Race and Politics Edward Clegg, 1960 **Race and Politics** Edward Marshall Clegg, 1960 Race and politics Edward Clegg, **Politics and Government in African States** Peter Duignan, Robert H. Jackson, 2022-08-01 Originally published in 1986 **Politics and Government in African States** 1960 1985 deals with the politics of sub Saharan African states since independence Each chapter considers the formal structure of government at the time of independence and traces the subsequent changes Each chapter also describes the development of the state machinery the civil service the parastatals defence and police forces party structure the political opposition and trade unions The economics of African states are dealt with insofar as they affect politics and government The Politics and Economics of Decolonization in Africa Andrew Cohen, 2017-05-26 The slow collapse of the European colonial empires after 1945 provides one of the great turning points of twentieth century history With the loss of India however the British under Harold Macmillan attempted to enforce a second colonial occupation supporting the efforts of Sir Andrew Cohen of the Colonial Office to create a Central African Federation Drawing on newly released archival material The Politics and Economics of Decolonization offers a fresh examination of Britain's central African territories in the late colonial period and provides a detailed assessment of how events in Britain Africa and the UN shaped the process of decolonization The author situates the Central African Federation which consisted of modern day Zambia Zimbabwe and Malawi in its wider international context shedding light on the Federation's complex relationships with South Africa with US Presidents Dwight Eisenhower and John F Kennedy and with the expanding United Nations The result is an important history of the last days of the British Empire and the beginnings of a more independent African continent Political Power and Colonial Development in British Central Africa 1938-1960s Alan Cousins, 2022-12-30 This book focuses on the late colonial history of Zambia and Malawi which between 1953 and 1963 were part of the Federation of Rhodesia and Nyasaland Although there were many links in their history and between their populations the two territories British protectorates under Colonial Office control contrasted greatly in power structures in their economies and in their development Europeans living in Northern Rhodesia with a power base in the mining economy were able to establish a dominant position in the territory after the Second World War By the 1950s it looked as though they would have with Southern Rhodesian Europeans a long hegemony gaining independence from Britain as a new Dominion which would mean control over both Northern Rhodesia and Nyasaland through the Federation Thus white ethnicity and ideology are essential factors in this book relating to the struggle for power from just before the Second World War up to the 1960s However crises in 1959 and 1960 led to the collapse of the Federation A second focus is on issues of social and economic development For Africans in Nyasaland and in rural parts of Northern Rhodesia there was a relatively weak economy in this period a pattern of limited cash crop production while many people became caught up in labour migration subordinate to powerful European dominated economic forces within southern Africa This meant that colonial policies aimed

at rural development were fundamentally flawed The book also looks at the actual nature of rural economic change as opposed to colonial policies and discusses alternative visions of the future which were put forward The argument is put that historians have often concentrated on the activities of the main nationalist movements in Nyasaland and Northern Rhodesia seeing them as bringing progress away from colonialism and towards independence Here there is an attempt to draw out the complexities of life and a variety of responses in the colonial situation progress coming in a number of forms but not always being achieved

Colonialism in Africa 1870-1960: Volume 5, A Bibliographic Guide to Colonialism in Sub-Saharan Africa L. H. Gann, Peter Duignan, 1969 A comprehensive study of recent African history examining the political social and economic effects of colonialism

The British Labour Movement and Imperialism Billy Frank, Craig Horner, David Stewart, 2010-05-11 With Foreword by Tony Benn This edited collection explores the British labour movement's relationship with imperialism in the period 1800 1982 through nine inter connected articles Labour historians have tended to neglect the labour movement's interaction with imperialism preferring to concentrate on industrial relations internal factionalism the Labour Party trade union alliance and economic policymaking In order to redress the balance this book takes a broad chronological overview of the subject and engages with key themes ranging from trade union interaction with empire and the influence of popular imperial culture to post war colonial development and responses to post colonialism Taking stock both of the labour movement in a broader context and of new approaches to the history of British imperialism the collection combines the work of leading authorities on labour history with recent scholarly research By blending this combination of economic social political and cultural analyses it makes a substantial contribution to the debates surrounding the legacy of imperialism and the evolution of the British labour movement The book will be of interest to academics researchers teachers and students of modern British political social economic and cultural history It will also appeal to Labour Party members and labour movement activists

Historical Dictionary of Zambia Bizeck Jube Phiri, Thokozile Shaba, 2023-08-15 Zambia is a nation with a long record of peace that has enjoyed decades of constitutional rule and even in recent years an increasingly competitive democracy Peace constitutionalism democracy and nationhood face constant challenges such as in the elections of 2006 when the ugly language of ethnic confrontation found renewed currency Moreover Zambia's economic record and prospects are less equivocal after over four decades per capita incomes are lower than they were at the dawn of independence *Historical Dictionary of Zambia* Fourth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 1 000 cross referenced entries on important personalities as well as aspects of the country's politics

economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Zambia Africa, Its Problems and Prospects Army Library (U.S.),1962 Area Handbook for Zambia Irving Kaplan,1974 **Administration in Zambia** William Tordoff,1980 **A History of Zimbabwe, 1890-2000 and Postscript, Zimbabwe, 2001-2008** Chengetai J. M. Zvobgo,2009-10-02 This study combines in one volume the history of Zimbabwe from the advent of British settlers in 1890 to 2000 including women s rights and human rights in Zimbabwe It is a political social and economic history The Postscript examines the major developments in Zimbabwe from 2001 to 2008 The two previous major studies on the history of Zimbabwe The Past Is Another Country by Martin Meredith London Andre Deutsch 1979 and The Road to Zimbabwe 1890 1980 by Anthony Verrier London Jonathan Cape 1986 are now out of date This volume brings the historical study of Zimbabwe almost up to the present day **Subject Index of Modern Books Acquired** British Museum,1956 **U.D.I** Robert C. Good,2015-03-08 Fearing that their civilization would be overwhelmed a tiny enclave of whites in Central Africa rebelled against a power which a little more than twenty five years before had ruled the largest empire the world had ever known Robert C Good provides an immensely readable account of the international politics of the Rhodesian rebellion which as he demonstrates put great political and financial strains on Great Britain placed Zambia in mortal danger almost destroyed the multiracial Commonwealth and promoted an unprecedented involvement of the United Nations in programs of dubious effectiveness and doubtful wisdom The complex sequence of events which led to the unilateral declaration of independence of November 1965 and the settlement of November 1971 are probed and the policies of the British and Rhodesian governments analyzed particularly the actions and responses of Harold Wilson Above all the Rhodesian crisis is placed in its international setting to show that the failure to impose a transition towards majority rule in Rhodesia has meant that a significant chance to reverse present trends in Southern Africa towards the hardening of racial attitudes and erosion of African confidence in Western intentions has been lost Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 White Mineworkers on Zambia's Copperbelt, 1926-1974 Duncan Money,2021-12-06 Life and work on the Zambian Copperbelt a concentrated industrialised mining region along the border with DR Congo has been a perennial subject for Africanist historians In this book Duncan Money for the first time focusses on the white mineworkers who monopolised skilled jobs on the mines from the 1920s to the 1960s and became one of the most affluent groups of workers on the planet Money argues that this group was a highly mobile global workforce which constituted and saw itself as a racialised working class For much of the twentieth century this white working class moved between mining and industrial centres

across and beyond the British Empire and their actions and forms of organisation were strongly influenced by their international connections and by their mobility These transnational connections and the white working class militancy they produced played a crucial role in shaping social categories of race and class on the Copperbelt and determining the evolution of a region which quickly became one of the world's largest sources of copper See inside the book **Africa** Army Library (U.S.),1962 Subject Index of Modern Books Acquired British Library,1965 *Hollywood's Embassies* Ross Melnick,2022-04-26 Winner 2024 Culbert Family Book Prize International Association for Media and History Winner 2022 Richard Wall Memorial Award Theatre Library Association Beginning in the 1920s audiences around the globe were seduced not only by Hollywood films but also by lavish movie theaters that were owned and operated by the major American film companies These theaters aimed to provide a quintessentially American experience Outfitted with American technology and accoutrements they allowed local audiences to watch American films in an American owned cinema in a distinctly American way In a history that stretches from Buenos Aires and Tokyo to Johannesburg and Cairo Ross Melnick considers these movie houses as cultural embassies He examines how the exhibition of Hollywood films became a constant flow of political and consumerist messaging selling American ideas products and power especially during fractious eras Melnick demonstrates that while Hollywood's marketing of luxury and consumption often struck a chord with local audiences it was also frequently tone deaf to new social cultural racial and political movements He argues that the story of Hollywood's global cinemas is not a simple narrative of cultural and industrial indoctrination and colonization Instead it is one of negotiation booms and busts successes and failures adoptions and rejections and a precursor to later conflicts over the spread of American consumer culture A truly global account Hollywood's Embassies shows how the entanglement of worldwide movie theaters with American empire offers a new way of understanding film history and the history of U S soft power
