Movement in Renaissance Literature Kathryn Banks, Timothy Chesters, 2017-12-27 This book investigates how writers and readers of Renaissance literature deployed kinesic intelligence a combination of pre-reflective bodily response and reflective interpretation Through analyses of authors including Petrarch Rabelais and Shakespeare the book explores how embodied cognition historical context and literary style interact to generate and shape responses to texts It suggests that what was reborn in the Renaissance was partly a critical sense of the capacities and complexities of bodily movement The linguistic ingenuity of humanism set bodies in motion in complex and paradoxical ways Writers engaged anew with the embodied grounding of language prompting readers to deploy sensorimotor attunement Actors shaped their bodies according to kinesic intelligence molded by theatrical experience and skill provoking audiences to respond to their most subtle movements An approach grounded in kinesic intelligence enables us to re-examine metaphor rhetoric ethics gender and violence The book will appeal to scholars and students of English French and Italian Renaissance literature and to researchers in the cognitive humanities cognitive sciences and theatre studies

Laughter in the Middle Ages and Early Modern Times Albrecht Classen, 2010-09-22 Despite popular opinions of the dark Middle Ages and a gloomy early modern age many people laughed smiled giggled chuckled entertained and ridiculed each other This volume demonstrates how important laughter had been at times and how diverse the situations proved to be in which people laughed and this from late antiquity to the eighteenth century The contributions examine a wide gamut of significant cases of laughter in literary texts historical documents and art works where laughter determined the relationship among people In fact laughter emerges as a kaleidoscopic phenomenon reflecting divine joy bitter hatred and contempt satirical perspectives and parodic intentions In some examples protagonists laughed out of sheer happiness and delight in others because they felt anxiety and insecurity It is much more difficult to detect premodern sculptures of laughing figures but they also existed Laughter reflected a variety of concerns interests and intentions and the collective approach in this volume to laughter in the past opens many new windows to the history of mentality social and religious conditions gender relationships and power structures

Bakhtinian Explorations of Indian Culture Lakshmi Bandlamudi, E. V. Ramakrishnan, 2018-02-11 This volume an important contribution to dialogic and Bakhtin studies shows the natural fit between Bakhtin's ideas and the pluralistic culture of India to a global academic audience It is premised on the fact that long before principles of dialogism took shape in the Western world these ideas though not labelled as such were an integral part of intellectual histories in India Bakhtin's ideas and intellectual traditions of India stand under the same banner of plurality open endedness and diversity of languages and social speech types and therefore the affinity between the thinker and the culture seems natural Rather than being a mechanical import of Bakhtin's ideas it is an occasion to reclaim reactivate and reenergize inherent dialogicality in the Indian cultural historical and philosophical histories Bakhtin is not an incidental figure for he offers precise analytical tools to make sense of the incredibly complex differences at every level in the cultural life of India Indian heterodoxy lends well to a Bakhtinian reading and analysis and the papers herein attest to this The papers range from how ideas from Indo European philology reached Bakhtin through a circuitous route to responses to Bakhtin's thought on the carnival from the philosophical perspectives of Abhinavagupta to a Bakhtinian reading of literary texts from India The volume also includes an essay on translation as dialogue an issue central to multilingual cultures and on inherent dialogicality in the long intellectual traditions in India
