constituted a force capable of dismantling the imperial machinations of colour Colour thus wreaks havoc with Western expectations of biological determinism objectivity and eugenics Beyond the cracks of such discursive practice colour becomes a sentient and nomadic retort to be pitted against a perceived colonial hegemony The ideological reinvention of colour as a resource for independence struggles make it fundamental to multivalent genealogies of artistic and political action and their relevance to the present

**The Hindu Quest for the Perfection of Man** Troy W. Organ,1998-07-27 A lucid thorough and fresh exploration of the material This is an exceedingly helpful study and may be the best single textbook on the subject Previously there was little of note in between inadequate introductions to Hindu thought and the more specialized primary or secondary materials Organ is a competent philosopher and presents the Hindu quest in a scholarly and readable form it is a key book for undergraduate libraries and would be an invaluable asset in a course which dealt seriously and at any length with the Hindu tradition Excellent bibliography Choice This is not just another book on Hinduism but a source of systematic information Bibliography of Philosophy This scholarly and perceptive account makes Hindu beliefs and practices intelligible by showing how the contradictions which have puzzled Westerners are rooted in Human Diversity The Review of Metaphysics *Nation-state and Minority Rights in India* Tanweer Fazal,2014-08-01 The blood laden birth pangs of the Indian nation state undoubtedly had a bearing on the contentious issue of group rights for cultural minorities Indeed the trajectory of the concept minority rights evolved amidst multiple conceptualizations political posturing and violent mobilizations and outbursts Accommodating minority groups posed a predicament for the fledgling nation state of post colonial India This book compares and contrasts Muslim and Sikh communities in pre and post Partition India Mapping the evolving discourse on minority rights the author looks at the overlaps between the Constitutional and the majoritarian discourse being articulated in the public sphere and poses questions about the guaranteeing of minority rights The book suggests that through historical ruptures and breaks communities oscillate between being minorities and nations Combining archival material with ethnographic fieldwork it studies the identity groups and their vexed relationship to the ideas of nation and nationalism It captures meanings attributed to otherwise politically loaded concepts such as nation nation state and minority rights in the everyday world of Muslims and Sikhs and thus tries to make sense of the patterns of accommodation adaptation and contestation in the life world Successfully confronting and illuminating the challenge of reconciling representation and equality both for groups and within groups this exploration of South Asian nationalisms and communal relations will be of interest to academics in the field of South Asian Studies in particular Sociology and Politics *Nation, Diaspora, Trans-nation* Ravindra K.
