Race And Poverty The Economics Of Discrimination:

Race and Poverty John F. Kain, 1969 Collection of writings on the effects economic implications of racial discrimination on Black poverty in the USA covers racial inequality of employment opportunity rural migration to urban area slum neighbourhoods housing discrimination public opinion concerning the social integration of negroes government policy etc Bibliography pp 184 to 186 and statistical tables The Political Economy of Racism Melvin Leiman, 2011-02-02 An intense and compact resource for understanding how the political economy of racism evolved in the United States Science Society Racism is about more than individual prejudice And it is hardly the relic of a past era This scholarly readable and provocative book shows how the persistence of racism in America relies on the changing interests of those who hold the real power in society and use every possible means to hold onto it *Hearings, Reports and Prints of the Joint Economic Committee* United States. Congress. Joint Economic Committee, 1972 **Handbook on the Economics of Discrimination** William M. Rodgers, 2009-01-01 The papers contained in the first part of the book are particularly valuable as a primer for researchers interested in economic discrimination On this basis alone this book is recommended for researchers seeking an overview of current techniques for assessing economic discrimination The final section nicely highlights both the importance in understanding the interaction of policy and economic discrimination and the difficulties in isolating policy effects Education Economics Editor Rodgers has compiled a very useful book that summarizes the current state of the literature on economic discrimination This reviewer learned something new and interesting in every chapter and particularly appreciated the clear survey of the age discrimination literature This book will be of value to academics and to those in the legal arena Highly recommended J P Jacobsen Choice Discrimination s dynamic nature means that no single theory method data or study should be relied upon to assess its magnitude causes or remedies Despite some gains in our understanding these remain active areas of debate among researchers practitioners and policymakers The specially commissioned papers in this volume all by distinguished contributors present the full range of issues related to this complex and challenging problem Part 1 explores innovations in methods and data collection that help to provide richer descriptions of inequality Part 2 reviews empirical evidence on discrimination that people with disabilities older workers and gay lesbian and bisexual individuals face Although discrimination among these groups is not new this Handbook shows that economists are beginning to more fully document their experiences Part 3 presents a balanced discussion of anti discrimination policies and the impact of affirmative action The methods and data chapters are particularly designed to encourage researchers to utilize the new approaches and develop new data sources Accessible and comprehensive the Handbook is the seminal reference on the economics of discrimination for academic and professional economists graduate students advanced undergraduates practitioners policymakers and funders of social science research Race, Racism, and Science John P. Jackson, Nadine M. Weidman, 2006 Since the eighteenth century when natural historians created the idea of distinct racial categories scientific

findings on race have been a double edged sword For some antiracists science holds the promise of one day providing indisputable evidence to help eradicate racism On the other hand science has been enlisted to promote racist beliefs ranging from a justification of slavery in the eighteenth century to the infamous twentieth century book *The Bell Curve* whose authors argued that racial differences in intelligence resulted in lower test scores for African Americans This well organized readable textbook takes the reader through a chronological account of how and why racial categories were created and how the study of race evolved in multiple academic disciplines including genetics psychology sociology and anthropology In a bibliographic essay at the conclusion of each of the book s seven sections the authors recommend primary texts that will further the reader s understanding of each topic Heavily illustrated and enlivened with sidebar biographies this text is ideal for classroom use

Housing and Race in Industrial Society David H. McKay, 2020-07-26 This is a comparative study of the relationship between civil rights law housing and urban policy in Britain and the United States It focuses on the ways in which governments have attempted to remove racial discrimination and disadvantage in private and public sector housing The study first published in 1977 does not simply consist of an account of administrative and judicial attempts to remove discrimination A major concern is to place civil rights laws in their total political economic and social environments The book explains and compares the nature of racial residential change in both countries and assesses the impact of civil rights law on existing patterns of discrimination and disadvantage Other public policies in particular housing and urban policies are examined and their relationship to anti discrimination measures is analysed In explaining differences between the two countries emphasis is placed on the role of government in urban society the political economies of urban areas and the social and political differences between minority groups Finally the study identifies the limits to effective civil rights law enforcement and provides some indication as to the policy alternatives open to decision makers in the two countries

Reducing Unemployment to 2 Percent United States. Congress. Economic Joint Committee,1972 The Persistence of Economic Discrimination Elias H. Tuma,1995 The Political Economy of the Urban Ghetto Daniel Roland Fusfeld,Timothy Mason Bates,1984 The income of blacks in most northern industrial states today is lower relative to the income of whites than in 1949 Fusfeld and Bates examine the forces that have led to this state of affairs and find that these economic relationships are the product of a complex pattern of historical development and change in which black white economic relationships play a major part along with patterns of industrial agricultural and technological change and urban development They argue that today's urban racial ghettos are the result of the same forces that created modern America and that one of the by products of American affluence is a ghettoized racial underclass These two themes they state are essential for an understanding of the problem and for the formulation of policy Poverty is not simply the result of poor education skills and work habits but one outcome of the structure and functioning of the economy Solutions require more than policies that seek to change people they await a recognition that basic economic relationships must be changed **Reducing Unemployment to 2 Percent** United States. Congress. Joint Economic Committee,1972 *Race, Poverty, and Domestic Policy* C. Michael Henry,2008-10-01 div What explains the continuing hardship of so many black Americans A distinguished group of scholars analyzes the long complex structural and environmental causes of discrimination and their effects on African Americans The authors examine the impact of poverty poor health poor schools poor housing poor neighborhoods and few job opportunities and demonstrate how multiple causes reinforce each other and condemn African Americans to positions of inferiority and poverty Some of the contributors examine policies designed to correct problems while others look at the changing racial and ethnic composition in America and its implications for African Americans as other minorities surpass them in numbers and claim political economic and social attention The late James Tobin has contributed a foreword to this important collection DIV **Case Studies on Human Rights and Fundamental Freedoms** Willem A.
