part of the process of secularization and one that has been readily accepted by European populations. But what happens when the state itself begins to recede, a process that is occurring in most if not all European societies for a wide variety of reasons? The implications for welfare are considerable, not least for the role of the churches which begin to resume the responsibilities previously shed but in new and different ways. This book looks at the connections between religion and welfare in Europe, exploring in detail eight European societies: Finland, Norway, Sweden, England, Germany, France, Italy, and Greece. The different theological traditions, different church-state relationships, and different welfare regimes are all examined. The analysis is based on first-hand empirical research which considers not only the changing situation on the ground but attitudes towards this within a range of different constituencies: the churches, local government, and the general public. Particular attention is paid to the significance of gender in both the process of change and in attitudes towards this. *Welfare and Religion in 21st Century Europe* Volume 1 represents comparative research at its best and highlights key policy implications for the future. A companion book *Welfare and Religion in 21st Century Europe* Volume 2 explores thematically the changing nature of religion and welfare and the new relationships that are emerging between the religious and the secular and between church and state in the 21st century.

Sweden's Relations with Nazism, Nazi Germany, and the Holocaust Stig Ekman, Klas Åmark, John Toler, 2003. The Committee for Humanities and the Social Sciences at the Research Council has been commissioned by the government to carry out a program of research into Sweden's relations with Nazism, Nazi Germany, and the Holocaust. A part of this commission was to produce a survey of the research field. This survey was organized around the three key concepts of the title of the research program, with chapters on Sweden and the Holocaust. A special chapter on Sweden's economic relations to Nazi Germany was added, as well as a bibliography. The survey gives both a picture of a broad research in the field with ongoing debates in a number of areas but also of significant gaps where research still is lacking. The survey presents an internationally unique presentation of the state of research in a much debated and controversial field.
