Quit Young New Age Retirement For The Boomer Generation:

Quit Young! Richard Stewart,2003-01-01 *THE AGEING OF GREAT BRITAIN* Martin Slattery,2019-11-19 Great Britain is ageing but doesn't seem to know it Despite numerous warnings from official reports the Government has ignored or neglected the car crashes ahead Our Health the potential for a New Age manifesto that might propel Ageing up the political agenda create a new Intergenerational Social Contract and force the government to plan ahead for the 100 Year Life now facing over a third of all children born today If the Japanese the Scandinavians and the Bolivians can do it why not Great Britain We owe that to our children and to the generations ahead Welcome to the Ageing World of the 21st Century **After the Baby Boomers** Robert Wuthnow,2010-02-22 Much has been written about the profound impact the post World War II baby boomers had on American religion But the lifestyles and beliefs of the generation that has followed and the influence these younger Americans in their twenties and thirties are having on the face of religion are not so well understood It is this next wave of post boomers that Robert Wuthnow examines in this illuminating book What are their churchgoing habits and spiritual interests and needs How does their faith affect their families their communities and their politics Interpreting new evidence from scores of in depth interviews and surveys Wuthnow reveals a generation of younger adults who unlike the baby boomers that preceded them are taking their time establishing themselves in careers getting married starting families of their own and settling down resulting in an estimated six million fewer regular churchgoers He shows how the recent growth in evangelicalism is tapering off and traces how biblical literalism while still popular is becoming less dogmatic and more preoccupied with practical guidance At the same time Wuthnow explains how conflicts between religious liberals and conservatives continue including among new immigrant groups such as Hispanics and Asians and how in the absence of institutional support many post boomers have taken a more individualistic improvised approach to spirituality Wuthnow's fascinating analysis also explores the impacts of the Internet and so called virtual churches and the appeal of megachurches After the Baby Boomers offers us a tantalizing look at the future of American religion for decades to come **Strategies for Improving Miners' Training** ,2002 **Baby Boomers and Their Parents** George P. Moschis,Anil Mathur,2007 Lots of marketers paint a rosy picture of the lifestyle of baby boomers as they enter the retirement years But authors Moschis and Mathur basing their findings on 20 years of surveys among baby boomers and their parents tell it like it is Many baby boomers have saved little money for retirement their health is worse than that of their parents and while both generations say travel is in their futures many will not have money enough to rent a budget motel a few miles from home But the picture is not all bleak Moschis and Mathur use their findings to discuss how people can live longer more satisfying lives In addition they apply those findings to marketing and advertising advising businesses how to use the attitudes and mindsets of mature consumers to create products and services for them as well as to make those products and services more appealing to older customers Ageless Nation Michael G. Zey,2017-07-05 In this intriguing volume futurist and author Michael G Zey

imagines a time in which technology has stretched human life spans to four hundred years or more Genetic engineering cloning and stem cell technology will eradicate diseases and allow for nanoscopic repair and maintenance of the body Smart drugs and caloric restriction programs will largely stop aging and ensure healthy bodies and sharp minds indefinitely Grounding his speculation in contemporary scientific research Zey's optimistic vision sees retirement replaced by hiatuses between careers and leisure time spent in multi generational homes Key players in the debate include supporters like Cambridge University scientist Aubrey de Grey who envisions five thousand year life spans and the radical futurist author Ray Kurzweil who foresees the merging of humans and computers Organizations such as the Coalition to Extend Life lobby the government for immortality research funding and find opposition in the President's Council on Bioethics and deep ecologists advocating zero population growth Criticizing current environmental trends as anti progress and anti human Zey's own solutions include controversial measures like human control of weather colonization of outer space and genetically modifying food He concludes that the eventuality of a modern Fountain of Youth is closer than we think Zey's predictions about the future are thoughtful and fascinating

The New Sociology of Ageing Martin Slattery, 2021-11-29 The New Sociology of Ageing explores the challenges and opportunities of ageing as a global force Alongside globalisation urbanisation new technology climate change and global pandemics ageing is transforming life in the twenty first century Through the eyes of a young sociology student and her multigenerational family this book sets out a new sociological framework to interpret ageing societies It explores how the New Old the baby boomer generation might be mobilised as an agency of social change in transforming later life It proposes this generation as the co architects of a new intergenerational social contract for the era ahead rather than as the recipients of a post war twentieth century social contract that society can no longer support Taking Britain as a case study and societies across the world as examples Slattery explores emerging revolutions in work and retirement potential crises in pensions healthcare and housing as well as transformations in family life and in our attitudes to sex and death in later life This book provides a clear overview of the sociology of ageing It introduces students to demography as a sociological force of the future and to the perils and the promises of longevity as societies across the world approach the Hundred Year Life This book will be of interest to undergraduate students and early scholars in the social sciences particularly in sociology gerontology social policy and public health
