Race And Ethnicity In Research Methods:

Rethinking Race and Ethnicity in Research Methods John H Stanfield II, 2016-06-03 This collection of original work demonstrates the new ways in which particular research methodologies are used valued and critiqued in the field of race and ethnic studies Contributing authors discuss the ways in which their personal and professional histories and experiences lead them to select and use particular methodologies over the course of their careers They then provide the intellectual histories strengths and weaknesses of these methods as applied to issues of race and ethnicity and discuss the ethical practical and epistemological issues that have influenced and challenged their methodological principles and applications Through these rigorous self examinations this text presents a dynamic example of how scholars engage both research methodologies and issues of social justice and ethics This volume is a successor to Stanfield s landmark *Race and Ethnicity in Research Methods*

Race and Ethnicity in Research Methods John H. Journal of Marketing Research In *Race and Ethnicity in Research Methods* John H Stanfield II and Rutledge M Dennis call for serious and rigorous treatment of the subject which sheds the journalistic style narrow focus and cultural bias of much of past research They bring together 13 articles that reveal the rich diversity of methods available for researching ethnic groups and ethnic relations There is a healthy dose of multidisciplinary The book is essential for U S race and ethnic researchers who seek to avoid the narrowness and pitfalls of much past research I would recommend this book for research seminars on race and ethnic relations specifically and for general methodology courses which seek to present the diversity of approaches to sociological issues Contemporary Sociology This book contains essays that will stimulate much discussion among scholars while providing practical ethical and strategic methodological considerations for conducting research across racial and ethnic lines Nursing
