Race in the College Classroom Maureen T. Reddy, Bonnie TuSmith, 2002 Winner of the 2003 American Educational Studies Association Critics Choice Awards Winner of the 2003 Gustavus Myers Outstanding Book Award Did affirmative action programs solve the problem of race on American college campuses as several recent books would have us believe If so why does talking about race in anything more than a superficial way make so many students uncomfortable Written by college instructors from many disciplines this volume of essays takes a bold first step toward a nationwide conversation Each of the twenty nine contributors addresses one central question what are the challenges facing a college professor who believes that teaching responsibly requires an honest and searching examination of race Professors from the humanities social sciences sciences and education consider topics such as how the classroom environment is structured by race the temptation to retreat from challenging students when faced with possible reprisals in the form of complaints or negative evaluations the implications of using standardized evaluations in faculty tenure and promotion when the course subject is intimately connected with race and the varying ways in which white faculty and faculty of color are impacted by teaching about race

is critical to being able to transfer that understanding and curricular content into beliefs and practices As a professor of educational leadership and a college administrator I am most pleased to find a volume that provides perspectives and strategies which can be employed by academicians teaching in leadership programs and practitioners as they lead and prepare others to become leaders Zollie Stevenson Jr Associate Vice President for Academic Affairs and Associate Professor Philander Smith College      **Black Male Outsider** Gary L. Lemons, 2008-01-10 One man's account of becoming a feminist professor      Diversity's Promise for Higher Education Daryl G. Smith, 2020-08-11 Building sustainable diversity in higher education isn't just the right thing to do it is an imperative for institutional excellence and for a pluralistic society that works Updated Edition Daryl G Smith has devoted her career to studying and fostering diversity in higher education In Diversity's Promise for Higher Education Smith brings together research from a wide variety of fields to propose a set of clear and realistic practices that will help colleges and universities locate diversity as a strategic imperative and pursue diversity efforts that are inclusive of the varied and growing issues apparent on campuses without losing focus on the critical unfinished business of the past To become more relevant to society the nation and the world while remaining true to their core missions colleges and universities must continue to see diversity like technology as central not parallel to their work Indeed looking at the relatively slow progress for change in many areas Smith suggests that seeing diversity as an imperative for an institution's individual mission and not just as a value is the necessary lever for real institutional change Furthermore achieving excellence in a diverse society requires increasing institutional capacity for diversity working to understand how diversity is tied to better leadership positive change research in virtually every field student success accountability and more equitable hiring practices In this edition which is aimed at administrators faculty researchers and students of higher education Smith emphasizes a transdisciplinary approach to the topic of diversity drawing on an updated list of sources from a wealth of literatures and fields The tables and figures have been refreshed to include data on faculty diversity over a twenty year period and the book includes new information about gender identity embedded bias student success the growing role of chief diversity officers the international emergence of diversity issues faculty hiring and important metrics for monitoring progress Drawing on forty years of diversity studies this third edition also includes more examples of how diversity is core to institutional excellence academic achievement and leadership development updates issues of language examines the current climate of race based campus protest addresses the complexity of identity and explains how to attend to the growing kinds of identities relevant to diversity equity and inclusion while not overshadowing the unfinished business of race class and gender

Stockdill,Mary Yu Danico,2012-03-15 People outside and within colleges and universities often view these institutions as fair and reasonable far removed from the inequalities that afflict society in general Despite greater numbers of women working class people and people of color as well as increased visibility for LGBTQ students and staff over the past fifty years universities remain ivory towers that perpetuate institutionalized forms of sexism classism racism and homophobia Transforming the Ivory Tower builds on the rich legacy of historical struggles to open universities to dissenting voices and oppressed groups Each chapter is guided by a commitment to praxis the idea that theoretical understandings of inequality must be applied to concrete strategies for change The common misconception that racism sexism and homophobia no longer plague university life heightens the difficulty to dismantle the interlocking forms of oppression that undergird the ivory tower Contributors demonstrate that women LGBTQ people and people of color continue to face systemic forms of bias and discrimination on campuses throughout the U S Curriculum and pedagogy evaluation of scholarship and the processes of tenure and promotion are all laden with inequities both blatant and covert The contributors to this volume defy the pressure to assimilate by critically examining personal and collective struggles Speaking from different social spaces and backgrounds they analyze antiracist feminist and queer approaches to teaching and mentoring research and writing academic culture and practices growth and development of disciplines campus activism university community partnerships and confronting privilege Transforming the Ivory Tower will

Assessing the Teaching of Writing Amy E. Dayton, 2015-03-15 Although fraught with politics and other perils teacher evaluation can contribute in important positive ways to faculty development at both the individual and the departmental levels Yet the logistics of creating a valid assessment are complicated Inconsistent methods rater bias and overreliance on student evaluation forms have proven problematic The essays in *Assessing the Teaching of Writing* demonstrate constructive ways of evaluating teacher performance taking into consideration the immense number of variables involved Contributors to the volume examine a range of fundamental issues including the political context of declining state funds in education growing public critique of the professoriate and demands for accountability resulting from federal policy initiatives like No Child Left Behind the increasing sophistication of assessment methods and technologies and the continuing interest in the scholarship of teaching The first section addresses concerns and advances in assessment methodologies and the second takes a closer look at unique individual sites and models of assessment Chapters collectively argue for viewing teacher assessment as a rhetorical practice Fostering new ways of thinking about teacher evaluation *Assessing the Teaching of Writing* will be of great interest not only to writing program administrators but also to those concerned with faculty development and teacher assessment outside the writing program

**Learning to Speak, Learning to Listen** Susan E. Chase, 2011-03-15 Over the past three decades colleges and universities have committed to encouraging embracing and supporting diversity as a core principle of their mission But how are goals for achieving and maintaining diversity actually met What is the role of students in this mission When a university is committed to diversity what is campus culture like In *Learning to Speak Learning to Listen* Susan E Chase portrays how undergraduates at a predominantly white urban institution which she calls City University a pseudonym learn to speak and listen to each other across social differences Chase interviewed a wide range of students and conducted content analyses of the student newspaper student government minutes curricula and website to document diversity debates at this university Amid various controversies she identifies a defining moment in the campus culture a protest organized by students of color to highlight the university's failure to live up

to its diversity commitments Some white students dismissed the protest some were hostile to it and some fully engaged their peers of color In a book that will be useful to students and educators on campuses undergoing diversity initiatives Chase finds that both students willingness to share personal stories about their diverse experiences and collaboration among student organizations student affairs offices and academic programs encourage speaking and listening across differences and help incorporate diversity as part of the overall mission of the university     *White Scholars/African American Texts* Lisa Long,2005-09-02 What makes someone an authority What makes one person s knowledge more credible than another s In the ongoing debates over racial authenticity some attest that we can know each other s experiences simply because we are all human while others assume a more skeptical stance insisting that racial differences create unbridgeable gaps in knowledge Bringing new perspectives to these perennial debates the essays in this collection explore the many difficulties created by the fact that white scholars greatly outnumber black scholars in the study and teaching of African American literature Contributors including some of the most prominent theorists in the field as well as younger scholars examine who is speaking what is being spoken and what is not and why framing African American literature in terms of an exclusive black white racial divide is problematic and limiting In highlighting the whiteness of some African Americanists the collection does not imply that the teaching or understanding of black literature by white scholars is definitively impossible Indeed such work is not only possible but imperative Instead the essays aim to open a much needed public conversation about the real and pressing challenges that white scholars face in this type of work as well as the implications of how these challenges are met     *G.K.
