Islamic Ethics of Life Jonathan E. Brockopp, 2021-02-09 2005 Choice Outstanding Academic Title A pioneering work on controversial issues within the Muslim world *Islamic Ethics of Life* considers three of the most contentious ethical issues of our time abortion war and euthanasia from the Muslim perspective Distinguished scholars of Islamic studies have collaborated to produce a volume that both integrates Muslim thinking into the field of applied ethics and introduces readers to an aspect of the religion long overlooked in the West This collective effort sets forth the relationship between Islamic ethics and law clearly revealing the complexity and richness of the Islamic tradition as well as its responsiveness to these controversial modern issues The contributors analyze classical sources and survey the modern ethical landscape to identify guiding principles within Islamic ethical thought Clarifying the importance of pragmatism in Islamic decision making the contributors also offer case studies related to specialized topics including wrongful birth claims terrorist attacks and brain death The case studies elicit possible variations on common Muslim perspectives The contributors situate Muslim ethics relative to Christian and secular accounts of the value of human life exposing surprising similarities and differences In an introductory overview of the volume Jonathan E Brockopp underscores the steady focus on God as the one who determines the value of human life and hence as the final arbiter of Islamic ethics A foreword by Gene Outka places the volume in the context of general ethical studies and an afterword by A Kevin Reinhart suggests some significant ramifications for comparative religious ethics

Morality in the Quran: The Greater Good of Humanity Muhammad Abdullah Draz, Muhammad Abdullah Draz 1894-1958 is often referred to as the teacher of the teachers and in a league of his own He is one of the most important Islamic and Azhari scholars of the past century and has made significant contributions to contemporary Islamic thought especially in the fields of Quranic and Maqasid objectives studies The original version of this book formed the doctoral dissertation *La Morale du Coran* which earned Muhammad Abdullah Draz a doctorate degree with the highest level of distinction at the Sorbonne Paris in 1947 The author's theory of morality presented in this book has not been matched in its originality integrity and depth either past or present Through a thematic interpretation of the Quran the author proposes the following five critical elements to morality obligation

responsibility sanction intent and effort Each element plays an indispensable role in the conscience of a believer The author postulates that every human possesses a light that enables them to determine good and evil on a fundamental level propelling them towards duty kindness and charity It is then asserted that the believer possesses a double light a deep knowledge that incorporates divine law into our very essence **Islamic Ethics** Abdulaziz Sachedina,2022-06-10 There have been two main traditions of writing on ethics in the Islamic tradition one philosophical and related to the works of Aristotle and other Greek philosophers represented by thinkers such as Avicenna and one theological represented by such figures as the famous theologian al Qadi Abd al Jabbar Some later scholars attempted to combine those two traditions For the most part however the views of the jurists have been ignored Abdulaziz Sachedina here calls attention to this third tradition of ethics which has its home in legal literature The problem is that Islamic jurists did not produce a genre of ethical manuals and their form of ethics which Sachedina terms juridical ethics must be derived or extracted from works that ostensibly treat legal rulings and obligations or scriptural hermeneutics and legal theory Presenting an outline of the version of Islamic ethics that is embedded in the textual legacy of the Islamic legal tradition he argues that this juridical ethics is an important even dominant form of ethics in modern Islam He notes that this form of ethics has been challenged by modernity and examines the variety of ways in which legal ethical thinkers have reacted How do Muslim religious leaders come to grips with modern demands of directing their communities to live as modern citizens of nation states What kind of moral and spiritual resources are being garnered by their scholars to respond to the new issues in sciences more immediately in medicine and constantly changing social relationships To answer these pressing questions it is necessary to go beyond the philosophical ethics of virtue and human character and acknowledge the importance of ethics to the formulation in Muslim interpretive jurisprudence of religious and moral decisions that are based on reason and revelation **The Moral World of the Qur'an** Muḥammad 'Abd Allāh Darāz,2008 This book analyzes for the first time in English the ethical theory that underpins Quranic legislation by providing a classification of specific verses in which Islam's holy book discusses moral issues It demonstrates the ways in which the Quran theoretically and practically provides the moral code to which Muslims around the world adhere The author divides his analysis into a survey of Quranic attitudes towards the basic ethical issues of obligation and responsibility issues of moral psychology such as motivation and intention as well as matters of social ethics such as the function of law in society He then explores the meanings of individual morality morality within the family and civil society and the relationship of morality to the idea of the state **Islamic Ethics** Mariam al-Attar,2010-04-05 This book explores philosophical ethics in Arabo Islamic thought Examining the meaning origin and development of Divine Command Theory it underscores the philosophical bases of religious fundamentalism that hinder social development and hamper dialogue between different cultures and nations Challenging traditional stereotypes of Islam the book refutes contemporary claims that Islam is a defining case of ethical voluntarism and that the prominent theory in Islamic ethical thought is Divine

Command Theory The author argues that in fact early Arab Islamic scholars articulated moral theories theories of value and theories of obligation She traces the development of Arabo Islamic ethics from the early Islamic theological and political debates between the Kharijites and the Murji ites shedding new light on the moral theory of Abd al Jabbar al Mu tazili and the effects of this moral theory on post Mu tazilite ethical thought Highlighting important aspects in the development of Islamic thought this book will appeal to students and scholars of Islamic moral thought and ethics Islamic law and religious fundamentalism

Muslim Medical Ethics Jonathan E. Brockopp, Thomas Eich, 2021-02-09 A timely exploration of balancing Islamic heritage with contemporary medical and health concerns Muslim Medical Ethics draws on the work of historians health care professionals theologians and social scientists to produce an interdisciplinary view of medical ethics in Muslim societies and of the impact of caring for Muslim patients in non Muslim societies Edited by Jonathan E Brockopp and Thomas Eich the volume challenges traditional presumptions of theory and practice to demonstrate the ways in which Muslims balance respect for their heritage with the health issues of a modern world Like members of many other faiths Muslims are deeply engaged by the technological challenges posed by modern biomedicine and they respond to those challenges with enormous creativity whether as patients doctors or religious scholars Muslim Medical Ethics demonstrates that religiously based cultural norms often inform medical practice and vice versa in an ongoing discourse The contributors map the breadth and boundaries of this discourse through discussions of contested issues on the cutting edge of ethical debates from fertilized embryos in Saudi Arabia to patient autonomy in Toronto from organ trafficking in Egypt to sterilization in Tanzania As the authors illustrate the effects of Muslim medical ethics have ramifications beyond the Muslim world With growing populations of Muslims in North America and Europe Western physicians and health care workers should be educated on the special needs of this category of patients In every essay the richness of the Islamic tradition is visible In the premodern period Muslim physicians were considered among the best in the world building and improving on Greek and Indian traditions Muslim physicians today continue that tradition while incorporating scientific advances Scholars of Islamic law work closely with physicians to develop ethical guidelines for national and international bodies and individual Muslims take full advantage of advances in medicine and religious law combining them with the wisdom of Sufism and traditions of family and community This exploration of Muslim medical ethics is therefore a foray into the richness and sophistication of the Islamic tradition itself Designed as an engaging point of entrance for students in religious studies anthropology ethics and medical humanities this pathbreaking volume also has utility for health care professionals and policy makers

Traditional Islamic Ethics: The Concept of Virtue and its Implications for Contemporary Human Rights Irfaan Jaffer, 2021-09-07 Traditional Islamic Ethics The Concept of Virtue and its Implications for Human Rights concentrates on the subject of Islam and modernity and Islam and human rights a topic that has become popular and relevant with the rise of globalization and the interest in Islamic extremism and human rights This book distinguishes itself by operating within the framework of the

traditional school of thought or Islamic Traditionalism In doing so it draws on Islam's 1400 year old spiritual and intellectual tradition and its understanding of ethics and virtue along with truth justice freedom and equality This book argues that Islam's pre modern approach is indispensable in creating an organic and integral human rights model for Muslims The first section argues that the current understanding and implementation of international human rights needs to be more flexible and inclusive if it truly aims to be universal in scope this is because The Universal Declaration and its offshoots are still underpinned by secular liberal principles and therefore are at odds with other cultural traditions To this end this section critically explores popular human rights histories and contemporary ethical theories that attempt to justify human rights The second section of this book provides a general overview on the subject of Islam and Human Rights After explaining some of the main problems this section examines various solutions offered by Muslim academics and scholars focusing on four different types of Muslim responses to modernity and human rights liberal progressive traditional and fundamentalist It concludes that there are spaces of convergence between modern liberal ethics and traditional Islamic virtue ethics while maintaining that there are also fundamental differences and that these differences should be welcomed by human rights theorists and advocates The book's intended audience is primarily post graduate students and professional academics in the fields of Human Rights Ethical Philosophy and Islamic Studies modern Islamic thought Sufism Islamic theology Islamic Philosophy and Traditionalism It will also appeal to anyone interested in the subject of Islam and modernity in general and Islam and human rights in particular

Gendered Morality Zahra Ayubi rethinks the tradition of Islamic philosophical ethics from a feminist critical perspective She calls for a philosophical turn in the study of gender in Islam based on resources for gender equality that are unlocked by feminist engagement with the Islamic ethical tradition Developing a lens for a feminist philosophy of Islam Ayubi analyzes constructions of masculinity femininity and gender relations in classic works of philosophical ethics In close readings of foundational texts by Abu Hamid Muhammad al Ghazali Nasir ad Din Tusi and Jalal ad Din Davani she interrogates how these thinkers conceive of the ethical human being as an elite male within a hierarchical cosmology built on the exclusion of women and nonelites Yet in the course of prescribing ethical behavior the ethicists speak of complex gendered and human relations that contradict their hierarchies Their metaphysical premises about the nature of the divine humanity and moral responsibility indicate a potential egalitarian core Gendered Morality offers a vital and disruptive new perspective on patriarchal Islamic ethics and metaphysics showing the ways in which the philosophical tradition can support the aims of gender justice and human flourishing
