**Quoting Caravaggio** Mieke Bal, 2001-03 The author's primary object of investigation in this text is not the Caravaggio but rather the issue of temporality in art She analyzes the productive relationship between Caravaggio and a number of late 20th century artists who quote the baroque master in their own works

*Reception History and Biblical Studies* Emma England, William John Lyons, 2015-05-21 How do we begin to carry out such a vast task the examination of three millennia of diverse uses and influences of the biblical texts Where can the interested scholar find information on methods and techniques applicable to the many and varied ways in which these have happened Through a series of examples of reception history practitioners at work and of their reflections this volume sets the agenda for biblical reception as it begins to chart the near infinite series of complex interpretive events that have been generated by the journey of the biblical texts down through the centuries The chapters consider aspects as diverse as political and economic factors cultural location the discipline of Biblical Studies and the impact of scholarly preconceptions upon reception history Topics covered include biblical figures and concepts contemporary music paintings children's Bibles and interpreters as diverse as Calvin Lenin and Nick Cave

**Artistic Reconfigurations of Rome** Kaspar Thormod, 2019-04-09 In *Artistic Reconfigurations of Rome* Kaspar Thormod examines how visions of Rome manifest themselves in artworks produced by international artists who have stayed at the city's foreign academies Structured as an alternative guide to Rome the book represents an interdisciplinary approach to creating a dynamic visual history that brings into view facets of the city's diverse contemporary character Thormod demonstrates that when artists successfully reconfigure Rome they provide us with visions that being anchored in a present undermine the connotations of permanence and immovability that cling to the Eternal City epithet Looking at the work of these artists the reader is invited to engage critically with the question what is Rome today or perhaps better what can Rome be

*The Fascist Turn in the Dance of Serge Lifar* Mark Franko, 2020-06-19 Ukrainian dancer and choreographer Serge Lifar 1905-86 is recognized both as the modernizer of French ballet in the twentieth century and as the keeper of the flame of the classical tradition upon which the glory of French ballet was founded Having migrated to France from Russia in 1923 to join Diaghilev's Ballets Russes Lifar was appointed star dancer and ballet

director at the Paris Opéra in 1930. Despite being rather unpopular with the French press at the start of his appointment, Lifar came to dominate the Parisian dance scene through his publications as well as his dancing and choreography until the end of the Second World War, reaching the height of his fame under the German occupation of Paris 1940-44. Rumors of his collaborationism having remained inconclusive throughout the postwar era, Lifar retired in 1958. This book not only reassesses Lifar's career both aesthetically and politically but also provides a broader reevaluation of the situation of dance, specifically balletic neoclassicism, in the first half of the twentieth century. *The Fascist Turn in the Dance of Serge Lifar* is the first book not only to discuss the resistance to Lifar in the French press at the start of his much mythologized career but also the first to present substantial evidence of Lifar's collaborationism and relate it to his artistic profile during the preceding decade. In examining the political significance of the critical discussion of Lifar's body and technique, author Mark Franko provides the ground upon which to understand the narcissistic and heroic images of Lifar in the 1930s as prefiguring the role he would play in the occupation. Through extensive archival research into unpublished documents of the era, police reports, the transcript of his postwar trial, and rarely cited newspaper columns, Lifar wrote Franko reconstructs the dancer's political activities, political convictions, and political ambitions during the Occupation. *The Art of Maria Tomasula* Soo Y.

Kang, 2022-11-15. Maria Tomasula's still life paintings are absolutely captivating, dramatizing luscious objects of saturated colors and meticulous details through the spotlight effect against a dark backdrop. Beyond their immediate appeal, however, the still lifes usually contain disturbing features such as flowers being sharply pierced by hooks and nails or isolated body parts such as bones and organs that seem to be fiercely alive. Although the pictures are materialistically appealing due to the illusionistic style of the artist, they lend themselves to a depth of iconography that has not been accounted for in previous writings on her art. This book is the first comprehensive monograph on Tomasula, b. 1958, unraveling her complex iconography that is founded on her Mexican American heritage and Catholicism but also tracing the European still life tradition. It shows that her paintings reflect her feminist and philosophical leanings influenced by various intellectuals including Baruch Spinoza, Gilles Deleuze, and the proponents of New Materialism. Her still life converges the old with new interests; it pays tribute to traditional Mexican and European motifs but also reflects ideas and mannerism that speak to the contemporary audience. This research evidences the complexity of the Mexican American experience which merges divergent cultural and ideological perspectives from Latin America, North America, and Europe in varied ways for different and unique individuals. *Mysticism in the French Tradition* Louise Nelstrop, Bradley B. Onishi, 2016-03-09. In the nineteenth and early twentieth centuries, secular French scholars started re-engaging with religious ideas, particularly mystical ones. *Mysticism in the French Tradition* introduces key philosophical undercurrents and trajectories in French thought that underpin and arise from this engagement, as well as considering earlier French contributions to the development of mysticism. Filling a gap in the literature, the book offers critical reflections on French scholarship in terms of its engagement with its mystical and apophatic dimensions. A

multiplicity of factors converge to shape these encounters with mystical theology feminist devotional and philosophical treatments as well as literary historical and artistic approaches The essays draw these into conversation Bringing together an international and interdisciplinary range of contributions from both new and established scholars this book provides access to the melting pot out of which the mystical tradition in France erupted in the twenty first century and from which it continues to challenge theology today Natural History Dioramas Sue Dale Tunnicliffe,Annette Scheerso,2014-12-05 This book brings together in a unique perspective aspects of natural history dioramas their history construction and rationale interpretation and educational importance from a number of different countries from the west coast of the USA across Europe to China It describes the journey of dioramas from their inception through development to visions of their future A complementary journey is that of visitors and their individual sense making and construction of their understanding from their own starting points often interacting with others e g teachers peers parents as well as media e g labels Dioramas have been hitherto a rather neglected area of museum exhibits but a renaissance is beginning for them and their educational importance in contributing to people s understanding of the natural world This volume showcases how dioramas can reach a wide audience and increase access to biological knowledge Visual Studies James Elkins,2013-09-13 In his latest book James Elkins offers a road map through the field of visual studies describing its major concerns and its principal theoretical sources Then with the skill and insight that have marked his successful books on art and visibility Elkins takes the reader down a side road where visual studies can become a more interesting place Why look only at the same handful of theorists Why exclude from one s field of vision non Western art or the wealth of scientific images **The Persistence of Melancholia in Arts and Culture** Andrea Bubenik,2019-07-04 This book explores the history and continuing relevance of melancholia as an amorphous but richly suggestive theme in literature music and visual culture as well as philosophy and the history of ideas Inspired by Albrecht Dürer s engraving Melencolia I 1514 the first visual representation of artistic melancholy this volume brings together contributions by scholars from a variety of disciplines Topics include Melencolia I and its reception how melancholia inhabits landscapes soundscapes figures and objects melancholia in medical and psychological contexts how melancholia both enables and troubles artistic creation and Sigmund Freud s essay Mourning and Melancholia 1917 **Baroque Aesthetics in Contemporary American Horror** Gabriel Eljaiek-Rodríguez,2021-12-10 This book traces a trend that has emerged in recent years within the modern panorama of American horror film and television the concurrent and often overwhelming use of multiple stock characters themes and tropes taken from classics of the genre American Horror Story Insidious and The Conjuring are examples of a filmic tendency to address a series of topics and themes so vast that at first glance each taken separately would seem to suffice for individual films or shows This book explores this trend in its visible connections with American Horror but also with cultural and artistic movements from outside the US namely Baroque art and architecture Asian Horror and European Horror It analyzes how these hybrid products are constructed and

discusses the socio political issues that they raise The repeated and excessive barrage of images tropes and scenarios from distinct subgenres of iconic horror films come together to make up an aesthetic that is referred to in this book as Baroque Horror In many ways similar to the reactions provoked by the artistic movement of the same name that flourished in the XVII century these productions induce shock awe fear and surprise Eljaiek Rodr guez details how American directors and filmmakers construct these narratives using different and sometimes disparate elements that come together to function as a whole terrifying the audience through their frenetic accumulation of images tropes and plot twists The book also addresses some of the effects that these complex films and series have produced both in the panorama of contemporary horror as well as in how we understand politics in a divisive world that pushes for ideological homogenizations

**Theorising Performance** Bloomsbury Publishing, 2013-11-20 This exciting collection constitutes the first analysis of the modern performance of ancient Greek drama from a theoretical perspective The last three decades have seen a remarkable revival of the performance of ancient Greek drama some ancient plays Sophocles Oedipus Euripides and Medea have established a distinguished place in the international performance repertoire and attracted eminent directors including Peter Stein Ariane Mnouchkine Peter Sellars and Katie Mitchell Staging texts first written two and a half thousand years ago for all male ritualised outdoor performance in masks in front of a pagan audience raises quite different intellectual questions from staging any other canonical drama including Shakespeare But the discussion of this development in modern performance has until now received scant theoretical analysis This book provides the solution in the form of a lively interdisciplinary dialogue inspired by a conference held at the Archive of Performances of Greek Roman Drama APGRD in Oxford between sixteen experts in Classics Drama Music Cultural History and the world of

professional theatre The book will be of great interest to scholars and students of Classics and Drama alike A Realist Theory of Art History Ian Verstegen, 2013-01-03 As the theoretical alignments within academia shift this book introduces a surprising variety of realism to abolish the old positivist theory dichotomy that has haunted Art History Demanding frankly the referential detachment of the objects under study the book proposes a stratified multi causal account of art history that addresses postmodern concerns while saving it from its errors of self refutation Building from the very basic distinction between intransitive being and transitive knowing objects can be affirmed as real while our knowledge of them is held to be fallible Several focused chapters address basic problems while introducing philosophical reflection into art history These include basic ontological distinctions between society and culture general and special history the discontinuity of cultural objects the importance of definition for special history scales facets and fiat objects as forms of historical structure the nature of evidence and proof historical truth and controversies Stressing Critical Realism as the stratified multi causal approach needed for productive research today in the academy this book creates the subject of the ontology of art history and sets aside a theoretical space for metaphysical reflection thus clarifying the usually muddy distinction between theory methodology and historiography in art history *Museum Skepticism* David Carrier, 2006-05-31 DIV Prominent art historian looks at the birth of the art museum and contemplates its future as a public institution div A Companion to Museum Studies Sharon Macdonald, 2011-08-24 A Companion to Museum Studies captures the multidisciplinary approach to the study of the development roles and significance of museums in contemporary society Collects first rate original essays by leading figures from a range of disciplines and theoretical stances including anthropology art history history literature sociology cultural studies and museum studies Examines the complexity of the museum from cultural political curatorial historical and representational perspectives Covers traditional subjects such as space display buildings objects and collecting and more contemporary challenges such as visiting commerce community and experimental exhibition forms The Announcement Hana Gründler, Alessandro Nova, Itay Sapir, 2020-09-21 The Annunciation a specific event recounted in the Bible and often represented in artworks but also the prototype of many other announcements throughout the history of Western culture This volume proposes new readings of pictorial Annunciations from the Middle Ages and the Early Modern period treating aspects such as witnesses inscriptions and architecture as well as analyses of some visual echoes reenactments of the announcement to Mary in sacred and profane contexts up to the twenty first century Among the latter are included Venetian decoration glorifying the state a Jean Luc Godard film a video art piece by Eija Liisa Ahtila Lars von Trier s *Melancholia* and a saint s bedroom turned into a pilgrimage site
