Race Class Women And The State:

Race, Class, and Gender in the United States Paula S. Rothenberg, 2007 This book undertakes the study of issues of race gender and sexuality within the context of class Pref *Women And The State* Shirin Rai, Geraldine Lievesley, 2013-07-23 Offering a wide ranging selection of case studies this book evaluates women s political social and economic involvement in Third World countries It explores both specific experiences of women as well as common themes such as identity empowerment and the conflict between tradition and modernity *Race, Class, Women and the State* Tanya Schecter, 1998 Examines the effect of Canadian immigration policies on both the public and the private worlds of Canadian women **The Motherless State** Eileen McDonagh, 2009-08-01 American women attain more professional success than most of their counterparts around the world but they lag surprisingly far behind in the national political arena Women held only 15 percent of U S congressional seats in 2006 a proportion that ranks America behind eighty two other countries in terms of females elected to legislative office A compelling exploration of this deficiency The Motherless State reveals why the United States differs from comparable democracies that routinely elect far more women to their national governing bodies and chief executive positions Explaining that equal rights alone do not ensure equal access to political office Eileen McDonagh shows that electoral gender parity also requires public policies that represent maternal traits Most other democracies she demonstrates view women as more suited to govern because their governments have taken on maternal roles through social welfare provisions gender quotas or the continuance of symbolic hereditary monarchies The United States has not adopted such policies and until it does McDonagh insightfully warns American women run for office with a troubling disadvantage **Pobladoras, Indígenas, and the State** Patricia Richards, 2004 This critical analysis of the role of the state diversity of women s movements and the social and political position of indigenous peoples of Latin America provides an illuminating discussion of the ways in which the state defines women s interest and constructs women s citizenship **Experiencing Race, Class, and Gender in the United States** Virginia Cyrus, 1997 *Women and the Canadian Welfare State* Patricia Marie Evans, Gerda R. Wekerle, 1997-01-01 Explains not only how women are affected by changes in policy and programming but how they can take an active role in shaping these changes **Our Social World: Condensed** Jeanne H.
