Legacies of Enslavement in the French Republic Nicola Frith, 2025-05-06 *Legacies of Enslavement in the French Republic* explores the complex dynamics between social movements invested in remembering and addressing the legacies of African enslavement and the French State Exploring 25 years of activism from the build up to the 150th anniversary of the Abolition Act 1998 through to the present day the book Investigates strategies used by the French State to delink the recognition of France's enslaving past from contemporary issues with anti Black racism and reparation Asks why in the wake of the first Taubira law that recognized slavery as a crime against humanity 2001 the state has legitimized the work of certain activist groups while delegitimizing others Uses critical race theory and decolonial theory to examine the extent to which the State's approach to recognizing its past is structured by a colonial matrix of power Highlights and contests political and media misconceptions about reparations by showcasing the work of grassroots activists operating in France the Caribbean and the Indian Ocean In doing so *Legacies of Enslavement* showcases some of the key shifts that have taken place in the recent history of activist work operating in parallel with the successive metamorphoses of the French state as it responds to social

and political pressure to recognize and repair the nation's enslaving past and its racial legacies today

Philosophy of African American Studies Stephen Ferguson, 2015-09-16 In this ground-breaking book Stephen C. Ferguson addresses a seminal question that is too often ignored: What should be the philosophical basis for African American studies? The volume explores philosophical issues and problems in their relationship to Black studies. Ferguson shows that philosophy is not a sterile intellectual pursuit but a critical tool to gathering knowledge about the Black experience. Cultural idealism in various forms has become enormously influential as a framework for Black studies. Ferguson takes on the task of demonstrating how a Marxist philosophical perspective offers a productive and fruitful way of overcoming the limitations of idealism. Focusing on the hugely popular Afrocentric school of thought, this book's engaging discussion shows that the foundational arguments of cultural idealism are based on a series of analytical and historical misapprehensions. In turn, Ferguson argues for the centrality of the Black working class, both men and women, to Black Studies.

Africana Anthony Appiah, Henry Louis Gates (Jr.), 2005 Ninety years after W. E. B. Du Bois first articulated the need for the equivalent of a Black Encyclopedia Britannica, Kwame Anthony Appiah and Henry Louis Gates Jr. realized his vision by publishing *Africana: The Encyclopedia of the African and African American Experience* in 1999. This new, greatly expanded edition of the original work broadens the foundation provided by *Africana*. Including more than one million new words, *Africana* has been completely updated and revised. New entries on African kingdoms have been added; bibliographies now accompany most articles; and the encyclopedia's coverage of the African diaspora in Latin America and the Caribbean has been expanded, transforming the set into the most authoritative research and scholarly reference set on the African experience ever created. More than 4,000 articles cover prominent individuals, events, trends, places, political movements, art forms, business and trade, religion, ethnic groups, organizations, and countries on both sides of the Atlantic. African American history and culture in the present-day United States receive a strong emphasis, but African American history and culture throughout the rest of the Americas and their origins in Africa itself have an equally strong presence. The articles that make up *Africana* cover subjects ranging from affirmative action to zydeco and span over four million years, from the earliest known hominids to Sean "Diddy" Combs. With entries ranging from the African ethnic groups to members of the Congressional Black Caucus, *Africana*, Second Edition, conveys the history and scope of cultural expression of people of African descent with unprecedented depth.

The Rise of African Slavery in the Americas David Eltis, 2000 Why were the countries with the most developed institutions of individual freedom also the leaders in establishing the most exploitative system of slavery that the world has ever seen? In seeking to provide new answers to this question, *The Rise of African Slavery in the Americas* examines the development of the English Atlantic slave system between 1650 and 1800. The book outlines a major African role in the evolution of the Atlantic societies before the nineteenth century and argues that the transatlantic slave trade was a result of African strength rather than African weakness. It also addresses changing patterns of group identity to account for the racial basis of slavery in the early

modern Atlantic World Exploring the paradox of the concurrent development of slavery and freedom in the European domains David Eltis provides a fresh interpretation of this difficult historical problem *White Parents, Black Children* Darron T. Smith, Cardell K. Jacobson, Brenda G. Juárez, 2011-10-27 Looks at the difficult issues of race in transracial adoptions particularly the most common adoption demographic of white parents with children from other racial and ethnic groups
