Morrison, 1994 **The Two Reformations in the 16th Century** H.A. Enno Gelder, 2012-12-06 This book deals with the religious aspects and consequences of the Renaissance and Humanism It is therefore advisable that these terms should first be defined to some extent By Renaissance is meant here the new element in Western European culture which became more and more evident in Italy during the 15th century and in about 1500 completely dominated the great minds in that country In

the 16th century this new element was carried to the countries on the other side of the Alps where it developed vigorously during that century The new element in that culture is found in the plastic arts literature philosophy and also and this is the subject of the present study in a modified religious attitude The following chapters will show the content of this last change Problems such as what in general characterizes the Renaissance by what was it caused when did it begin and in particular whether the Renaissance forms a sharp contrast to the Middle Ages or whether it is a direct continuation of it will not be discussed here It will be clear from the above definition that I have placed first and foremost those things in the Renaissance which distinguish it from the Middle Ages

The Design of Rabelais's Edwin M. Duval, 1997 En analysant le dessin du Tiers Livre sa composition formelle aussi bien que son intention sous-jacente E Duval dégage la cohérence profonde d'une œuvre qui passe le plus souvent pour ambigu et minipenne Cette cohérence qui se

manifeste simultanément deux niveaux celui du dessin de Pantagruel dans la quete celui du dessin de Rabelais dans son livre permet l'auteur non seulement de résoudre plusieurs apories de la critique rabelaisienne mais de découvrir dans le Tiers Livre des dimensions et des ironies inaperçues jusqu'à présent
