Goulder and the Gospels Mark S. Goodacre, Mark Goodacre, 1996-12-01 Goulder and the Gospels is the first comprehensive response to the radical challenge Michael Goulder has posed for New Testament scholarship Goulder dispenses with all hypothetical sources Q M and L and postulates highly creative evangelists who write in the light of the liturgy In this penetrating critique Goodacre provides a critical overview of Goulder's work focusing on several key areas the vocabulary of Q the language of the Minor Agreements the creativity of Luke and the lectionary theory He does not simply assess the plausibility of Goulder's ideas but also develops new ways to test them The theories are sometimes found to be wanting but at the same time Goulder is reaffirmed as one of the most important and stimulating Biblical scholars of this generation

Imperial to International Stuart Wolfendale, 2013-04-01

Founded in 1849 St John's Cathedral is the oldest neogothic cathedral in East Asia and China's oldest surviving Anglican church still in operation. In its early decades it was a centre of colonial life in Hong Kong. More recently it has opened itself widely to other communities in Hong Kong becoming a truly international church with services held in several languages. Drawing on extensive archives and written in a lively style this first comprehensive history of St John's traces the cathedral's roles as a colonial parish church and as a bishop's seat for a diocese that once covered the whole of China and beyond. It also discusses St John's significance as a centre of worship for a modern cosmopolitan community.

Imperial to International is the first volume in the new series *Sheng Kung Hui Historical Studies of Anglican Christianity in China* co-published by the Hong Kong University Press and the Hong Kong Sheng Kung Hui.

The Oxford History of Anglicanism Anthony Milton, Jeremy Gregory, Rowan Strong, William L. Sachs, Jeremy Morris, 2017. *The Oxford History of Anglicanism* provides a global study of Anglicanism from the sixteenth century to the twenty-first. The five volumes in the series look at how Anglican identity was constructed and contested since the English Reformation of the sixteenth century and examine its historical influence during the past six centuries. They consider not only the ecclesiastical and theological aspects of global Anglicanism but also the political, social, economic and cultural influences of this form of Christianity that has been historically significant in Western culture and a burgeoning force in non-Western societies since the nineteenth century. Written by international experts in their various historical fields, each volume analyses the varieties of Anglicanism that have emerged. The series also highlights the formal, political, institutional and ecclesiastical forces that have shaped a global Anglicanism and the interaction of Anglicanism with informal and external influences which have both moulded Anglicanism and been fashioned by it. Volume five of *The Oxford History of Anglicanism* considers the global experience of the Church of England in mission and in the transitions of its mission churches towards autonomy in the twentieth century. The Church developed institutionally yet more than the institutional history of the Church of England and its spheres of influence is probed. The contributors focus on what it has meant to be Anglican in diverse contexts. What spread from England was not simply a religious institution but the religious tradition it intended to implant. The volume addresses questions of the conduct of mission, its intended and unintended consequences. It offers important insights on what decolonization meant for Anglicans as the mission church in various global locations became self-reliant. This study breaks new ground in describing the emergence of an Anglicanism shaped more contextually than externally. It illustrates how Anglicanism became enculturated across a broad swath of cultural contexts. The influence of context and the challenge of adaptation to it framed Anglicanism's twentieth-century experience.

Governors, Politics and the Colonial Office Gavin Ure, 2012-06-01. This book fleshes out the impact of political figures and how their actions and inactions affect various imperial or Hong Kong political and administrative affairs. The tendrils of Hong Kong's budding autonomy from the United Kingdom are identified and followed with attention paid to the various actors including observing which actors fade in importance and which ones seize more of the stage.

Keeping

Democracy at Bay Suzanne Pepper, 2008 This thoroughly researched study provides an invaluable account of Hong Kong's political evolution from its founding as a British colony to the present Exploring the interplay between colonial capitalist communist and democratic forces in shaping Hong Kong's political institutions and culture Suzanne Pepper offers a fresh perspective on the territory's development and a gripping account of the transition from British to Chinese rule The author carries her narrative forward through the lives of significant figures capturing the personalities and issues central to understanding Hong Kong's political history Bringing a balanced view to her often contentious subject she places Hong Kong's current partisan debates between democrats and their opponents within the context of China's ongoing search for a viable political form The book considers Beijing's increasing intervention in local affairs and focuses on the challenge for Hong Kong's democratic reformers in an environment where ultimate political power resides with the communist led mainland government and its appointees

Christian Encounters with Chinese Culture Philip L. Wickeri, 2015-05-01 Written by a team of internationally recognized scholars Christian Encounters with Chinese Culture focuses on a church tradition that has never been very large in China but that has had considerable social and

religious influence Themes of the book include questions of church society and education the Prayer Book in Chinese parish histories and theology Taken together the nine chapters and the introduction offer a comprehensive assessment of the Anglican experience in China and its missionary background Historical topics range from macro to micro levels beginning with an introductory overview of the Anglican and Episcopal tradition in China Topics include how the church became embedded in Chinese social and cultural life the many ways women s contributions to education built the foundations for strong parishes and Bishop R O Hall s attentiveness to culture for the life of the church in Hong Kong Two chapters explore how broader historical themes played out at the parish level St Peter s Church in Shanghai during the War against Japan and St Mary s Church in Hong Kong during its first three decades Chapters looking at the Chinese Prayer Book bring an innovative theological perspective to the discussion especially how the inability to produce a single prayer book affected the development of the Chinese church Finally the tension between theological thought and Chinese culture in the work of Francis C M Wei and T C Chao is examined This is one of the finest books on Christianity and Chinese culture to have emerged in recent years Philip Wickeri has done the almost impossible and assembled an outstanding world class team of scholars to write on Anglican and Episcopal history in China with essays focusing on education liturgy ministry ecclesiology and theology This is a timely important book and one that will re shape the way we understand the place of Anglican and Episcopal churches in the past present and future Martyn Percy dean of Christ Church Oxford UK This pioneering study provides new knowledge of local parishes translation of liturgy as well as mission and theology of Chung Hua Sheng Kung Hui Comprehensive in scope and original in using new resources it will stimulate new scholarship in the study of Christianity in China Kwok Pui lan author of Chinese Women and Christianity 1860 1927 The essays included in this important volume offer a refreshingly realistic image of the Christian missionary enterprise and its interaction with Chinese culture and society The contributors present new angles of interpretation with more informed and nuanced accounts of the complexities and contradictions that shaped the encounter of one particular strand of Western Christianity and Chinese culture during a turbulent century of change R G Tiedemann professor of Chinese history Shandong University China **East Wind** Tom Buchanan,2012-04-19 East Wind offers the first complete archive based account of the relationship between China and the British Left from the rise of modern Chinese nationalism to the death of Mao Tse tung Beginning with the Hands Off China movement of the mid 1920s Tom Buchanan charts the mobilisation of British opinion in defence of China against Japanese aggression 1931 1945 and the role of the British left in relations with the People s Republic of China after 1949 He shows how this relationship was placed under stress by the growing unpredictability of Communist China above all by the Sino Soviet dispute and the Cultural Revolution which meant that by the 1960s China was actively supported only by a dwindling group of enthusiasts The impact of the suppression of the student protests in Tiananmen Square June 1989 is addressed as an epilogue East Wind argues that the significance of the left s relationship with China has been unjustly overlooked There

were many occasions such as the mid 1920s the late 1930s and the early 1950s when China demanded the full attention of the British left It also argues that there is nothing new in the current fascination with China s emergence as an economic power Throughout these decades the British left was aware of the immense unrealised potential of the Chinese economy and of how China s economic growth could transform the world In addition to analysing the role of the political parties and pressure groups of the left Buchanan sheds new light on the activities of many well known figures in support of China including intellectuals such as Bertrand Russell R H Tawney and Joseph Needham Many other interesting stories emerge concerning less well known figures which show the complexity of personal links between Britain and China during the twentieth century

A History of Global Anglicanism Kevin Ward,2006-11-23 Anglicanism can be seen as irredeemably English In this book Kevin Ward questions that assumption He explores the character of the African Asian Oceanic Caribbean and Latin American churches which are now a majority in the world wide communion and shows how they are decisively shaping what it means to be Anglican While emphasising the importance of colonialism and neo colonialism for explaining the globalisation of Anglicanism Ward does not focus predominantly on the Churches of Britain and N America nor does he privilege the idea of Anglicanism as an expansion of English Christianity At a time when Anglicanism faces the danger of dissolution Ward explores the historically deep roots of non Western forms of Anglicanism and the importance of the diversity and flexibility which has so far enabled Anglicanism to develop cohesive yet multiform identities around the world The

many in the tumultuous 20th century China from the fall of the Qing Dynasty through the Cultural Revolution These leaders strove to align their Christian faith with the challenges of a nation in upheaval initially advocating a Liberal Synthesis that fused Christian ethics with national renewal As wars and revolutions swept across China figures like Wu Yaozong turned to socialism while others like Zhao and Cai embraced more conservative theological positions The rise of the CCP during the Chinese Civil War divided their paths yet all remained dedicated to a role of Christianity in China's future

War and Revolution in South China Edward J. M. Rhoads, 2021-09-10 In *War and Revolution in South China* Edward Rhoads recounts his childhood and early teenage years during the Sino Japanese War and the early postwar years Rhoads came from a biracial family His father was an American professor while his Chinese mother was a typist and stenographer In the late 1930s and the 1940s the Rhoads family lived through the turbulent years in southern China and Hong Kong The book follows Rhoads' childhood in Guangzhou his family's evacuation to Hong Kong his father's internment and repatriation to the United States and his and his mother's flight to Free China He recalls his reunion with family members in northern Guangdong Province in 1943 their retreat to China's wartime capital of Chongqing where his father worked for the American government and how they returned to Guangzhou after the war The Rhoads family then witnessed the socioeconomic recovery in the city and the regime change in 1949 The book ends with their departure from China to the United States in 1951 a year and a half after the Communist revolution The book fills an important gap in the scholarship by examining the impact of the Sino Japanese War in southern China from the perspective of one family Rhoads reveals that the war in this region while often neglected by scholars was in fact no less turbulent than it was in northern and central China He combines autobiography with serious historical research to reconstruct the lives of his family consulting a large number of archival documents private correspondence and scholarly literature to produce a rare study that is both scholarly and accessible This book is a very timely reminder that one should look at the experience of China during the Second Sino Japanese War and the Second World War from a regional perspective in order to understand the diverse historical experience of the people from different geographical ethnic cultural and social backgrounds Chi man Kwong Hong Kong Baptist University A pleasure to read and of compelling interest Edward Rhoads' book explores the more benign side of the foreign influence in modern China the introduction of modern educational institutions The intriguing lens through which we look is his biracial family their multiple flights across southern China as refugees escaping war and their eventual expulsion from China Stephen Davies The University of Hong Kong
