Friedman, 2024-12-30 This volume seeks to correct a widespread fundamental misconception about Judaism Because the ultra Orthodox follow ancient Jewish traditions and strictly adhere to halakhah Jewish law it is

commonly believed that the repressive rigidly hierarchical norms and social institutions that characterize their communities represent authentic Judaism This view is profoundly mistaken Judaism s true values are only ascertainable from its canonical books and in the discourse of the rabbis who reinvented Judaism after the destruction of the Second Temple in 70 CE substituting prayer and textual study for temple sacrifice The rabbis legal debates biblical interpretations and fanciful stories are recorded in the Talmud and other classic sources and show that these religious leaders firmly reject dogmatism and embrace controversy dissent pluralism moral autonomy tolerance and when required by changing social conditions radical innovation The Hebrew Bible is itself rife with intertextual disputes regarding crucial theological questions that preclude pat answers regarding what Judaism says or means It seems that God has given us wide latitude to think for ourselves As argued in this study the Torah does not provide us with the ultimate truth but gives us the best and surest means of obtaining it
