E. Goodlad, 2004-12-07 Studies of Victorian governance have been profoundly influenced by Discipline and Punish Michel Foucault's groundbreaking genealogy of modern power Yet according to Lauren Goodlad Foucault's analysis is better suited to the history of the Continent than to nineteenth century Britain with its decentralized voluntarist institutional culture and passionate disdain for state interference Focusing on a wide range of Victorian writing from literary figures such as Charles Dickens George Gissing Harriet Martineau J S Mill Anthony Trollope and H G Wells to prominent social reformers such as Edwin Chadwick Thomas Chalmers Sir James Kay Shuttleworth and Beatrice Webb Goodlad shows that Foucault's later essays on liberalism and governmentality provide better critical tools for understanding the nineteenth century British state Victorian Literature and the Victorian State delves into contemporary debates over sanitary education and civil service reform the Poor Laws and the century long attempt to substitute organized charity for state services Goodlad's readings elucidate the distinctive quandary of Victorian Britain and indeed any modern society conceived in liberal terms the elusive quest for a pastoral agency that is rational all embracing and effective but also

anti bureaucratic personalized and liberatory In this study impressively grounded in literary criticism social history and political theory Goodlad offers a timely post Foucauldian account of Victorian governance that speaks to the resurgent neoliberalism of our own day Black Cat Weekly #64 John M. Health Promotion Robin Bunton, Gordon MacDonald, Gordon Macdonald, 2003-08-27 Health promotion is an increasingly central tenet in health professionals' lives. It has come into the public eye as the subject of party politics and policy but where does the movement come from? This book brings together views from a range of subjects some not always associated with health promotion such as marketing or communication theory. Others such as social policy or psychology may have obvious connections to make here. The implications for practice are discussed fully for the first time. The volume adds up to a timely reflection on the state of health promotion today and will provide practitioners and academics alike with a clearer understanding of a discipline at the frontier of contemporary policy and practice.

The Idea of Decadence in French Literature, 1830-1900 A.E. Carter, 1978-12-15 The cult of decadence is usually dismissed as an eccentricity of French literature, a final twitter of Romantic neurosis convulsing the lunatic fringe of letters during the last third of the nineteenth century. However, the nineteenth century's preoccupation with decadence provides us with a key to the secret places of its thought, to all the obscure passages and backstairs behind the triumphant facade. Between 1814 and 1914 there was no sense of disaster, no tragic sense. Civilization had become a habit, a side product of political constitutions and applied science. History was viewed pragmatically, of what use were such traditional symbols as throne and altar? Both are essentially propitiatory evidence of man's uneasy knowledge that power is dangerous and destiny implacable. And both seemed anachronisms in a world where it was thought human reason had solved or would solve all the old problems. The theory of decadence is very largely a protest against this comfortable belief. Had the decadents not written, we should hardly suspect that the nineteenth century suffered from the same doubts and hesitations as all other ages before and since.

Feminist mental health activism in England, c. 1968-95 Kate Mahoney, 2023-12-12 Feminist mental health activism in England c. 1968-1995 provides the first in-depth examination of feminist mental health activism in England, employing original oral history interviews alongside detailed case studies of unexplored feminist initiatives. It charts how feminist activists in the late 1960s initially rejected psychological approaches before employing a range of therapies to understand themselves and support one another. This book charts the emergence of feminist mental health groups in the early 1970s, the development of feminist therapy across the 1980s and the influence of feminist politics on national charity. Mind in the 1990s. It examines what participation in feminist activism felt like, demonstrating how these emotions have influenced the construction of its history. The book simultaneously forges a new direction in the history of mental healthcare in postwar England, establishing how feminists' grassroots support for women redefined community care.
